

## International Public Notice: Dear Mr. Trump: Regarding QFS

By Anna Von Reitz

We are aware of how your parent corporations in the District of Columbia are operating to "debank" franchise corporations and using the banking system (and access or non-access to it) as a weapon.

<https://x.com/benaverbook/status/1861511171951542552>

We don't approve or agree. Banking, like the practice of law or medicine, is an Occupation of Common Right, and we uphold the absolute right of all persons to have access to banking services of their choice.

To settle for anything less in the name of safety or crime prevention leaves the door wide open to naked monopolistic control of vital services and their abuse for purposes of political partisan manipulation and coercive targeting of businesses and individuals on a scale only dreamed of by despots.

We are endemically opposed to the stated ends of the QFS "System" which are to force people to sign private Non-Disclosure Agreements and bind themselves to the QFS in order to receive back assets and credit that naturally belong to them and which should be returned to their control free and clear of all and any strong-arm contracting processes.

We oppose the proposed strong-armed and coercive contracts on another grounds as well; the proposers, authors, and architects of the QFS are aiming to capture a very large portion of the assets and

credit for their own use and are intent on defrauding the rightful owners out of 80-90% of their inheritance and restitution.

This is another criminal scheme being promoted by the USA, Inc. and no amount of Non-Disclosure Agreements foisted off on people will protect the District of Columbia, Inc. and its Principals.

We, the actual Government of this country, to which you and your British Territorial cohorts owe "good faith service" have already opted out of the QFS and chosen to develop a Third Path for people -- a new global Bilateral Bank System separate from QFS or BRICs, either one, designed to serve the living people of this planet.

It's long overdue.

So kindly instruct your would-be racketeers to shut down operations and shut down the QFS biometric banking monopoly before it even gets started.

And assign our recaptured assets to the Global Family Bank --- gold, silver, land, cash, and other physical and material assets are to be assigned to The Global Family International Trade Bank, prepaid credit assets and debt assets are to be assigned to The Global Family Commercial Bank.

All the people who have invested in foreign currencies in anticipation of the collapse of the Federal Reserve Note can exchange their bonds directly through The Global Family Commercial Bank and Global Family International Trade Bank interface without any need to sign Non-Disclosure Agreements with racketeers pretending to be their liberators.

The American People are all grown up now, no longer depending on any Nanny State, no longer deceived by self-serving mercenaries.

We have no interest in unjustly enriching corporate entities run by mercenaries promoting themselves as the Good Guys while continuing to run scams like this against the assets and interests of the people

that they are supposed to be protecting against all enemies both foreign and domestic.

We want a clean, simple, transactionally transparent but otherwise private banking system, that is not subject to regulation by private political interests. So we created one ourselves.

Welcome aboard.

As a further note, Mr. Trump, it has come to our attention that Mr. Musk has incorporated a legal fiction entity in Texas calling itself the "United States of America" and that another such entity is attempting to operate in India. This is yet another infringement upon our Good Name and Trademarks, and most likely represents new attempts to impersonate us, steal our identity, and access our credit.

Let it stand before the world that our Federation of States (referred to as a Confederation with respect to the Union States (1777)) is and has always been and must be Unincorporated. Let it also stand that we have not granted any permission to any foreign nation or state or state-of-state to use our Good Name in any commercial capacity whatsoever --- including India and the State of Texas.

We also note that a "State of Israel, Inc." has been created with an agent's address in Kensington Palace, and that it is apparently being staged as the "51st State of the Union". Let's be very clear that while we are sympathetic to the dilemma faced by the living people we are absolutely opposed to the rapacious, bloody, subhuman Israeli Government with which you have aligned yourself.

Any Government that could kill over 200,000 unarmed civilians in cold blood and destroy 36 hospitals, plus leave over a million Lebanese homeless, all under the pretext that it "felt threatened" by a False Flag staged by mercenaries hired by Great Britain, is a rogue state being run by criminals, and it would make more logical sense for Netanyahu to attack London than Balbek.

We have no shred of sympathy for that kind of behavior at all; we wish for it to stop immediately and permanently. Left to themselves, with proper education, the people will sort things out for themselves.

Just get the meddling Brits out of the middle of their business and ours.

As long as we are commenting on international affairs, we will also comment on the Ukraine and the proposed buy-out of Ukrainian Rare Earth Minerals and monopolization of its food production capacity as a means to coercively control Africa by controlling half of Africa's food supply-- we say: (1) until Puppet Zelensky is removed, and a new and freely elected national government restored, there is no valid spokesperson empowered to act for Ukraine, (2) the use of food as a means to subdue Africa and continue colonialist pillaging of its people and resources, is repugnant, illegal, and immoral.

We want nothing to do with it, and when we say nothing, we mean that we don't want a penny of ours or any credit of ours to go toward such investments and we don't want our sons and daughters engaged in implementing any such proxy government business deals in Ukraine or anywhere else.

The Monroe Doctrine needs to be overthrown, as it was promoted by British Corporate interests of the same kind that have been a constant source of war-profiteering, meddling, and fraud schemes throughout the world, and British Territorial "Presidents" have involved and misdirected our unwitting nation in these same sorts of activities well-beyond a simple assertion of having extra-territorial interests.

Please be advised, Mr. Trump, that these current issues are representative of long-term problems that began with the undue influence of the British Government being promoted via the illegal mercenary occupation of our country, control of what should be our banking system and credit, and misrepresentation of our foreign policies.

We have unknowingly paid for, but not profited from these violent, cynical, and ill-advised British Territorial commercial schemes, and we

have been blamed for them as well. We consider it your duty to honor the Constitutional contract and its limitations, and to make a clear distinction between initiatives of the British Territorial Government and its corporate activities and those activities undertaken under contract to us exercising delegated authority.

Please take notice that our contracts are explicitly stated and need to be honored in the same way.
