

THIS Above All Else, Is What THEY Have to Be Held Accountable For

By Anna Von Reitz

I have just received a copy of testimony placed before Senator Ron Johnson's Senate Investigative Committee by Doctor James Thorp, an eminent Washington, DC area OB/GYN and Fertility Expert.

What he details is a staggering increase in miscarriages and fetal deaths and menstrual cycle abnormalities directly related to and symptomatic of Jab vaccinated patients, resulting in complete or relative infertility.

If I am understanding the information correctly, fertility among the jabbed is 28% of normal, so 3 out of 4 babies on average won't make it to term, leading to a staggering 70-75% decrease in the future population of this planet --- and to our individual families --- based on decisions made "for" us by madmen lacking any authority to even comment on our health and family decisions, by unelected bureaucrats, by "agency" personnel, and by corporations that stood to make a whole lot of money doing this.

They all need to be prosecuted to the fullest extent of the law. They all deserve to have their licenses revoked, their corporations liquidated, their bank accounts seized. No bankruptcy protection should be accorded to these guilty parties. No benefit of the corporate veil should be extended to the corporations involved, their officers or their board members.

Think of the millions of expectant Mothers and Fathers whose hopes have already been dashed by miscarriages and whose future hopes of having a family or adding to their present family are now placed at a 70-75% risk.

Those of you who have known the heartbreak of infertility or genetic incompatibilities which have limited your ability to have children and increased the risk of having non-viable offspring already know what I am talking about, but for millions upon millions of couples worldwide, this nightmare is just beginning.

If these statistics are even close to being correct for the general population, 70 to 75% of those innocent expectant Mothers who thought they were doing the right thing to protect their health

and the health of their unborn babies by getting "vaccinated" suffered spontaneous miscarriages instead. When they try again, they will have a three out of four chance of miscarrying again and again and again and.... again.

With all that that entails mentally, physically, and emotionally for them and for their husbands and their families.

Imagine all the hopeful happy phone calls to the Grandparents, only to be followed a few weeks or a couple months later with the crushing news that no, there won't be a new grandchild, afterall.

Imagine what they have done to the world population, how they have martyred others, while protecting themselves with explicit exemptions, how they have killed three-quarters of the client base of other corporations, how they have adversely and recklessly "transformed" the future of the human race --- and now, let's get down to who THEY are.

Obviously, the AMA and the Big Pharma vaccine manufacturers, the corporate CEO's who "mandated" that their employees all be vaccinated, the university and school and hospital administrations that did the same, and now, let's begin the evaluation of the unelected bureaucrats who seized non-existent "emergency powers" --- in this country that means the unelected "National Security Council".

Which "nation" is being protected and what kind of "security" involves the deliberate murder and maiming of billions of innocent people?

These are the members and staff of "your" National Security Council, who saw fit to destroy your reproductive capacity under color of law and deceit, passing it off as a "vaccination".

If you don't recognize a single name on this list, it is not surprising, as none of these persons have ever run for public office, even such "public office" as may exist in a private corporation.

These individuals have, by their own action and inaction, killed millions of Americans and they and their counterparts around the world, have murdered and maimed billions of innocent people worldwide. 121 "persons" and not one of them has been elected to represent anyone but themselves.

Please note that several key offices, like the Senior Director for Legislative Affairs, the Deputy Assistant to the President & Deputy National Security Advisor for Cyber and Emerging Technology (like modification of the human genome via injection of foreign mRNA delivered at the cellular level by a specially engineered agent based on the corona virus) and space-based weather modification and geoengineering), and Coordinator for the Southern Border (ours) were conveniently vacant.

What the statistics are saying is that if you took the Jab you are more likely to die from all causes than your unvaccinated peers, including as a fetus, and your reproductive capacity has been reduced to about 25-30% of normal fertility -- and these are the unelected career bureaucrats and political appointees, who, together with members of DOD and complicit commercial corporations, including for-profit pharmaceutical and hospital corporations, did this to you.

If you are ready to sue someone, here are 121 "persons" who should be held 100% commercially and individually liable for their part in this insane fraud scheme.

If you resent having nameless, faceless political appointees and career bureaucrats making decisions about your "national security" and your health and reproductive future--- and anything else they care to weigh in on apparently--- it's time that you let those "persons" who are supposed to be acting as "your" representatives, or at least as your Public Employees, know what you think of having unelected multi-national boards, commissions, councils, and blue-ribbon committees in charge of both your personal and national destiny.

That is to say, we didn't sign up for, consent to, or agree to any such arrangement. And any mistaken idea otherwise needs to be scrubbed from the collective memory of all members of anything posing as a government body of any kind.
