In Re: "Rainbow Currency"

It has come to our attention that foreign Principals and their instrumentalities are again infringing upon the Good Name and Trademarks of our unincorporated Federation of States doing business as The United States of America, and that they have offered to release a series of currency notes

popularly known as "Rainbow Currency" because these pieces of paper appear in a variety of rainbow colors.

Examples of the offending notes are attached. https://annavonreitz.com/amero.pdf

These are private currency notes that are deliberately mislabeled and deceitfully captioned "The United States of America" ---- which is our Proper Name and Trademark ---- giving rise to the False Presumption that these notes are being issued by or backed by our American Government, the States, and the People of this country, which is not the case.

We remind the Crown, the United Nations Organization, and the Queen's Government that they have no authority related to us allowing them to issue credit or currency in our names. We also remind them -- and the Pope -- that their regionalization scheme and this deceptive issuance of the "Amero" under any other name, is an illegal, immoral, and unapproved infringement against our nation and also against Mexico and Canada.

A closer inspection of these paper promises shows that they are being spun off by a wannabe Regional Corporation calling itself "The United States of North America".

This is a counterfeiting operation that must be shut down with prejudice. We are counter-offering not to pay any debts for Mexico or Canada and for the British Crown to pay its own debts for a change. Our objections are being forwarded to all Principals that are directly involved in this latest institutionalized constructive fraud scheme and the International Court of Justice.

As everyone involved has Cause to Know, our Government has a currency, which is our United States Silver Dollar and our gold coinage series which is used for international purposes. And there are no other forms of money or currency issued by The United States of America. Period.

There are no other endorsed and approved American currencies on the market at this time.

We are not issuing any notes or certificates or monetized securities for obvious reasons -- the widespread confusion, dishonesty, counterfeiting, and criminal misrepresentation being promoted by various commercial corporations has resulted in deadlock.

This so-called "rainbow currency" being issued in our names (examples attached) and all charges against it are to be returned to the Pope and the Queen and the Lord Mayor of London and to the United Nations Corporation as charges against them, together with a 250% surcharge for the abuse of our Good Name and Trademarks and as a tariff penalty for willful misrepresentation and fraud.

Americans are warned not to accept these bills as any valid currency and to return any such Funny Money to the United States Treasury together with an international exchange bill for 3.5 times the face value of any of these notes found in circulation addressed directly to the Secretary of the Treasury.

This is full and complete perfected Notice to the Secretary of the Treasury and to the Department of the Treasury, the Principals, their Instrumentalities and Agencies: Notice to Principals is Notice to Agents, Notice to Agents is Notice to Principals.

Anna Maria Riezinger, Fiduciary The United States of America
