

The Problem With Allen Stein -- The "Unseen" World

By Anna Von Reitz

I am replying to Allen because Allen is not alone and all people like Allen need a reply.

Hopefully, they will stop and think more deeply, because they need to

Allen was the Virginia Coordinator early on and a great help and support to the effort to reorganize and restore The Virginia Assembly, but from the beginning, he would "kick the goad" and not pay attention, like a schoolboy daydreaming in algebra class.

Allen came under the influence of a man named Richard Warren who is stuck in the sea jurisdiction and won't come out, despite my attempts to bring both men to their senses.

Allen and Richard have remained convinced that they and everyone else needs to stay in the sea jurisdiction and fight the pirates using Federal Codes.

Why, having come out of the sea, would you continue to operate as if you were on the sea? Pull that rigging and cast that bale! Avast ye!

You have to leave the jurisdiction of "Hell" behind if you are ever going to get to the jurisdiction of "Heaven" in the Law.

Please note--- when Abraham left Babylon, he left for good. He didn't keep going back to Ur for a refresher course in Babylonian law and history.

That's a lesson we all have to learn for ourselves.

When you leave Babylon, leave for good. Take the lesson of Lot's wife to heart. Don't look back. Don't bring the old practices (like the Golden Calf) to the new land.

These are all Bible lessons that Allen and Richard missed.

The aberrant course that Allen and Richard have steered on their own volition makes as much sense as speaking Italian in America. There is no law against doing it, especially if you are Italian, but -- why would you? Especially if your purpose is to build an American State Assembly?

Despite my explicit instruction to stop wasting vast amounts of time learning a foreign language (Federal Code) and to keep attention focused on our own language and government, Allen and Richard continued to study the Federal Code and the ins and outs of Federal Law to the neglect of studying our American law and practices.

Now, Allen has repudiated me and announced his regret for following me in my "imaginary" world. Yet, he has cause to know that the Air Jurisdiction of the Law is Unseen, and if we would accept our own sovereignty we must address it.

It's well known that we can't see the air, yet can anyone live without it? Does anyone argue that the air does not exist? Does anyone say that the air is "imaginary"?

Indeed, we are all aware of a great many things that are unseen to our eyes, but are part of our experience and we don't call them "imaginary".

Electricity and magnetism are unseen, but nobody argues that they don't exist.

We all know that light is invisible, too, until it hits an object and reflects back the color and shape of that object to our eyes.

We know that sound is invisible as well, yet we know about acoustics and radio signals. Allen's own Bible tells him that God spoke this world into existence....? "And God said, "Let there be light" and there was light."

How does someone read that and fail to get the point?

We know that the infrared wavelengths of the electromagnetic spectrum exist.... and oddly, they generate something else that is unseen --- heat.

I could go on, yet, in the same wrong-headed way, Allen Stein tries to call the Unseen World "imaginary" and derides my explanation of the Unseen Powers that we must deal with in the higher realms of law and in the current situation, when he has no knowledge of these things himself.

That's like a child loudly proclaiming that calculus is imaginary, while failing to grasp the fact that all things are "imaginary".

Apparently, Allen thinks the U.S. Navy is "imaginary"? He denies the existence of the Secret Space Program? Does he think that President Trump was joking when he designated a whole new branch of the military services?

You have to ask yourselves --- am I imagining things? Or is Allen daydreaming again, refusing to learn things that are outside his comfort zone?

Allen and Richard are a full step behind the rest of us, stuck floundering around in the jurisdiction of the sea, still playing with Babylon and its "laws" after the rest of us have moved on.

Their fear in no way releases any of us from our obligation as sovereign beings to eventually master ourselves and our world. If you would be spiritual warriors you must learn to be fearless; and if you would 'know yourself' you must know your spirit and the spirit of God within you, and the realm of the spirit as well.

What I have told you, first to last, is the truth as I know it to be, as I have learned it and proven it for myself, and as you will need to do for yourselves, too.

The Majestic Twelve bear Witness with their findings of a "rogue Artificial Intelligence" --- Satan --- in the Universe, and now that it is clearly stated both in scientific terms and in Biblical terms and you know that the created world is in a sense "artificial", I leave it to you to go figure.

No need to "believe" me; you have it in your power to learn it all yourselves. I have merely acted to help you along, however....

Mankind is not at leisure to hide its head in the sand and leave its tail exposed to the storm ahead. It's all hands on deck to make for shore, and once on shore, to climb the narrow path toward heaven.

Our exploration of the Law of Heaven has only begun with Canon and Ecclesiastical Law. There are two more higher jurisdictions above the jurisdiction of the air that I haven't begun to explain to you -- the jurisdiction of fire and the jurisdiction of spirit.

So, Allen is going back to Babylon. He never really left.

It's more like he heard me calling him to come out, so he stepped forward and had a glimmering of what it means to be on dry land -- only to fall back into the sea again.

We all have our choices set before us. In our present state of development we can live in the jurisdiction of the sea (Hell), or in the land and soil jurisdiction (Purgatory), or in the jurisdiction of the air (Heaven). And it is all our free choice.

A few of us, members of mankind, have moved on to the jurisdiction of fire and the jurisdiction of spirit, too. We have gained the ability to "see" the Unseen and interact with it ----and this is no more imaginary than what you see with your eyes and feel with your feet and breathe with your lungs every day.

Allen and Richard need to read Galatians again and really try to understand how we choose our law. And then, maybe, they will be committed to what I teach and not to what they teach themselves.

In truth, Allen stopped following me a long time ago, when he associated himself with Richard Warren. He went back to Babylon, back to the jurisdiction of the sea, back to "Hell" -- and there he will have to stay, until he releases himself.

As for me, if I taught you only what you already know, what good would that accomplish?

Those who are ready to move on, move on.
