

More Sanctimonious Garbage from "Unknown Sources"

By Anna Von Reitz

Virgo Triad has ignorantly slandered me and has supported efforts by others to do the same.

If anyone has to be worried about a slander suit, it's "Virgo Triad" and "Sun Tzu" (Jeff Dougherty) and all those other entities including the Southern Poverty Law Center (which has already lost \$60 million because of their slander of others besides me) that have purposefully and inexcusably misrepresented who I am and what I teach and what I have done.

I say "inexcusably" because everything has been published and is available for examination. My books and my website fully demonstrate my knowledge and my teachings---- including what I don't teach and don't claim.

For example, I have never claimed to have any association with the State of Alaska. So by what form of gross insanity, would anyone try to make anything out of the fact that no, I don't have any association with the State of Alaska? Is this a surprise?

I have never been a member of the Bar Association, either. Why would I be? Just for the joy of paying Union dues?

Consider the sources. We are living in an era when these Vermin glorify falsehood --- when in fact, the Truth lasts forever and their words and their works are the transient and unimportant detritus of imagination and fraud.

I didn't expose the Great Fraud to tens of thousands of clergymen and politicians and bureaucrats for the pleasure of doing so. I do not continue this work and bring it forward to the masses so that the Great Fraud can continue on as status quo.

I did it -- and I do it -- because it had to be done, because a mammoth change must come, and it can hardly happen if nobody knows the history and nobody knows how anything is supposed to be run nor who is supposed to be served by the government.

Logically, step by step, I have pursued reform, restoration, and remedy for the people of this planet. Anyone who doesn't like reform, restoration, or remedy is welcome to get off my boat and swim for it.
