

## International Public Notice: U.S. Congress Fears Arrest

By Anna Von Reitz

There is no statute of limitations for fraud or treason.

The U.S. Congress has, arguably, been guilty of both since 1861.

And now, the dirt that has been dug up. Members from both sides of the aisle are confirmed to be on the take, to be under the influence of foreign parties -- especially the Brits and Israel -- and that is why the "Vice" President is being sent in, to protect the vice operations that fund the corporations and political parties.

As we told everyone before, you've got two corporations, one commercial, one municipal, one controls the Territorial District Courts, the other controls Municipal DISTRICT courts.

These district courts are supposed to be in the District of Columbia, not anywhere in the States of the Union. Imagine that?

These courts are supposed to address Federal workers, Territorial and Municipal employees, not average Americans.

So the Municipal Courts convict a renegade CORPORATION named DONALD J. TRUMP of whatever infractions they can squeeze out, and the Territorial Courts convict the estate of Donald J. Trump --- a British Subject --- of whatever they can squeeze out, and neither entity are Donald Trump.

It's all phony. It's all based on suppositions.

This is what we are talking about when we talk about "lawfare" and when we talk about aggravated identity theft and we talk about the crimes of personage and barratry.

These courts "systems" are deployed illegally and unlawfully and non-consensually throughout the States of the Union and they are used for purposes of armed racketeering by BOTH the British Crown Corp franchise, dba, the United States of America, Inc. and the Roman Municipal Corporation, dba, some version of US or United States, etc.

They are both filthy dirty. They have both been parasites feeding on the American People and the States of the Union for the past 160 years, and they were able to keep their operations so secretive that entire generations of people lived and died without perceiving the changes and substitutions that were made behind their backs under color of law.

This is why we are demanding that the Inner City of London Cease and Desist their District court and State-of-State court operations within the physical borders of our States. Cease and Desist acts of personage and barratry against declared Americans.

When one searches for a common thread to the gross breach of trust taken by both these Federal Subcontractors, all roads lead to Rome, and we remember the early name of the community that gave rise to Washington, DC --- Rome.

Key to understanding what this implies, is that Rome is not and never was Italian:

<https://www.youtube.com/watch?v=Dgrm7jDdtbU&list=PLNPtrE3klhpADWHZ8GBrSOy5MI-uJwjqy&index=13>

Rome was not a national phenomena; Rome was a trading empire, and what held the many cultural and racial and religious threads together was Roman citizenship.

So when The United States arose and presented a similar melting pot of many different people creating a crossroads civilization, it was natural for the Romans to identify with and expand to this country.

The attempt of the Holy Roman Empire agents and British-Roman agents to create a new Rome -- a humongous city-state, a trading empire, designed to rule the world and expand upon the "glory of Rome" --- Roman Law, Roman discipline, Roman citizenship, Roman social organization --- was subtly and not-so subtly impressed upon the new capitol city built in Rome's image upon seven hills at the confluence of rivers: Washington, DC.

The Roman European interests represented by the officers of the Holy Roman Empire have tried to use the same social structure, citizenship, as the means to cement together the vast diversity of America rather than honoring the vision of the actual Americans who have established fifty nation-states.

The Roman Republic was supposed to be the model for the Federal Republic that the Brits undermined in 1861, via secretly and unlawfully converting our national military service into a mercenary service and using it to occupy this entire country under False Pretenses.

As these two global powers, the British Empire and the Holy Roman Empire sponsored by the Roman Catholic Church, have colluded to keep building their dream of an all-encompassing globe-spanning trading empire in America, their efforts have eerily followed the same course as Ancient Rome.

Corruption and political payola, a slave-based economy, and bread and circuses are all too familiar, and so is the theme of the evil military takeover ruining the pure republic.

Once wasn't enough for them, but once was and is more than enough for us. We don't have to watch the movie or stay to the end to know what goes on.

Our view is entirely different, fresh, and new.

Our view doesn't involve recreating the Ancient Roman Empire. We don't believe in any "glory" built on forced peonage and enslavement and deceit --- our own or anyone else's.

We can see what earlier generations of HRE officials were aiming for, but we don't agree. This is the second time they have followed the same path to the same dead end -- and as it was never a goal we cherished in the beginning, we are not disappointed to see it fail in the end.

Rome required vast hordes of slaves and indentured civil servant bureaucrats to keep everything running, and constant wars to fill its coffers, too. Without slavery and constant expansion, the vision of a new Rome was doomed, and that's why despite slavery supposedly being abolished in this country and despite being outlawed worldwide in 1926, they've contrived to subject everyone to peonage and slavery, both.

Again.

Having all this dissected and subjected to public knowledge is what the perpetrators at all levels dread, almost as much as they dread recognizing the repeat of the "downfall of Rome" for all the same reasons that the first rendition failed.

Now, we, the actual Americans, who have been the unwitting hosts for this Pagan Passion Play on our shores, are cast in the role of the slaves and the bureaucrats, but that's not what we are. We are people with service contracts that have been dishonored. We are creditors who are owed an insurmountable debt.

So much for the Narrative. This is why the "Senate" fears arrest. This is why the "House of Representatives" fears arrest. This is why the Black Robes are

shuttling around like crabs, serving first one master and then the other, trying to save their own skins, and blaming each other. They are all guilty as sin.

We can charge them with fraud or treason or both under their own laws and under ours. That's not the point. Even guilt is not the point.

Instead, it's a race to the finish to see: (1) how long it takes them to realize that we already know it all and have it all documented; (2) how long it will take them to know that however they try to cheat and smokescreen their way out of this, it isn't going to work; and (3) how much damage they are going to inflict on themselves and everyone else before they do what they should have done five years ago --- meet with their actual employers and creditors and ask for clemency.

The Truth will set us all free. Continued nastiness and drama just delays the inevitable.

Those who remember the past are not condemned to relive it.

We remember.
