

## Trusts or No Trusts - How they should work, and where they came from.

By Anna Von Reitz

By definition, a "trust" involves trusting someone or something to take care of property that belongs to you, the Donor.

And presumably, a trust is only necessary when you are dead or disabled, correct?

Right.

So let's go over what we know happened from the historical records.

1863, the United States Army was put in control of the nation's fate, our money, our lives, and everything else. That never changed. No peace treaty ending the Civil War was ever signed. Instead, President Johnson made a series of public declarations of peace on the land jurisdiction amounting to a commercial contract.

1868, the Rump Congresses acting without authority created a "national citizenship" that applied to the "United States" ---- their company and its employees and subcontractors--- presuming that everyone was a "United States citizen". To overcome this presumption you must take action to Expatriate back to your natural standing as a non-citizen.

1933, FDR acting as the "President" of the United States of America, Inc., enters the "company" into bankruptcy. As he does so, he commits the greatest fraud in human history. He redefines our Trade Names operating on the land jurisdiction styled like this: John Michael Doe to instead be Foreign Situs Trusts operating in the international jurisdiction of the sea--- and styled the same way: John Michael Doe. These Foreign Situs Trusts created out of paper and hot air, were then named as "sureties" --- basically, co-signers-- for the debts of the already bankrupt United States of America, Inc.

In this way, we, our parents, and our grandparents were entrapped into paying off the debts of a private, mostly foreign owned governmental services corporation by fraud. We were also press-ganged out into the foreign international jurisdiction of the sea, where we and our estates could be oppressed and plundered by privateers known as BAR Attorneys.

That's why they have a BAR License. A License is official permission to do something that is otherwise illegal.

1944, FDR sells the commercial services contract to the IMF, which boots up the UNITED STATES, INC. and it promptly sets up its own shop and starts additionally charging us for its services under trust account names styled like this: JOHN MICHAEL DOE.

1999, the bankruptcy of the United States of America, Inc., is finally settled and discharged. Our actual Christian Names are set free from any "presumption" of debt, but the US (Bankruptcy) Trustees leave us adrift on the High Seas and don't re-convey us back to the land jurisdiction we are heir to.

Thus, just so everyone is getting this--- FDR fraudulently conveyed our names and estates into the foreign and international jurisdiction of the sea, and then the US (Bankruptcy) Trustees---- the United States DEPARTMENT OF JUSTICE under the Clintons--- failed to re-convey our proper names and assets back to the actual people and their States on the land.

First, they sinned, and then they sinned by omission.

2015, the UNITED STATES, INC., is not only bankrupt, but insolvent, and liquidation of the CORPORATION and its assets begins. And included in those assets, you guessed it, are the assets of the JOHN MICHAEL DOE trust accounts.

So, this is what comes of "trusting" a bunch of bureau-rats in Washington, DC, with running your estate and dealing fairly with you and your property interests in Good Faith.

Everyone and their Grandma is making claims against the UNITED STATES, INC., and its assets, but you, the Priority Creditors, aren't making a peep, because you haven't been told any of this, anywhere, in any major media presentation.

Now there are a lot of people running around suddenly yammering about trusts, as if trusts are the answer, and offering "trust packages" and blah-blah-blah.

Let me make it perfectly clear--- you got into this mess by "trusting" what you thought was your government and you are not going to get out of it by creating more trusts for yourself. You can only get out of this by collapsing trusts right and left and sideways, and from then on, acting in your own best and private interests.

Step One: Change the NAME to your Christian Name via an Adult Name Change. That is, change the name the UNITED STATES gave you from the JOHN MICHAEL DOE form to the John Michael Doe style.

Step Two: Issue a Deed of Acknowledgement, Acceptance, and Re-Conveyance Without Consideration. This is a simple statement to the effect that: I have as of (the day the name change becomes effective) received back my own Trade Name and I do re-convey it to the soil and land of my birth known as (wisconsin, illinois, california, texas, etc.--- all small letters to indicate the organic state) and pledge my allegiance to and establish my permanent domicile on the actual soil thereof.

Step Three: Record the Deed with the local Land Recorder's Office along with a Certified Copy of the Name Change Order.

Step Four: Make a simple Notice of Deed and address it back to the Court along with a certified copy of the recorded Deed of Acknowledgement.... This again is a very simple statement simply giving Notice back to the Court that you have taken this action and providing them with a copy for the case file associated with the name change.

Something to the effect: "I have received and recorded my name change and am providing the Court Notice of Deed for the case file. Notice to agents is notice to principals, notice to principals is notice to agents."

This closes the circuit, so-to-speak, and fully informs all parties.

And now you have done the reversal of what FDR did to your parents and grandparents and if you were born before 1933, to you, also---- and have seized upon a legal name in the international jurisdiction of the sea, and redefined it as a lawful Trade Name on the jurisdiction of the land, and given your Public Notice by Recording it with both the Land Recorder's Office and the Clerk of Court.

Get ready in the coming weeks to make good use of your recovered Good Name.
