

Why Can't President Trump Stop This?

By Anna Von Reitz

The short answer--- (1) Mr. Trump is presently an employee of the Queen who is illegally continuing to exercise our own Delegated Power against us, even after her own actions have invalidated any claim she has to do so; (2) the US NAVY which planned and directed the attack has always been under the control of British affiliates and collaborators in Switzerland and Belgium -- so now you begin to see how this connects-- the British have con...trol of Mr. Trump and the British protect their MUNICIPAL collaborators; (3) the USAF that allowed the attack is also under control of the Swiss-Belgain affiliates, so same story there, though Trump could remove the recently appointed Joint Base Elmendorf-Richardson Commander for his part in this inglorious affair.

In a sane world, employees who attack their employers are considered criminals and are arrested as such. We are waiting to see if the world is sane or not.

The rest of the answer that as "President" of the United States Mr. Trump is just a corporate CEO running two big bankruptcies.

To my knowledge, he has never accepted our offer to step into his Public and Bonded Office as The President of The United States of America --- for whatever reasons.

As President of the United States, he is a "Level 18 Administrator" --- there are ten (10) higher levels in the "International Government" which has crept in and claimed to be "Majestic", while in fact being unauthorized and criminal.

As the lawful Fiduciary for The United States of America and the unincorporated World Trust, I am a Level 28 Principal and 1:1:1 Administrator.

I am lawfully entitled to settle all this nonsense. If the usurpers can be persuaded to step aside and let me do my job, we can all get through this with a minimum of harm and a great deal of good being done.

Until they do, they will continue to run amok and cause trouble because they are not mentally or emotionally mature enough to understand the situation they are in. Think: two year-olds with hammers.

We will continue to take their "hammers" away from them and muffle their blows and ride herd and thwart them every step of the way until they wind down like two year-olds at the end of a busy day. Our point isn't to hurt them. Our point is to take the hammer(s) away and prevent them from doing more damage.
