

Useful Historical Data Site for State Assemblies/Jural Assemblies

By Anna Von Reitz

Although I am not a big fan of Wikipedia, it does offer some plums and this is one of those that will come in very handy for State Assembly information:

https://en.wikipedia.org/wiki/List_of_U.S._states_by_date_of_admission_to_the_Union

This gives you a bird's eye view of how the statehood process progressed and also lists the same process for the original States of States formed under The Articles of Confederation.
