

## International Public Notice: Specific Proofs Required

By Anna Von Reitz

Questions have arisen concerning the Five (5) Proofs required to establish the existence of individually named public trust entities.

Taken directly from the contract 2017- 012486 - 0, pages 1- 2:

(1) a properly executed Death Certificate with a plainly stated title of "Death Certificate" stating the time, place, and manner of death signed off on by a competent coroner; (2) proof of actual paid employment by the municipal or territorial government, including position, supervisor, hours worked, job assignments, place of employment, departmental affiliation, and other details establishing actual, true, employment by a federal municipal or territorial entity; (3) proof of voluntary "personhood" together with stated proof of intent and full disclosure as required by Public Law; (4) proof of colored person status established by DNA analysis accompanied by a voluntary waiver of equal civil rights provisions; (5) proof of political asylum or voluntary seeking of federal benefits under conditions of full disclosure.

It is expected that the Public will be somewhat surprised and maybe confused by these requirements, but each one has its due function and importance.

Requirement 1:

If the Perpetrators wish to tie their commercial claims to a "birth" certificate of a living man or woman and their physical estate and transfer that living man or woman into a new "Estate" in a different jurisdiction of law (what

happens when an American Infant Decedent Estate is created and an almost-identical appearing British Territorial Person is created out of thin air) it follows that a Death Certificate must be provided.

If the Perpetrators of this fraud had issued "Berth Certificates" and given full disclosure that someone or something was being moved, transferred, conveyed or transported, it would be a different story and an actual Death Certificate would not be required. As it is, this misspelling has to be accounted for.

They can't pretend that the baby died without a Death Certificate (one of the ways that an infant decedent estate trust is created) or claim that the baby waived their own estate (they are obviously too young for that when these "birth" certificates are created).

#### Requirement 2:

This comes into play a bit later in the game, where "federal" and municipal and territorial taxes are being alleged -- and enforced -- against Americans who were never federal, territorial or municipal persons.

The primary way that people enter into one of these foreign statuses and become liable for foreign taxation is via being employed by a federal entity, specifically by the federal government or a federal government franchise.

Once the British Territorial "Person" is created out of thin air and named after their American victim, they become subject to foreign laws requiring them to obtain a "Social Security Number" in order to have a job in the Queen or King's Service; this is identical to the same requirements imposed in all the "former" British Commonwealth countries, such as Canada, where British Territorial Subjects are required to obtain "Social Insurance Numbers".

Americans, of course, are not required to do any such thing, but they were told -- by what they assumed was their government -- that they had to do this, so, by the millions, they did. This led to an Adhesion Contract, further "adhering" them, like glue, to the Legal Presumption that they were British

Territorial U.S. Citizens living in The United States and serving as volunteers in the British Territorial Merchant Marine Service as "Taxpayers" -- a Warrant Officer responsible for collecting taxes and tariffs and forwarding them to the British Territorial U.S. Treasury.

Requirement 2 requires the Perpetrators to produce actual proof of this employment or any other "federal" employment that would serve to obligate Americans to pay these foreign taxes: Federal Income Taxes, Territorial "State" or Municipal or County Property Taxes, Estate Taxes, Gift Taxes, Inheritance Taxes, Utility Taxes, Gas or other Commodity Taxes, Sales Taxes, Stamp Taxes, Payroll Taxes, Franchise Taxes, Sales Taxes, and Tariffs.

### Requirement 3

This stipulation forces the Perpetrators to produce proof that the American victim meets the requirements of the First Immigration and Naturalization Act which is still Public Law and part of the United States Statutes at Large, to qualify as a "United States Citizen".

Part of the Perpetrator's Schtick is to pretend that the progeny of the original Federal Employees of the American Federal Republic somehow inherited their ancestors' "special" political status, but as the actual Public Law makes clear, Americans born within the borders of a State or even a Territory have to complete an entire long, knowing, fully disclosed and voluntary process and application to ever become United States Citizens.

The only actual United States Citizens are long-since dead and no new ones have been created in the absence of our American Federal Republic being in operation, but this requirement is here nonetheless to preclude any off-the-cuff press-ganging, conscription, or other commercial malfeasance against living people on the basis of any unproven, undisclosed, and merely presumed to exist United States Citizen status.

### Requirement 4

This requirement is present to protect all colored persons, but specifically, Negroes, who were arbitrarily conscripted by having Municipal United States citizenship "conferred" upon them by the British Territorial Rump Congress following the so-called American Civil War hostilities.

That despicable action was fully discussed in public and pertained only to former plantation slaves who were Negroes who were accused of being "stateless" in the Territorial "States" -- when in fact they were always accorded full nationality and accepted as members of our States of the Union.

This provision requires the Perpetrators to prove that the victim is "colored" in the sense intended by the citizenship legislation and "grandfathers" him or her into the Equal Civil Rights contract, so that no British Territorial President, like Donald Trump, or Territorial Congress or Judge can deprive them of their form of Constitutional Guarantees by arbitrarily defining their "civil rights" as privileges under the British Territorial system.

These people are Americans and are owed the guarantees and limitations of The Constitution of the United States of America as much as every other American. It's not subject to the whims of British Territorial officials.

## Requirement 5

This speaks to additional adhesion contract presumptions offered by the Perpetrators, who attempt to excuse their actions by claiming that millions of Americans knowingly and voluntarily flocked to their doors and signed up to receive Federal Benefits or sought political asylum with the Federal Corporations and their foreign government sponsors.

Given that Americans have to pay for all "Federal Benefits" offered to their employees and dependents, and pay far more than these "benefits" are worth, this is an unlikely proposition at the best of times, and given that the Federal Employees are utterly dependent on their American Benefactors not only for jobs, but housing and permission to be here at all (Residence Act), it's also

wildly unlikely that any American would ever knowingly and voluntarily seek any federal political asylum, either.

Nonetheless, these endlessly deceitful foreign corporations and their Principals have alleged that all these Americans just showed up on their doorsteps like lost waifs, and knowingly and voluntarily applied for Federal benefits and political asylum, thereby becoming dependents of the foreign Federal Corporations ---- mainly by virtue of applying for a Social Security Number, and all the undisclosed adhesion contracts layered onto that, including the "presumed agreement" to pay the FICA tax and other Employment Taxes even if the person is self-employed or employed by an unincorporated American business.

Requirement 5 forces the Perpetrators to prove that they gave all these Americans "full disclosure" prior to signing them up and bilking them of their money and their freedom --- which of course, the Perpetrators did not do and cannot prove.

Taken together these Five Proofs pull the guts out of the Legal and Commercial Presumptions being used to disinherit, denigrate, and defraud Americans.

We have been the victims of "lawfare" and disgusting commercial crimes that members of the Bar Associations have indulged as Undeclared Foreign Agents.

And now, it's over. The Bar Members either back water and obey their actual contract with the Americans, The Constitution of the United States of America, and "recognize" Americans as Americans, or they get arrested and hung as knowing criminals.

As we have said from the beginning, this is not a matter of politics or opinion. It is a matter of vast international commercial crime against innocent living people. It began under the reign of Queen Victoria and spread worldwide. The Brits were the first victims.

The Americans and people of the Commonwealth nations followed shortly after that. In between, nations such as India were raped and pillaged by these same corporate mercenaries and criminals. The same members of the Bar and the so-called "civilian military" bureaucracy were used as knowing and unknowing foot soldiers of this "blight upon humanity".

At the bottom of it, profiting from the mayhem and misery, the banks and treasury departments; at the top of it, the Robber Baron industrialists and their paid off politicians acting as storefronts to give the appearance of a Constitutional Monarchy and a Constitutional Republic long after a sickening form of Corporate Feudalism had been enforced.

And now, the offending corporations and their minions are going to die, on paper or in the streets; but, at least everyone will know what is going on and why. The Bad Guys won't be confused as the Good Guys anymore. And there won't be any doubt that there are plenty of Americans still alive, and lots of living Allies worldwide.
