

Uh-Duh....

By Anna Von Reitz

I have from time to time shared things like the attempt to assassinate me and my son.... like the attack on just me by "Lucifer" and five IRA thugs.... like the 7.0 Earthquake epicenter a block and a half from my house in Big Lake, Alaska ----

Why on Earth does everyone assume that I know "nothing about" EMF and EM and Scalar and all the other electronic weapons these goons are deploying?

Do you all seriously think that these Vermin have somehow failed to hit me and mine with everything they had in their arsenals short of a nuclear bomb???

But the fact is that kind of torture began for us in 2007 and by 2011 we had learned enough about our own energy resources and the internal operations of the aura system we were born with ---- that not only can't they touch us individually, they can't mess with our animals, our cars, our homes ---- nothing.

We just deflect or reflect it all, all the time.

So if we can do it, and have been doing it for what? Eight years now? Please tell me the reason that all of you are running around bleating like sheep and so "terrified" and not doing what I suggest? It's free. It's available on the internet.

It took about four years for me to become adept, but it took less than two weeks to learn enough to be able to block the rats. Make the effort.

Wouldn't it feel good to be able to (1) block their transmissions and (2) reflect the attack back to the senders?

So get going. I learned. You can learn. And stop being deaf, dumb, and blind to your own power and potential.
