

Treason in Your Faces

By Anna Von Reitz

Wake up, Campers. The CIA and the U.S. Military are at war.

Actually, if you want the Big Picture, it's the Municipal Corporation under Joe Biden versus the Territorial Corporation under Donald Trump at war --- carrying on a perpetual Mercenary Conflict, and they are just using our country as a stage, illegally.

Remember how I told you that since 1937 we've had two of everything?

We've had the [Territorial] Department of Defense and the [Municipal] DOD, side by side, in complete redundancy, and we've been paying for both.

We've had the Department of Labor and the DOL.

We've had the Department of Transportation and the DOT.

We've had all of these parasites, plus, over 400 illegal, unelected subcontractors of subcontractors, too, all in duplicate if not quadruplicate.

Yes, we've had the Internal Revenue Service and the IRS.

We've had the Federal Bureau of Investigation and the FBI.

We've had the Central Intelligence Agency and the CIA.

We've had the Department of Homeland Security and the DHS.

Are you seeing the pattern at last? It's been this way ever since our two foreign federal subcontractors got together and colluded to share the spoils and suck us, their Employers, dry.

The Smoking Gun that explains all this is called "The Declaration of Interdependence of the Governments in The United States" and thousands of copies of this otherwise rare document have been reproduced and distributed all over America and all over the world.

No need to take our word for it. It's reproduced on our websites. You can order your own copy.

If anyone calls you a Tin Hat, rub their noses in it. Black and white. No need to argue.

So, after the 2020 Election was hacked, the U.S. Military hit the Frankfurt cell of the CIA and took home all the computers proving the hacks and all sorts of other dirt on the Municipal United States Government.

More recently, [January 6th](#), the CIA struck back, and abducted and tortured General Berger, USMC, Joint Chiefs. He was finally located and rescued according to Office of Naval Intelligence and Marine Cyber Command reports; Berger's condition is not known -- only that he was found lashed down to a bed, beat up, showing signs of torture, drugged --- rescued by his brother Marines and returned for medical care.

If anyone in the Biden Administration ordered this attack, even by omission, they are guilty of treason. In your face treason--- not only for deployment of the CIA within The United States, but for treason by the Office of Commander-in-Chief. It wouldn't be the first time. Lincoln did it.

Wilson did it. FDR did it. But three times is a charm.

Joe Biden won't get away with it. And the CIA won't get away with it.

The reported four corpses the Marines took out along with Berger, plus one living Witness, will have an adequate tale to tell. Once that tale is told, you can count on all hell breaking loose all over the world, as all the various "intelligence community" organizations take sides and as the militaries smash them all flat.

It will be quite a show. Something to make the Game of Thrones pale by comparison.

Get ready. Brace yourselves. I don't think that the answer will be long in coming.
