

International Public Notice: Usurpation Personified

By Anna Von Reitz

One of the most egregious offenses promoted by the arrests of J6 visitors to the City of Washington, DC, was their extraterritorial arrest and prosecution by Municipality officials.

Were these J6 visitors actually standing on land within the area defined by the Capitol Boundary Stones at the time of their arrest?

If not, the Municipal authorities had no right to take action and were acting extraterritorially and illegally if they trespassed into the District's City of Washington, District of Columbia, or worse, into one of our States of the Union to arrest these men and women.

The Government of the Holy Roman Empire is limited by The Constitution of the United States to the area right around Capitol Hill enclosed by the Boundary Stones; they have, for some years, been organized and have been characterizing themselves as an "independent international city-state" similar to Vatican City in Italy, but they have no treaty with us allowing such an accommodation, and the British Territorial Government that operates the District of Columbia has no authority or treaty with us allowing them to make such an accommodation, either.

The establishment of the District of Columbia and the use of it by Federal Subcontractors is explicit and does not provide for the exercise of any such separate powers and purposes.

While the Federal Constitution and all derivative agreements clearly establish an oligarchy with plenary powers over the City of Washington, DC, the members of that oligarchy are supposed to be members of the American Federal Republic's Congress, not the Territorial U.S. Congress, and certainly not the Municipal CONGRESS.

As the Federal Republic's Congress has not been in Session since 1861 and as the Federation of States has not taken any action or established any Treaty allowing the creation of a foreign international city-state on our shores, and as neither one of our foreign Federal Subcontractors have any authority to act as the plenary government of the City of Washington, District of Columbia, and as neither have any sovereign authority to allow the creation of a separate independent international city-state on our shores, we declare all the agreements literal and assumed giving rise to such an independent, international city-state within the District of Columbia null and void.

Donald Trump as the President of the remaining foreign Federal Subcontractor responsible for the security and proper operation of the City of Washington, District of Columbia, is authorized to enter the offices and environs of the Municipality of Washington, DC, and remove all Municipal Officers, including the Mayor, and incarcerate them in their own jail under the same conditions they offered the J6 prisoners, while awaiting trial under international law.

President Trump also has our blessing to secure the District of Columbia and the City of Washington, District of Columbia, to prevent any endangerment to the residents and any further attacks against innocent Americans visiting their Federal Capitol. We ask that he respects the sacred ground established within Capitol Boundary Stones and continues the intended use of that space as a neutral meeting place.

The only actual government in charge of the City of Washington, DC, our Federal Capitol, is the Federation of States, which is exercising the returned delegated powers of the American Federal Republic, pending whatever reconstruction the States and People may ordain.
