

Valley Forge 2.0 - Help Needed

By Anna Von Reitz

I need help. We need help

Today, my dear friend asked me how I was? I replied that I felt like a Polish General. (No insult to the Poles and their efforts against the Nazis and everyone else who has ever rolled across the Polish plains--- we can see who is still there and still standing in the end.)

It also occurred to me that this is how Washington felt at Valley Forge--- so much hanging in the balance and so much need and so much adversity. Congress sat in Philadelphia and argued. The farmers and the soldiers starved and bled.

We have come to the heart of the whole conundrum. The reason why there is no peace treaty ending the Civil War. The means used to steal and abuse your intellectual property---- and use that as a hook to steal and abuse your actual property as well. We have faced the Enemy within and found that it is not the Russians or the Khazarian Jews or the African Americans rioting in the streets because they are unemployed and desperate--- no.

Our real Enemy, besides Satan, is the same enemy it has always been---- the British Crown and the British Government, pretending to be our friends, while acting as thieves and murderers among us.

These deceits and practices all have to end and we must all recognize that havoc caused by out of control British Subjects known as "United States Citizens" and "citizens of the United States" living here among us.

There are great needs to be addressed for the Living Law Firm--- work that is standing between all of us getting relief from these multiple oppressions of unlawful foreclosure, theft of children, involuntary servitude, enslavement, and unlawful conversion of assets, racketeering, extortion, and mis-administration of the federal government as it related to American State Nationals.

It is all part and parcel of one set of problems that we now have identified and which we are working on non-stop, but we are out of gas and ten miles from the nearest service station.

If you care about what so many have struggled and sacrificed for to bring forward to this moment in time, see us through. Help. Come forward and bridge the gap.

Please--- think of what this work can mean to all Americans and what it will mean if we fail.
