Dear President Trump,

Today, October 9th, 2018, marks the Seventh Angle in Space Banking and the end of the 45 year Moratorium and is the day that our Delegated Powers return to us.

The cycle is complete and you are shaking your head not understanding a word we are saying, yet we hold the key to all your troubles and all your remedies.

Not just the money --- all of it.

Double-dog dare you. You and America and 350 million Americans have nothing to lose and everything to gain.
