

## Mr. Trump -- Third Emergency Arrest Order

By Anna Von Reitz

You are requested and required to immediately arrest so-called "Governor" Gretchen Whitmer of the Territorial State of Michigan and to retain her to be bound over for prosecution under the Code of Military Justice.

She has allowed two infected prisoners to be imported into the otherwise healthy population of the Oaks Correctional Facility in Manistee, Michigan, thereby acting in willful neglect of public health and policy, dereliction of duty, and reckless disregard of life.

Governor Whitmer is to be removed immediately.

The Lieutenant Governor can act in her place until and unless they demonstrate any similar propensity to disregard their duty owed to the American States and People.

Please advise these officers that their respective governments are being charged one (1) trillion dollars per American life lost as a result of their actions and their corporations are being bankrupted as a result. They are harming their own corporations and destroying their own pensions by indulging in these actions, as well as making themselves personally liable for very serious criminal charges.

Please make an example of "Governor" Whitmer and pass the word to all other corporate employees of their actual status and liability.

James Clinton Belcher, Head of State  
The United States of America

Anna Maria Riezinger, Fiduciary  
The United States of America
