

# To the Clueless in America

By Anna Von Reitz

First, this country has been under "Martial Law" since March of 1863. It has never been taken out of "Martial Law" because the people here were kept in the dark and fed you-know-what by our military subcontractors and the vermin running "the" Congress of "the" United States.

The only differences now are: (1) the American People finally woke up and brought their States of the Union into Session; and, (2) the corporations that have been acting "for" us and beating us into the ground have both been bankrupted.

That leaves the Federales out of a job and scrambling to get back into power.

The "New World Order" represented by the Pope's Municipal Government staged out of Washington, DC, which by the way is an "independent, international city-state" run by a plenary oligarchy formed by members of the U.S. Congress --- not our Congress of States --- see Article 1, Section 8, Clause 17 --- is trying to take over and deceive people into believing in its authority, when it has none.

The Military Junta that has been running things in violation of their oaths and contracts for 176 years, has been caught flat-footed, and because most of them were "following orders" issued by the Municipal Government and mistaking that THING in DC for our civilian government, that is no surprise.

So the Fraudsters and Traitors running the Pope's Municipal Government are fighting with the mostly clueless British-directed Territorial Military Government and the American People are being told to "shelter in place" while they hash out their differences.

These are your Employees. They are running amok. It's up to you to direct them, not for them to direct things "for" you. You now have the lawful means to present yourselves. Your State Assemblies have been brought into Session. Run don't walk. Go to: [www.TheAmericanStatesAssembly.net](http://www.TheAmericanStatesAssembly.net).

Learn how to lawfully self-govern, or you will continue to be slaves for your own erstwhile Employees.

Two pieces of complete Horse Hooey are circulating in the rumor mills today which I wish to debunk.

The first is the idea that our country and nation somehow "disappeared" and became a British Crown Corporation in 1871. That is not what happened. What happened is that our Employees saw an opportunity to pull a fast one and usurp power, and they did. They were functioning as foreign Subcontractors of our Government and they usurped upon our lawful government, formed a Scottish corporation doing business "in our names" and impersonated us.

Via this deceit, they accessed our credit just like any credit card hacker, and have robbed us blind ever since.

The second idea is that Trump is going to lead us to glory as head of yet another foreign commercial corporation doing business as UNITED STATES REPUBLIC.

Anytime you see something spelled in all capital letters you know for sure that you are looking not only at a corporation, but an incorporated entity --- meaning that it is being chartered by a sovereign government and made subject to that government for commercial purposes.

Since our own sovereign government just recently got back on its feet, you know that the UNITED STATES REPUBLIC has been formed under the law and auspices of a different sovereign government, just like they went offshore in 1868 and created a Scottish commercial corporation and operated it "in our name" as The United States of America, Inc.

So where in the Hell was this would-be Interloper incorporated and what was it incorporated into? From the look of it, the UNITED STATES REPUBLIC is another foreign Municipal CORPORATION straight out of the Pope's bung hole.

None of these foreign corporations are necessary.

None of them are desirable.

We have our own actual nation and country and government. We are competent to charter our own corporations if we need to create new instrumentalities for ourselves.

They've been using our Title IV flag as a loaner and operating "in our names", but they are now bankrupt, and we have reclaimed our property interests and our flag by Operation of Law.

Possession by pirates does not change ownership.

And since our country is not a democracy and never has been (that's the British Territorial Government, not us) we don't need large numbers of Employers to come to the table and provide direction for our foreign Subcontractors. A few from every State can do the job if necessary and we have already proven that we will.

So, all the corporations can get back in their boxes and settle down. If they don't we can pull their charters, nationalize their assets, and knock them down like kingpins.

The only Federal Employee left with a contract and any authority at all, is Donald Trump, acting in the Office of Commander-in-Chief, not "President" of any bloody, nasty, self-important, disloyal, dishonest, self-serving foreign commercial corporation seeking to deceive and enslave the unsuspecting American People.

And if Joe Biden is "inaugurated" as "President" of a new Municipal corporation, we could care less. It has nothing to do with us. Nothing to do with the Territorial United States, either. In fact, the Creditors of "the" United States are invited to come take possession of the Municipality of Washington, DC, all one square mile of it, and raze it to the ground.

Our lawful seat of government is in Philadelphia, Pennsylvania.

As Gomer Pyle would say, "Surprise, surprise, surprise!"

And no, we are not part of China.
