

# About Richard Warren and His Teachings --- Plus, Filipino Accountability

By Anna Von Reitz

I have repeatedly warned Richard and everyone listening to him that what he is teaching is not about our American Government. It is information about the British Territorial and Papist Municipal Governments. Therefore, anyone listening to him and mistaking this for having anything to do with our American Government is making a grave mistake.

It is one thing to learn about their foreign practices and rules and presumptions so as to know what they are doing and why, it is another thing to participate in these sins and errors, and it is especially NOT RECOMMENDED (emphasis added) for anyone to "access" the value of the Birth Certificate Bond or otherwise mess around in these foreign jurisdictions.

Any such "access" to the Pope's Birth Certificate Bond is an insurance claim posed by a British Territorial U.S. Citizen seeking damages related to harm to their estate.

Are you a British Territorial U.S. Citizen and a Subject of the Queen? If so, what are you doing in an American State Assembly? If you admit to that status, you also inherit all the debts and obligations of it.

Our Assemblies are for Americans who wish to function as Americans and who claim the blessings of their own birthright. They are not for British Territorial U.S. Citizens trying to get their due out of a venal foreign insurance scam.

The reason that we require everyone to declare their birthright status as Americans before joining a State Assembly is precisely because we are drawing a line between ourselves and our British and Papist Employees.

When you go off the trolley and start acting as British Territorial U.S. Citizens in order to get some benefit out of the Pope's insurance bond, you are getting ensnared into their system again and forsaking your birthright for the sake of some porridge.

You are undermining the credibility of your declarations and other paperwork, and opening yourself up to being an accomplice to these international crimes of baby-snatching, kidnapping, peonage, enslavement, conspiracy against the Constitutions, inland piracy, and more.

This is why I don't teach people to "go onto the GMEI" or establish any accounts in that system whatsoever. Those accounts are for British Territorial U.S. Citizens. Not Americans.

There will be restitution for Americans, but it will come at a much larger scale.

So far, we've tracked down where at least \$700 Trillion of the \$950 Trillion in ill-gotten gains purloined by Prince Philip were lodged after 2017.

A Filipino woman working for the "King of Koran" was given this gob of pre-paid credit and the security codes to it, but neither she nor her king have any actual right to it despite whatever the "World Court" or any U.S. Supreme Court might think they have to say about it.

As I pointed out, no Filipino can presently claim to be "King" or claim to "own 248 nations", because:

(1) The United States of America owns the Philippines' land mass and without land, there is no national sovereignty available to the Philippines, no basis for any "kingship". We won the Philippines as spoils of war in the Spanish-American War (1898) and \$20 million dollars in gold was paid in support of the Filipino Government, and thousands of American lives have been wasted defending the Philippines ever since. No other valid successor treaty has ever been established and no repayment for our "investment" has been received, so all the Islands of the Philippines remain ours and in our possession and there is no room in America for any "king".

(2) Although the "King of Koran" may not have gotten the news, it has been illegal and unlawful to own people, that is, nations, since 1926 --- and we are all apt to have something to say about his presumption of lordship over us, especially as he is standing on ground that we bought and paid for.

There is widespread confusion on all sides but the land jurisdiction must be answered and our land treaties must be respected and both the value of the "Life Force Value Annuities" and the actual gold must be returned to the people it actually all belongs to.

We hold the Pope and the British Government and the Government of Westminster totally accountable.

I suspect, though I cannot yet be certain, that all this pre-paid credit resulting from the British-Papist collusion in their worldwide insurance annuities scheme was offered to the Filipinos in exchange for the actual physical gold assets in storage in the Philippines.

If so, this is just another example of the Vermin trying to give someone else's credit in exchange for actual assets ---- more fraud and criminality, in other words. Someone else's credit is no "equitable" exchange for the same victim's physical gold assets. If the Filipino Government has been stupid enough to agree to any such arrangement, we will hold them accountable, too.

All Americans and especially everyone associated in any way with our American State Assemblies need to stop muddling around and trying to get any benefit from these criminal activities. Not only will you inherit the sins of Babylon and rate as an accomplice to these crimes if you don't correct, you will miss out on your actual inheritance.
