

## International Public Notice: To the Bone

By Anna Von Reitz

Though the new Department of Government Efficiency hasn't yet touched on the issue of Foreign Aid --- a topic that is worthy of its own Fraud Department --- it is a matter of public record that:

Joe Biden's Administration and the pretend-members of the "United States Congress" have sent billions of dollars of humanitarian aid of one kind and another to Ukraine (to bulk up and support the proxy war effort and provide payola to foreign politicians and kickbacks to Democratic Party politicians) and billions more to Africa (to gain leverage on African governments) and still more billions in the Middle East rebuilding what we destroyed by selling arms to Israel in the first place.

Yet, two months later, we are being told that there's no money to help and heal the victims of Hurricane Helene in North Carolina and Eastern Tennessee.

Mike Johnson, Speaker of the House of Fake Representatives, couldn't even be bothered to reallocate funds from these other giveaways to take care of the folks at home, even though his position is mandated to do so in times of crisis.

We guess that the simpering puke doesn't know what a crisis looks like. We should show him:

Speaker Johnson (like Governor Cooper) sat on his adorable little thumbs, both deeply inserted into his rectum, and decided to wait until late January when the other Corporate Pukes and Phonies reconvene.

Most likely aid packages for the seven States impacted by Helene and individual grants-in-aid to flood victims aren't even on the Agenda. Nobody who knows anything about DC would be silly enough to suggest it.

By then, late January, many more of the local people will be dead from exposure or will have left the State, leaving their land unoccupied and open for claim jumpers and local "federal" confiscation activities.

Our recommendation is that Trump should simply tell the people the truth about the 2020 election --- that it was always a farce, that their votes never counted for anything but a straw poll, and despite all that (that wasn't enough) the phony "United States Congress" still failed its required obligation to investigate election irregularities and certified the results in the face of mammoth fraud.

This means that all those who certified the 2020 election results without investigation committed treason and there is no doubt about that.

The Brunson case, now decided, demonstrated all that and more, such that the entire Biden Regime is a nullity and several hundred members of the then-Congress belong in jail.

Imagine that? A nullity. Every bill passed, every dollar spent, every action foisted off on the American public --- gone, as if it never was. More than that, the failure to perform means that the Principals are responsible for the circumstance, and have to pay everything back, with interest --- without benefit of the corporate veil.

It should, logically, mean an end to the proxy war in Ukraine and an end of support for the secret obliteration of Syria by Turkish Mercenaries and also the end of support for Israel and its genocidal rampages.

Should.

One of the consequences of the 1937 Declaration of Interdependence of the Governments in The United States was that the Holy Roman Empire's corporation doing business as "the United States, Inc." took over as the presumed remaining civilian government of this country. That's how it has gotten away with misdirecting and abusing the military with such impunity.

And all without a word to the actual civilian government.

This is also how both of these foreign service organizations have successfully plundered and pillaged the State Trusts and Individual Trusts set up in our respective names. This is also how these private, foreign-owned service corporations have endeavored to charge Americans "private taxes" ---for example, "payroll taxes" and "utility taxes" and "property taxes" and "gift and estate taxes" and "income taxes" and "capital gains taxes" and other taxes on taxes.

This is how they collected all their own taxes and charged them off to us.

They also accessed our credit by pretending that our Mothers knowingly waived our American estates "for" us when we were babies, pretending that we were stateless, pretending we were fatherless, pretending that we volunteered to adopt their foreign citizenship obligations, pretending that they were our trustees, our representatives, our deputies.... when in fact, none of this was true, and they were operating in Gross Breach of Trust and in violation of their respective Constitutions ---- that is, their service contracts, for decades.

These charges have been given Due Process and subjected to our Final Judgment and Civil Orders as of April 14, 2014. There is no reasonable doubt that these statements are true and unopposed, and that these felons already stand convicted.

How could we be so clueless for so long?

Their secrecy was impressive. Both corporations colluded to protect each other and make sure that the public was lulled into complacency and trust. Then, over time, they gradually changed the Public School System --- from our public school system to their public school system, and from 1976 to now, they have actively striven to dumb Americans down and remove American History, Civics and Government classes, World History, and even Economics (which might expose crooked monetary systems) from the curriculum offered to American students. Our basic biology textbooks have not been significantly updated for forty (40) years.

Their corruption of the legal system was well-practiced and rehearsed for a hundred years in England before the first Carpetbagger Courts opened on our shores. We weren't the only clueless rubes among the nations. We have plenty of good company including the countries of the British Isles, Germany, France, Italy, all of Scandinavia, the former Commonwealth, and even Japan. All these countries, like us, have suffered illegal mercenary occupation

Their deft use of similar names deceit and jurisdictional boundaries was calculated to confuse and defraud; it was well-planned in advance and well-orchestrated prior to, during, and after the so-called American Civil War and ever afterward.

Thus by secrecy, omission, and deceit, these foreign corporations and their employees, all contrived to impersonate us, substitute their organizations for ours, and to steal our identity --- literally by pretending to be us and pretending to be the actual government.

All of this swindling was done to us, their Employers, by our Public Employees, people who owed us their "good faith service" in consideration of their pay and benefits.

So now, we are angry, and righteously so, over the gross mistreatment and uncaring displayed toward the victims of the DEW-fires in California and Maui, the weaponized weather warfare deployed against the Southeastern United States, and the hideous phony "Pandemic" unleashed against all of humanity by these genocidal crooks and lunatics.

We are also beyond ticked off about the state of our Southern Border, which the Territorial Government Subcontractor should have never allowed and which it is in fact under contract to prevent. It is no doubt this contractual obligation and the threat of losing their contract for failure to perform, that is the basis of Trump's determination to close the border.

Now that the actual and properly declared State Assemblies are back in town, our State Citizens are present and enabled to directly enforce the Constitutions. We can deputize as many Americans as are required.

This is a criminal matter, not a political one.

The Board members of the World Economic Forum and their member corporations should be arrested and the Federal Subcontractors' appointees in the United Nations should be arrested without further adieu. Anyone who is a graduate of the WEF "Future Leaders" program who is currently working in any government service, office, or capacity should be arrested.

Their "nations" composed of foreign citizens, that is, persons instead of people, are not nations. They are legal fiction fabrications.

This fraud and misrepresentation alone is sufficient basis for the dissolution of the United "Nations" ---which are not nations of living people.

We demand the immediate and massive funding of relief to the Southeastern United States and its people, without strings attached and with no legal presumptions regarding their political status.

Aid is to be in the form of grants, not loans. These are to be free of charge and without any presumption of debt settlement or other undisclosed purpose or encumbrance.

All land titles are to be returned to everyone who is NOT an actual direct employee of the Federal Subcontractor(s); property belonging to Federal Employees are to be held in trust pending their release from indentured servitude or retirement.

No claims of any "Federal Eminent Domain Powers" are to be made by anyone employed in any capacity as a public employee at any level, nor by

any federally-affiliated Corporation personnel, including Black Rock, State Street, and Vanguard. No entity in our Federal Government was ever given powers of Eminent Domain in this country and such powers do not accrue to incorporated franchises of any Federal corporations being operated as "Counties".

All mineral rights, including the mineral rights of the land jurisdictions of each one of the States, belong to the people operating in their private capacities or to the People on public lands. Internationally, all mutually-held powers pertaining to the land and its assets are exercised by the unincorporated States of the Union and their unincorporated Federation of States doing business as The United States of America since 1776.

Any foreign District of Columbia corporation or foreign government from overseas seeking to claim mineral rights within the borders of the States of the Union is in violation of international law--- and is served Notice thereof: Notice to Agents is Notice to Principals; Notice to Principals is Notice to Agents.
