

International Public Notice: to the Admirals, Generals, and All Others

By Anna Von Reitz

We address this Notice to the American Admirals of the Purloined Fleet, the Generals of the U.S. Army, and all other military and civilian government personnel, as well as to the People-at-Large:

If you have not read the Second Session minutes and proceedings of the First Continental Congress, the same concerning both Sessions of the Second Continental Congress, The Unanimous Declaration of Independence, Blackstone's Commentaries, The American Admiralty, It's Jurisdiction and Practice by Erastus C. Benedict, and the Judiciary Act of 1789, you literally don't know what you are supposed to be protecting.

This leads to a situation in which the military has been duped into serving a substitute government which is in fact foreign to this country, and is operating as two foreign "service corporations" acting under color of law.

The military of this country has also been duped into acting as a Mercenary Force for the past 160-plus years.

It has also been duped into an illegal and unlawful de facto occupation of this country and has engaged in predatory pillaging and plundering of this country and its people under color of law--- for the benefit of foreign Principals, including the Pope in his role as the Roman Pontiff, the Lord Mayor of the Inner City of London, and the British Monarch.

Current narratives produced by the British Government and by functionaries of the combined "military" forces of this country are seeking to blame all this on the so-called Act of 1871.

The Act of 1871 was repealed in 1874.

Even after parts of the Act of 1871 were piecemeal implemented, all it did was to establish a second incorporated foreign Municipal Government in the already foreign and incorporated District of Columbia inhabited by its British Territorial Government.

All this amounted to was the then-Pope seeing what the foreign mercenary forces were already doing, and deciding to get in on the British scam himself.

The British Governments of Westminster and the Monarchy, both, owe us, Americans, good faith service and perpetual amity; to evade their obligations under treaty and under their service contracts, known as Constitutions, these Principals conspired against their employers, and against the Constitutions, by unlawfully converting the American populace into British Territorial U.S. Citizens and Municipal citizens of the United States, neither one of which are owed any protection or guarantees under the Constitutions.

This unlawful conversion activity was carried out under color of law and deliberate conditions of secrecy and deceit, so as to evade the limitations and obligations of the Constitutions owed to these American victims of this fraud and malfeasance.

To try to excuse their actions, the same Perpetrators have attempted to redefine the meaning of "war" to include Mercenary Conflicts and to claim Emergency Powers for themselves under the Pretense of these phony wars.

What we are seeing and experiencing is in fact a vast individual and collective fraud scheme amounting to a National Identity Theft aimed at credit hacking, and all based on semantic deceit, impersonation, and barratry practiced by the members of the International Bar Association, American Bar Association, and various State franchises.

Imagine the Dutch East India Company and the British East India Company in mortal deadlock, with America abused as their "battleground" and the American

people left in the middle, unarmed, not aware of the circumstance, being mischaracterized as participants in this Mercenary Conflict by both sides.

And both sides profiting themselves at the expense of their actual victims, the American States and people.

We have loyally supported what we believed to be "our" troops through thick and thin, filled the ranks of what appeared to be our traditional military, and now, we come to this juncture and observe that not only is the military trying to weasel out of any culpability and attempting to carry on with business as usual, but are concocting more deceitful narratives of a self-aggrandizing nature --- and trying to occupy our long vacated Federal Republic, so as to substitute their own administration for the rightful administration provided by the States of America.

We are demanding the return and release of our assets and property interests purloined under these conditions of non-disclosure, deceit, and usurpation, via the lawful conversion of these foreign private mercenary forces back into a public military force rightfully belonging to us and to our country.

Continued attempts by incorporated entities to usurp against the government of the living people only exacerbates the situation and the overall criminality with which these ends have been pursued.
