

Scanned Testament

Dear Paul,

Please post this so that all my Readers have it and will have proof of what my Testament says.

A Testament can only be done by a living man or woman, not by any officer or Attorney. It immediately outweighs and over-stands any settlements or probates or other claims that these False Actors might want to impose over the distribution of your estate and belongings.

So never allow a lawyer the option of preparing a "Will" for you--- always insist on making your own Testament instead and leaving it with your most trusted friends. The tradition is to leave at least one copy hand-printed in the flyleaf of your own Bible. If all you want to do is deal with who-gets-what-after-I-am-gone, then it requires nothing more than something similar to what I have done as item "Twelve" of my Testament. Name those you wish to benefit and establish who your Executor or Executive Officer will be.

That's it.

Thank you, Paul, and don't unduly worry. It's just a reality of the situation that many powers will be overturned and upset and many evil beings will be disappointed in their slaving and enslaving activities. I trust to Our Father in all things and know that I will live until He says otherwise, so, be content whatever comes.

Anna
