

Separating Wheat and Tares

By Anna Von Reitz

There would not be a single State Assembly standing in this country without the Federation of States.

Every State Assembly alive and in Session right now does so, and does so safely, because of the Federation of States.

It is always a cause of wonderment to me why some people do not immediately see this and respond with relief and gratitude.

Also a matter of wonder as to why some people mistake the Federation of States for the Federal Subcontractors long after the difference has been explained to them.

Tonight certain people in Oregon are failing to accept responsibility for their own actions and they are “outraged” that they have been struck from the membership roster of The Oregon Assembly for warring against The Oregon Assembly and trying to reorganize it as something else.

Why would you join the Lion’s Club and try to turn it into a Moose Lodge?

That is what certain people have tried to do with The Oregon Assembly and they don’t even have decency enough to take responsibility for their own actions.

They have not been content to join The Oregon Assembly and work within its structure which is part of what makes a State Assembly a State Assembly.

Each State has one State Assembly composed of all the State Nationals and State Citizens peacefully living within its physical borders.

From the members of the State Assembly subsets are derived to perform specific functions— a Jural Assembly, an International Business Assembly, and an Assembly Militia, but these are all functions of the one State Assembly and are performed under its auspices.

Progress in Oregon has been stalled and stagnated for months because people have come into The Oregon Assembly and tried to turn it into something else other than a State Assembly.

They still want to call it a State Assembly and still claim the authority and powers of a State Assembly and still benefit themselves from the going on five years of hard work that others put into building The Oregon Assembly....

In response those would-be members who have been obstructing progress and warring against The Oregon Assembly and usurping upon its authority and functions , have been struck off the membership roster and are free to go and take responsibility for what they are doing.

Meanwhile, we separate the wheat from the Tares and the sheep from the goats. Those in Oregon who wish to stay on the lawful and peaceful road as members of The Oregon Assembly are welcome to do so.

Those who want to strike off and do some other kind of thing and promote some different kind of State Assembly are already struck off the roster.

We have been clear about what we came here to do and how things are structured since 2019. Anyone who has a different agenda has no reason to join The Oregon Assembly and no right to obstruct it.
