

Shout Out!

By Anna Von Reitz

A number of needs have hit my dashboard today.

One of our allied program managers needs a place to stay in Oak Park, Illinois tomorrow May 8, 2018 through Friday, May 11, 2018. She's going to be working during the days on relief programs for children and victims of human trafficking-- like Thasja and the children who were taken at the same time. It will cost more than a thousand dollars just in hotel fees and cab fares, and she couldn't afford to come to the meetings without help.

Our lead researcher into the historical copyrights which are key to proving the ownership interests and identities of parties to contracts is in desperate need of financial assistance this month to finish filing several major program claims. This is important to all of us and is the culmination of over five years of hard work.

Our chief engineer who is responsible for the development and deployment of the new, safe banking system is in need of travel funding that will allow him to meet with other key people directly and finalize agreements needed to actually implement this system for our banks and credit unions.

One our most talented Ancient History researchers who has successfully detailed the evidence of what really happened in the Dark Ages in Europe has been hospitalized with a mysterious illness that has not been diagnosed. Please pray for him and his family and send donations for his wife and daughter needed to travel to the hospital.

My Brother-in-Law is also hospitalized tonight at the Mayo Clinic and facing Heart By-Pass surgery. Please join with me in praying for a successful surgery and recovery for him and comfort for my Sister and Niece.

Our friends in West Virginia who have been instrumental in uncovering the history of that pivotal state and what happened there that has affected every other state in the Union ever since are also facing hard times and need money for significant car repairs and hotel costs in Richmond, Virginia, to continue their volunteer work.

One of our members who is in jail tonight on trumped up charges is in desperate need of money for postage and printing and legal fees to continue his legal work and prosecute the cases that the vermin are trying to avoid by incarcerating him. These cases directly impact our claims on public lands and parks and other "set asides" in the western United States.

"It's always something," in the immortal words of Gilda Radner.

I don't expect anyone who is in real need to sacrifice, and simply ask that those of you who have some extra this month consider making a donation to help keep the work (and the workers) moving forward on these many important projects. They all contribute to the whole.

I am still Paymaster for the entire crew, Chief Cook, Bottle-Washer, Grandma, and Dog-Sitter --- so please send what you can to my PayPal Account at: avannavon@gmail.com or to my snail mail address --- Anna Maria Riezinger, c/o Box 520994, Big Lake, Alaska 99652.
