

Why Unrest of Any Kind Defeats Both Versions of America

By Anna Von Reitz

There has been a lot of inappropriate talk about "civil war" in America. Let's be perfectly blunt.

The Federal United States has been operated as a puppet by the British Government which in turn has been operated as a puppet by the City State of Westminster aka Inner City of London which has been operated by international banking cartels and the Bar for generations. In turn, these organizations have been influenced, led, and perpetuated by what Frank O'Collins calls "the Roman Cult" within the Roman Catholic Church.

Americans, like the British People, have gone along trustingly and been abused and enslaved.

We, Americans, have been used repeatedly as the "muscle" behind wars for profit and illegal and immoral police actions in other countries undertaken by the British Crown Corporation and its cronies throughout the world, with the result that we are widely blamed and despised as the perpetrators of all this greed and violence when in fact we have been victims like everyone else and have merely been more gullible than the rest of the world.

A careful reading of the historical documents, especially the treaties ending the Revolutionary War and The Constitution, reveals that the British retained control of a substantial portion of the American jurisdiction of the sea including our ability to conclude international treaties and commercial trade agreements---both of which have been crippled and controlled since the birth of our nation by this arrangement.

In exchange for our Forefathers' agreement to this deplorably bad deal, the British Monarch was made our Trustee on the High Seas and Navigable Inland Waterways. It was thought that his clear obligation to the Americans in this capacity would bind his hands and prevent him from doing us harm. In 1794 a treaty between the Americans and the City State of Westminster was also concluded in which we were promised "perpetual" friendship and amity.

We definitely need to remind them of the meaning of "perpetual".

So here we are at the beginning of the twenty-first century and our Trustees have proven to be our worst enemies--- not only our worst enemies, but worst enemies of all freedom-loving and decent people everywhere. Since 1866 the British Government has privately promoted and perpetuated a policy of eternal war and enslavement of the world's population while keeping up an appearance of being the bulwark and defender of western civilization. Like a pedophile acting as a Foster Parent, the British Government has spared no expense in its efforts to cover up its dirty work, but it is at last discovered.

The Federal United States is and has always been an instrumentality of the British Government and the international banks and the Bar Associations and it is the Federal United States---not the Continental United States--- which has been guilty of all the crimes against humanity which have been racked up and placed at the door of the hapless Americans who have been deceived into believing that the Federal United States is or ever was their lawful government.

Time to wake up. We have been hosts for these parasites and now they are moving on to attempt to parasitize China and its vast population.

The so-called "Federal Government" is a foreign corporation under contract to provide our States with nineteen enumerated services directed by our Trustee the British Monarch and his corporate Executive Officer known as the "President of the United States". The British Monarch was paid for this "service" with tribute in the form of mineral wealth extracted from the American States and was faithfully paid for involving us in an endless stream of unjust police actions and dirty commercial deals and then handing us the blame and the bills.

Let it stand before the American People and the entire world who the guilty parties actually are: the administration of Queen Elizabeth II; her corporation, ELIZABETH II; the British Crown Corporation and its franchises worldwide; the Lords of the Admiralty and the City-State of Westminster together with all its Successor Organizations and franchises; and the Holy See doing business as FRANCISCUS are directly and personally responsible for all this injustice and mayhem and misadministration of the Public Trust in Britain, America, the Commonwealth, India, Japan, all of Western Europe and most of Eastern Europe, too.

The populations of all these countries have a grudge and many, many claims against these perpetrators; the People of China would be well-warned and advised not to accept any "gifts" from Jacob Rothschild or the World Bank or QEII, either. Gold and silver are not food, not fuel, and not the raw resources that China needs. Apart from being excellent conductors of electricity and photo emulsions, of what use are these so-called "precious" commodities?

Time to wake up.

We have all been bamboozled by these phonies (as in Phoenicians) long enough.

The bankers and lawyers who have acted as the foot soldiers of this global Evil Empire have planned various scenarios for the demise of America. First of all, we are to be blamed for all their sins. Second of all, we are to be charged with all their crimes. Third, we are to be stripped of whatever wealth we still have after they have stolen as much as they can possibly steal to pay their debts.

From their standpoint, it would be expedient to foment a civil war on our soil. There are a number of reasons.

First, it kills off their lawful Creditors, the American People. They are now claiming in the United Nations that we no longer exist and that the heirs of their Creditors are "absent" or "unknown". This pathetic excuse is being offered as a means of avoiding paying back the American People for gold illegally confiscated in the 1930's and labor and resources exchanged for no payment but hot air and paper ever since.

Second, murder of the American People allows them to collect on life insurance policies that they have gratuitously established on each and every one of us, naming themselves and their corporations as the beneficiaries.

Third, murder of the American People leaves an opportunity for them and their buddies to claim the "abandoned property" just as they did in Germany after the War.

They call this "plowing the field"---- emptying the land of its people and decrepit buildings and infrastructure so that it can be rebuilt under new ownership: theirs.

However, they have to have a plausible reason for attacking the American People, because after all they are under public contract to protect us and are continuing to siphon off large payments from our public treasuries for the service. They therefore have to find some sneaky, backdoor means to excuse their actions --- and their continuing crimes against us.

It is time to recognize these criminals for who and what they are and to bring a stop to them and their predations upon the entire world. The most expedient way to do this is for everyone worldwide to cease operating as any form of corporation---simply dissolve them all, nationalize their assets in the case of "government" corporations, demand that the Pope acting as CEO liquidate those corporations that have acted as criminal syndicates----including the major banks. Apply the Icelandic Answer.

Everyone please note that although these vermin have been misrepresenting the American People to the rest of the world for the past 150 years and mischaracterizing us at home, they are NOT the American People owed the land jurisdiction of the United States and never have been. The misadministration and usurpation of our government that has been accomplished via semantic deceit and other forms of fraud, but that too, has been discovered and is at an end.

If those responsible for this egregious behavior have any hope of surviving themselves, they must make amends to the rest of the planet and the people they have harmed.

In the case of the Federal United States the turning of the worm leaves one thing very clear: any attacks against the unarmed and peaceful American People to whom they owe "good faith service" will be instantly recognized as crimes of war and aggression by commercial mercenaries disguised as units of government.

Any failure to correct the political status of Americans to reflect their actual political status as "free sovereign and independent people of the United States" --- that is, the Continental United States--- (like any attempt to mischaracterize their Creditors and the Heirs of their Creditors), will also be recognized for what it is and rebutted.

Any failure of the British Monarch and the "President of the United States" to repay all the debt of the Federal United States that is lawfully owed to the innocent American People of the Continental United States will be obvious self-interest and default upon debt in the full view of all other nations.

When all those other peoples and nations have been afforded a full view of what has gone on here and stop to consider how they, too, have been abused, lied about, defrauded, and enslaved by these Babylonian Snake Oil Salesmen in tweeds, they will conclude as we have that we have all suffered from a single malady which has its world headquarters in the Inner City of London. And then we can all take appropriate action---like enforcement of the \$279 trillion dollar International Commercial Obligation Lien which the Americans have placed against the American Bar Association, the International Bar Association and the misnamed Department of Justice which matures tomorrow.

The people of the Earth must unite against the evils perpetuated by the inhabitants of "the World"---a fake, illusory Satanic construct incorporated legal fictions--- that is, lies--- which serves only to mask the identities and obscure the filthy and violent intentions of profoundly evil men masquerading as philanthropists and pillars of the global community instead.

To all men and women everywhere the alarm goes forth and the claim in equity is clearly stated. This is our Earth. It belongs to us, not to any corporation. This, the American Government, as opposed to the "US Government" is a lawful and peaceful government "of the people, by the people and for the people"---- not a government "of the corporation, by the corporation and for the corporation".

If we, the people of the Continental United States are forced to take up arms against those operating the Federal United States, it will be a clarion call for your joint understanding and assistance in removing this source of criminality from our mutual midst. Let the Federal United States and the Governments of Britain and the City-State of Westminster and the administration of the Vatican stand revealed as crime syndicates (that have created and which are responsible for much of the poverty, misery, injustice, and conflict that have infested our planet for generations), and not as they would portray themselves as enlightened philanthropists.

Petty crooks operating on a giant stage is much closer to the truth of it.

As each person reads this and knows that we can choose global peace or global war and that it is not negotiable that innocent victims should again bear the brunt of this criminality, don't be afraid just because you are suddenly aware that you are "just one person" in the midst of a universe. Become aware instead that you are the universe.

I AM I AM.
I AM ONE.
I AM NOW.
