

Red Flag -- Why Do They Keep Calling It "The Show"

By Anna Von Reitz

To all the Q-Anon and MAGA friends out there, I want you to stop a moment and think about the fact that you are listening to sources that are all associated with the British Territorial military subcontractors who have been in control of this "show" since 1863, and who have in fact created this entire mess.

So when they start talking about "shows" they are talking about "theaters" and "theaters of war" and the use of psyops--- both on the part of the regular military and any reformers, too. To them, all this political nonsense is like a stage show, and all they have to do is come up with a plausible narrative, an "acceptable storyline", to fool the public and quiet us down.

Then they waltz into our American Federal Republic and substitute their British Territorial Citizen selves for us, "as if" they were operating as honest Americans and as if they had any right to substitute British Territorial Citizens for Americans, and they "seize upon" American Government institutions and properties that belong to us and sit there pretending to "represent" us and being paid to defend us---while actually serving themselves and acting in Gross Breach of Trust.

That's how this country has gotten into the mess it's in: wanton deceit from public employees, and innocent people falling for their "shows".

Unfortunately, Mister Trump has already announced his intention to pull this Substitution Fraud, and there is plenty of historical precedent for the same actors doing the same thing in the past.

After the Civil War, the Brits came in and substituted their own "State of State" organizations for our American State of State organizations, and thereby gained control of our business operations without firing a shot.

Now, they are after another plum in violation of international law, and their only chance of pulling it off is if we are so clueless that we support them in the theft and Breach of Trust they have in mind.

Then they really would be in the cat-bird seat, with British Territorial Officers operating the American Federal Republic, and appearing to have all the authorities of the American Federal Republic backing them up.

Anyone working for the British Territorial United States can tell me how much they love America all day long, but in order to prove it, it's a matter of what they do and not what they say.

Trying to enter upon the American Federal Republic while working for foreign governments and foreign interests --- is a Gross Breach of Trust.

It's not a "show" it's a violation of treaties, contracts, and international law against the interests of the American People.

So, wake up and smell the java. The various Municipal Corporations masquerading as your armed services, have been pillaging our country under the direction of the British Crown for 150 years.

If all they have to do is put on a good play to get another run, they'll put on a show for you, but don't you believe it.

If Trump and Company are sincere, they will align with the American People and forego any duplicitous "occupation" of our American Federal Republic.

If not, well, then, you know who they are: more foreign federal employees operating in Gross Breach of Trust and Violation of Commercial Service Contracts.
