

International Public Notice: Take Notice!

By Anna Von Reitz

We need to stop being sloppy, especially in international correspondence, but also in our thinking.

The thing calling itself the United States of America should properly be calling itself the United States of America, Incorporated.

It is a British Crown Commercial Corporation in the business of providing essential government services. It's a military services vendor.

This British Crown Corporation is supposed to provide limited services on the High Seas and Navigable Inland Waterways and is obligated to operate under The Constitution of the United States of America to exercise the related delegated powers.

The operators of the aforementioned commercial corporation have purposefully omitted the word "Incorporated" from the name of their business, so as to facilitate confusion about the nature and identity of this commercial corporation.

This confusion has facilitated and expedited many crimes of impersonation and barratry and credit theft, which is why the Perpetrators don't disclose and add the word "Incorporated" to the name of their business.

We, however, and the International Public, need to discern the nature and identity of this British Crown Corporation as a privately owned foreign services vendor with extremely limited legitimate "powers" related to our actual American Government.

This corporation and similar corporations that operated under the even more confusing name of The United States of America, Incorporated --- which again, omits the word "Incorporated" from the actual business name --- have caused no end of death, destruction, criminality, and misery as they have mindlessly sought unjust enrichment and profit for themselves.

These corporations have impersonated The United States of America which is the actual Proper Name of this country when our sovereign nation-states independently operate in International Jurisdiction.

Take home message: these various deceptively named British Crown Corporations, both the United States of America (Incorporated) and The United States of America (Incorporated) have been used to impersonate our actual American Government and our Federation of States of the Union: The United States of America (Unincorporated).

Donald Trump is presently operating as "President" of "the United States of America" (Incorporated). He is operating in the International Jurisdiction of the Sea as a "Commander in Chief" -- exactly as a ship's captain operates on "the High Seas and Navigable Inland Waterways".

This is how he can issue "Executive Orders" and use them to form his own brand of "law" for Federal Employees and franchise corporations.

Anyone who thinks about this for five minutes can see that "Commander" is a Naval Office and that the "ship" under his command is a "ship made of paper" --- a corporation "floated" in Maritime ("Navigable Inland Waterways") and Admiralty (High Seas) jurisdictions.

So when you wish to communicate about these matters, it is important to add the word "Incorporated" or the word "Unincorporated" to the written

communication or verbal representation, because otherwise, it is impossible for anyone to be absolutely sure what "United States of America" you are talking about.

The same thing applies to the United States, Incorporated, which is a foreign Municipal Corporation incorporated in the District of Columbia. They use the same kind of semantic deceit and confusion and deliberately neglect to add the word "Incorporated" to the business name, thereby expediting a constructive fraud that allows the United States, Incorporated, another foreign services vendor, to be mistaken for The United States (Unincorporated).

Please note: The United States is the correct Proper Name for this country in National Jurisdiction.

It is necessary in all communications, written or verbal, to add the word "Incorporated" or "Unincorporated" and so ensure that everyone knows which "United States" is being discussed.

This deliberate confusion promoted by two government services vendors for a very long time has resulted in the creation, embezzlement, and plundering of public trusts, the promotion of an illegal administrative district court system operating in the States of the Union, theft of assets, illegal confiscation of assets, impersonation of our American Government and People, illegal access to our credit, inland piracy, organized extortion, and many other crimes too numerous to mention being promoted on our shores by institutions and persons who are supposed to be here providing us with "essential government services" and doing so "in good faith".

Please do not confuse the nature and identity of our lawful American Government and its instrumentalities in both National and International jurisdictions with foreign incorporated Service Vendors that exercise a limited number of our delegated powers.

The various incorporated British Crown Commercial Corporations are obligated to function in the Jurisdiction of the Sea. The various Municipal

Corporations dba "United States" (Incorporated) function in the Jurisdiction of the Air.

The British Crown Corporations do business under The Constitution of the United States of America. The foreign Roman Municipal Corporations do business under The Constitution of the United States and all their delegated duties are in the Jurisdiction of the Air.

There is a missing American Services Vendor popularly called The Federal Republic that should actually be operating as the States of America under The Constitution for the united States of America -- and should be exercising our delegated "Powers" in the International Jurisdiction of the Land --- but this entity has been "dead" and awaiting reconstruction for over 160 years and is a uniquely American institution.

The take home point is that neither the British Crown corporation Services Vendors nor the Holy Roman Municipal Services Vendors have any granted delegated powers related to our Land Jurisdiction.

They are required by contract and treaty to keep their dirty paws off our Federal Republic's identity and good name. It does not belong to them. We never granted them any "powers" -- delegated or direct -- to manage any aspect of our land jurisdiction and we do not provide them any permission to impersonate our Federal Republic and assume such powers now.

With respect to the long-vanished Federal Republic, we exercise our option to operate the delegated land jurisdiction functions and receive them back to ourselves and to such new Service Vendors as we engage to do the work of the Federal Republic. We do not leave those duties and delegated powers on the table to be seized upon or assumed by either one of the other two (2) Federal Service Vendors.

Mr. Trump is in receipt of approximately two million tons of gold that were released to him and to his British Crown Corporation entity doing business as "the United States of America" (Incorporated).

These are physical assets naturally derived from and belonging to our People; these and other physical assets of this country belong under the administration of our own Land Jurisdiction Government --- and it is precisely because Mr. Trump's corporation has no granted authority or delegated powers related to our land jurisdiction that he and his watery Administration are attempting to launch a British Territorial "Federal Republic".

They hope, once again, to confuse and bilk and defraud the American People and American Government, which has in the past been trusting and dormant, and which has been presumed to accept such "offers" by a process of unopposed acquiescence.

We have not acquiesced to Mr. Trump's plan to front a British Territorial "Federal Republic" and use it to usurp delegated land jurisdiction "Powers" that were not and are not granted to any British business interest or incorporated entity whatsoever.

Mr. Trump and his Administration are under demand to return and release the so-called Vatican Gold referenced above to the lawful American Government and its unincorporated instrumentality, The United States of America, the Delegator of all Federal Enumerated Powers in International Jurisdictions.

Called into Session in 2019, all fifty States of the Union are populated and all members of each State Assembly have properly declared their birthright political standing as Nationals of their respective States of the Union.

Let all nations and all states and all corporations and all corporation officers and all privately elected corporation Presidents and managers and administrators of all kinds, take notice and bear solemn witness to these facts and demands and protestations against any further pretensions, presumptions, unilateral actions, assumptions, or usurpations by the British Crown Corporation and its affiliates against

our sovereign nation-states and People, and their own treaties and constitutional service contract obligations owed to us.

Mr. Trump needs to negotiate with and take his lead from the actual civilian government of this country; it may be the first time that a British Crown Corporation "President" has done so in over 160 years, but his obligation to recognize the American Government and to operate in good faith is clear and stands upon the public international record, precisely where it has stood for very nearly 250 years.

Notice to Agents is Notice to Principals; Notice to Principals is Notice to Agents.
