

## Reply to the Generals: Your Latest TVM Fraud and False Suppositions

By Anna Von Reitz

Now we have another imposter, Alex Tallano, a New Yorker, pretending to be Tiburcio Villamor Marcos---and corrupt generals around the world are supporting him in this outrageous fraud, right down to presenting him to the world in a fake Commander-in-Chief of the Welsh Guards uniform and having him claim to be a "Seven Star General" --- apparently in charge of all 50,000 members active duty and reserve, the sum total of what is left of the British Military.

Reminds me of the Territorial United States' military situation. The world had better tremble before the awesome might of the Puerto Rican Navy....

Har-Har.

Anyone for Loony Tunes?

You can't make this stuff up.

Let's begin....

Who was Tiburcio Villamor Marcos? This is the name of both Ferdinand Marcos' Uncle, who would be something like 160 years old, or his son, who would also be pushing 100 by now.

Both were Chinese-Filipinos by heritage, and neither one look --or looked--- anything like Mr. Tallano. I guess the Generals think that a bunch of ignorant Americans and Europeans won't be able to tell the difference, but guess what? We have photos of both men and, if this is "Tiburcio Villamor Marcos" then I am Tina Turner and I am claiming her estate.

The hard fact is that Ferdinand Marcos himself was just an attorney who worked with the actual Trustee and Holder of the Code FLAT accounts. And the further fact is that Ferdinand Marcos, as President of the Government of the Philippines, was

just acting as the Trustee left in charge of the American gold deposits that were transported there "for safekeeping" by the U.S. Navy.

That's why President Kennedy met with him. That's why all these agreements were put in place. That's why Marcos had to approve the printing of the silver-backed Kennedy dollars. Kennedy had to ask permission of the Trustee, not because the Trustee owned any of the assets, but because he, Kennedy, was operating as a British Territorial U.S. Citizen while occupying the Office of Commander-in-Chief.

It's not the same thing now. We are not British Territorial U.S. Citizens. We are Americans and as Americans, we are the Donors of the Trust Assets. Not only that, we are the lawful Officers of the unincorporated Federation of States doing business as The United States of America. As such, we don't ask our Trustee to move. We tell them to move. We have the authority that Kennedy lacked.

And now, to address another Fat Fallacy based on British "Suppositions". They persist in claiming that I am a British Territorial U.S. Citizen and Ward of the Queen and the Queen's State. I say, nonsense. Prove it.

In fact, I am not using their "Last Name" which could easily be mistaken for a Family Name, and have never used their "Last Name" creation --- which is really just a descriptive label applied as a "title" over the property assets of other people as part of a fraud scheme already debunked as fraud, human trafficking, impersonation, identity theft, and illegal securitization.

They are the ones who have been using my Trademark without my permission or consent.

Literally.

My Great-Great-Grandfather created the name "Riezinger" out of thin air and registered it as a trademark in 1855. It has been used as a trademark by his progeny ever since. Furthermore, any name attached to that trademark is covered by that trademark.

The enemies of all decent people demanded that I produce a "receipt" as proof that I had received my own name back from them, but they are the ones caught with their pants down and in need of a receipt.

First, a receipt from me and my Father allowing them to use our Trademark as a "Last Name" and providing us with equitable consideration for this use. They don't seem to be able to cough up any written contract for that and there is no check or money order or signed cash receipt, either.

So they are the ones without a receipt.

Secondly, their own Superior Court at Palmer, Alaska, has proof that I received my entire name back from them, and that I re-conveyed it to the land and soil jurisdiction, which is also part of their State of Alaska Land Records, and then, I returned a copy of the Recorded Reconveyance to the Superior Court and added it to the case file. Full circle.

Thus, there is absolutely no doubt that I reclaimed my Upper and Lower Case Name and removed it to the land jurisdiction under protection of the State Trust, and no doubt that subsequent action by the American State Assemblies enrolled Alaska as a State of the Union and proclaimed the Peace Treaty ending the Civil War.

So even their look-alike, sound-alike doppelganger conceived in fraud, was removed, re-conveyed, protected, and released by the dissolution of Territorial custodial interest in Alaska, and also relieved of any presumption of "war" taking place on our shores.

Zum Ende. Both versions of "Anna Maria Riezinger"---the American born on the land and soil, and the British Legal Fiction Person are free, and fully indemnified as Wisconsinites owed the full faith and credit of the nation as well as the land and soil assets of the country.

In the immortal words of a certain rabbit, "Smell my fluffy butt." and show me your validated receipts issued by The United States of America --- Unincorporated.
