

Dear Clifford J. White, III: Please Get It Straight -- Unincorporated Versus Incorporated

By Anna Von Reitz

To: Donald J. Trump, PRESIDENT OF THE UNITED STATES
Clifford J. White, Director, U.S. Trustees
Sheryl R. Morrow, Commissioner, Bureau of the Fiscal Service
Office of the Prosecutor, World Court
Constitutional Sheriffs Association
The American Public, Et Alia...

From: Anna Maria Riezinger, Judge, Ninth Postal District

This is or should be a simple concept.

There are unincorporated businesses and there are incorporated businesses.

Unincorporated businesses may indemnify themselves, but cannot be insured. They operate under complete "commercial liability". They are not eligible for "limited liability" and cannot seek any "bankruptcy protection".

All sovereign entities are unincorporated entities by definition.

The United States of America, Unincorporated, is not and never was subject to or covered by any limited liability and not eligible for any bankruptcy protection and has certainly never been bankrupt in the history of the world.

Certainly, too, our United States of America, Unincorporated, is a completely different and separate entity with respect to any incorporated organization merely calling itself "United States of America" and functioning as an incorporated entity.

The United States of America, Unincorporated, exists and functions in the international land jurisdiction and operates in international trade.

The United States of America, Incorporated, on the other hand, is a foreign commercial franchise belonging to foreign Territorial States of States and the UNITED STATES, INC. is a foreign commercial entity fronted by the Municipal STATES OF STATES and both of these are private, mostly foreign owned, governmental services corporations, are welcome to go bankrupt without involving or making vacuous claims against the actual American states and people.

When we actual Americans seize our own Given Trade Names and re-convey them to their proper permanent domicile on the land and soil of the actual states instead of any "state of state" dreamed up in the commercial world, and exercise our Common Law Copyright and record it in the land recording office effective with our actual birth day, all of the provisions of our original Constitution and our original Treaties lock in place, and we must be regarded as "Protected Persons" and "peaceful Vessels/VESSELS engaged in international trade"---- not as corporate franchises of some foreign corporation that has made insupportable claims against the American states and people in hopes of forcing them to assume debts they don't in fact owe.

I repeat--- the actual United States of America, Unincorporated, has never been bankrupt.

And still isn't. And it was never obligated by any of the debts of any commercial organization merely named after the American states and people in order to promote fraudulent claims against American assets via semantic deceit.

The various actual land jurisdiction states and United States of America, Unincorporated, as a whole, have published their Notices of Non-Assumpsit in newspapers and have made their proper claims against the assets of the UNITED STATES, INC. and its franchises and have presented themselves, alive and well, to The United States District Court for the District of Columbia, as the Paramount Security Interest Holders and Priority Creditors.

All U.S. Trustees are hereby Notified of the facts and prohibited from any presumption against the actual assets of the American states and people, which are all uniformly protected and exempt from claims related to the UNITED STATES, INC., the USA, Inc., and any other incorporated entities that the perpetrators of these wrongs dream up and may name "Fiddle-Dee-Dee, Inc." from now on.

All U.S. Trustees are required to register as Foreign Agents and all U.S. Trustees will be required to prove consensual and fully disclosed and equitable contracts with competent non-exempt parties prior to any further claims of foreclosure or tax obligations or constructions bonds or labor contracts or court bonds, etc., held against purported public trusts.

This letter is being sent to the President of the UNITED STATES, INC., to the Director of the U.S. Trustees, Clifford J. White, to Cheryl R. Morrow, Commissioner of the Bureau of Fiscal Services, the Office of the Prosecutor, World Court, the Constitutional Sheriff's Association, and numerous other interested parties via Registered Mail.

Notice to Agents is Notice to Principals and Notice to Principals is Notice to Agents.

You have ten (10) days upon receipt to reply and offer any rebuttal to these facts, which shall otherwise stand as law and self-executing contract obligating your offices to cease and desist all collection and/or foreclosure efforts misaddressed to the American states and people.

The only bills that are eligible for recoument pertain to the services that the "federal" that is, Government Under Contract, is obligated to perform for our states of the Union. The Commissioner of the Bureau of Fiscal Services is invited to contact us to make arrangements for the transfer of all claimed accounts and assets belonging to the United States of America, Unincorporated, to the actual States, and to the People, that have been "borrowed" without the knowledge and consent of the landlords and which are not subject to the bankruptcy of any foreign corporation.

Your prompt co-operation and release, return and re-venue of all assets naturally belonging to the American states and people will be appreciated.
