

## A Reply to "Snopes" and All Others from Anna Von Reitz

Yes, an Alaskan state judge HAS called upon the US Marshals and the rest of the "law enforcement agencies" to do their real job, and I am in a position to confirm it, as I am that judge. Your ignorance is no excuse in this matter.

There are two systems of law in this country, and it is long past time for you all to learn the facts.

When The Constitution was adopted there was already a Common Law Court System in this country that had been established for over 200 years. The Constitution created an additional "federal" court system for the needs of the "federal government"---- that court system is obligated to function in two venues only: administrative (Article I) and maritime/admiralty (Article III).

As you can see for yourself if you ever wake up and bother to look, the Seventh Amendment very clearly stipulates that ALL matters involving living people and their property assets in excess of \$20 are to be decided under Common Law and as you can also readily find out *Erie Railroad v. Thompkins* (1938) there is no such thing as Federal Common Law.

Since all the "States of States" incorporated and adopted the Uniform Commercial Code circa 1965, they have operated as "federal States of States" as defined in the UCC Definitions Section. All these things calling themselves "States" --- except for one---are actually corporate franchises of the parent corporations located in Delaware or Washington, DC, respectively, and are private, for-profit organizations no different from General Electric or Macy's and having NO public office, authority, oath, or bond at all. They are merely "governmental services corporations" in the business of doing what? Providing governmental services to you as a consumer.

All these "courts" you see calling themselves various fictitious names like the "SUPREME COURT FOR THE STATE OF CALIFORNIA" are operated by members of the American Bar Association--- all declared to be foreign agents of the British Crown employed as bill collectors. They are all corporations imposing their services upon you. Both the American Bar Association and the Internal Revenue Service are bill collection agencies employed by Northern Trust, Inc. and both have functioned as foreign crime syndicates on our shores for longer than anyone living can remember.

If "Snopes" were worth a hoot in Hell as a fact checking organization, they would have already discovered all of this and a LOT more, so my advice is to stop taking what a couple liberal Californians have to say about reality as Gospel and start using your own eyes, ears, and minds to check your own facts. Get off your lazy rumps and read the founding documents of this country for yourselves.

Go check out the Definitive Treaty of Peace known as the Treaty of Paris 1783. There you will find that two kinds of people exist in this country----- the "free sovereign and independent people of the United States" (that's us) and the "inhabitants"----- subjects of the British Crown allowed to "reside" here (the members of the Bar and various other "public servants") who are obligated under Article IV, Section 3, Clause 2 to provide us with "essential governmental services".

AFTER you have read the facts for yourselves, check out our sworn and published affidavit of probable cause: "You Know Something Is Wrong When.....An American Affidavit of Probable Cause" which is available on Amazon.

Am I a judge? You'd better believe I am. I am among a handful of actual Common Law Judges in America and where I operate my court---on the land----no admiralty court has any right to stand (See Milligan Ex Parte, 1866).

I am operating the actual Public Common Law Court required by Amendment VII as part of the American Common Law Continental Court System that predates all "federal" and "territorial" courts by 200 years. I am NOT a member of the Bar Association, and for your information, no actual judge having jurisdiction over the land can be a member of the Bar Association. All members of the Bar owe allegiance to a foreign government and are here by treaty (See Bar Association Treaty of 1947) and are precluded from holding ANY public office by The Constitution. Read it and weep.

And wake up. NOW. [www.annavonreitz.com](http://www.annavonreitz.com)

FALSE: Judge Calls U.S. Marshals, FBI to Arrest the President and Congress  
No, an Alaskan judge hasn't called upon U.S. Marshals and the FBI to arrest Congress and the President.
