

# The Status and Operations of the United States in 30 Points

By Anna Von Reitz

This is not rocket science. We all just have to learn a few things we have never been taught.

1. The American Civil War was not a war. It was a Mercenary Conflict fought on our shores between opposing commercial corporations.
2. Both the North and the South were “Confederate States” – meaning incorporated businesses run under the auspices of the States of America confederation which was formed in 1781 under The Articles of Confederation.
3. Confederate States are not States; they are “States of States” --- businesses hired to provide governmental services to our actual States and People. They may be viewed as subcontractors of the States.
4. The Confederate States of States, like The State of Florida and The State of Wisconsin were supposed to be the primary Federal service providers and to operate under The Constitution for the united States of America.
5. In 1863, Abraham Lincoln bankrupted the Northern States of States. The only Office he had left that he controlled was that of Commander-in-Chief, so he imposed a form of Martial Law called The Lieber Code and began to rule by Executive Order.
6. The Office of the Commander-in-Chief falls under the auspices of the Territorial United States Government and is responsible for coordinating joint defense for the States between American Land and Air Forces and the US Navy which remains under direct control of the British Monarch. As such, this Office is under the British Territorial Constitution known as The Constitution of the United States of America.
7. In the years since this began, The Lieber Code has morphed into The Hague Conventions, which apply to Territorial Government activities. Land jurisdiction governments meanwhile formed The Geneva Conventions.
8. The affairs of the remaining elements of the Federal Government in 1865 entered into an uneasy Trusteeship pending the “reconstruction” of the American States of States and day to day operations were entrusted to the British-backed Territorial United States Government.
9. So what we had for a “Federal Government” coming out of the Civil War was a British Trust Protectorate overseen by an American-elected Commander-in-Chief operating under The Lieber Code (later The Hague Conventions) and ruling via Executive Orders. That’s what we still have today.
10. Please note that none of this ever involved our actual States. This is all about the administration and/or mis-administration of the Federal Government and those functions delegated to it via the Constitutions.

11. Meanwhile, the only other surviving part of the original Federal Government structure, the Municipal United States Government entrusted to the members of Congress under Article 1, Section 8, Clause 17, regrouped itself and began a long process by which it, too, has attempted to usurp upon the authority of the actual States and People of this country.
12. By the end of the Spanish American War, the British Trust Protectorate had insinuated itself as the de facto government of this country and acting in its Territorial Capacity, the Congress assumed "War Powers" and "Emergency Powers" for itself that were never granted to it-- under Title 50, the Trading With the Enemy Act--- which again, does not involve our actual States or People at all, except to exempt us.
13. The Trading With the Enemy Act establishes a gigantic trust and defines "the United States" as any place the U.S. military occupies. This allows the U.S. military to vastly expand its Territorial operations and acquisitions on a worldwide basis, and that is precisely what it has done and the reason for establishing 950 U.S. military bases all over the globe.
14. Along with this vast expansion and extension of Territorial Government power, the Municipal United States Government has expanded commercial franchises in every corner of the globe, setting up corporate franchises for itself, such as CANADA and NEW SOUTH WALES, to promote and control business operations associated with the Territorial Government expansion.
15. Obviously, all of this is going on under the auspices of the British Government and the Pope's Municipal Government manipulating the American Protectorate and using and abusing our resources and our people to do it.
16. They have principally endeavored to defraud and dis-inherit the actual States and People of this country via a series of collusive constructive fraud schemes, and sought to ultimately evade the limitations of the Constitutions and International Treaties that have empowered them.
17. This constructive fraud begins when the Territorial Government "seizes" upon American babies born within the borders of one of our States and falsifies information about their identity and political status so as to conscript them and register them as Territorial United States Citizens.
18. This has the effect of kidnapping and transporting Americans from their natural jurisdiction on the land and soil of their actual State, and into the foreign international jurisdiction of the sea: press-ganging, which has been outlawed for two centuries worldwide.
19. Thus misidentified by the Territorial United States Government as Territorial U.S. Citizens and deprived therefore of their property rights and Good Names and lawful identities, the victims are leased as property assets (collateral) to the United States, Inc. run by the Municipal United States Government.
20. The Municipal United States Government seizes upon the Territorial Legal Persons-- which are all defined as Foreign Situs Trusts, and spins off its own corporate franchises operating under various NAMES - JOHN MARK DOE, for example, is a Municipal Cestui Que Vie Trust named ultimately after the living American victim.
21. All of this has been done in Gross Breach of Trust, in deliberate conspiracy against the Constitutions, in violation of the Geneva Conventions, and under False Presumptions.
22. The first False Presumption is that our States and People are subject to The Law of Belligerent Occupation as the result of a 150 year-old commercial Mercenary Conflict that we were never engaged in.
23. Our States and People are in fact owed The Law of Peace, as described by United States Army Pamphlet AR 27-161-1 and have suffered Gross Breach of Trust and Gross Mis-Administration of the Protectorate.

24. Any Powers exercised or conferred upon or delegated to either the Territorial Government or the Municipal Government of the United States derives directly from the actual States and People of this country, which they have deliberately mis-identified as Confederate States of States and as British Territorial Citizens.

25. Without us and our continued support, their "Persons" disappear along with the Constitutions allowing and defining their existence.

26. Whereupon we observe that the Municipal United States Corporations have all been bankrupted and we are the Priority Creditors, owed \$25 Trillion as our National Credit, plus many other considerations.

27. Whereupon we also note that as bankrupt Subcontractors, all "Powers" vested in any incompetent or insolvent entity, return immediately to the Delegators --- to the States and People and their unincorporated Federation of States doing business as The United States of America.

28. The Trustees overseeing the bankruptcy of the United States, Inc. and also the USA. Inc. franchises are responsible for returning Full Faith and Credit to The United States of America, its member States, and People.

29. By Maxim of Law, possession by pirates does not change ownership of assets, and any Persons seeking to seize upon and exploit the assets of Trust Property arising from any Federal claim at all, are pirates by definition with respect to our land and soil jurisdiction States and People.

30. Those responsible for these atrocities committed against the American States and People -an attempted genocide on paper - have acted in criminal Breach of Trust and they must make prompt correction and amends to avoid being identified as criminals guilty of capital crimes and treason.
