

International Public Notice: Very Sad News

By Anna Von Reitz

Julius, the long-suffering heir and administrator of the Avila Family Trust is fighting for his life, another victim of Turbo Cancer and bad faith on the part of our Federal Subcontractors.

Our Shamans have disappeared, displaced by the firestorm in Maui last year, and now, these men and women who have the sacred knowledge of health and healing, are wandering somewhere in the western United States, running for their lives from the goons who are supposed to be our Public Servants. They are kept moving and unable to help themselves, much less anyone else.

Even the plants that they use to cure cancer are being ripped out of their native soils and destroyed. Such is the greed and immorality of the Medical-Industrial Complex running in competition with the Military-Industrial Complex.

The Satanic FDA which has served to destroy health instead of safeguarding it, ordered strikes against these people, our Shamans, because they actually cured all kinds of cancer and their knowledge was undermining the multi-billion dollar torture and research business that cancer has provided for these criminals.

Without our Native Medicine Men, we have no way to help Julius, and must sit here and weep as he is swept into the Kill-for-Cure Machine along with millions of other victims. Their tragedy on Maui last year, all orchestrated by "Government Agencies" and mercenaries armed with Directed Energy

Weapons, all hired by foreign business interests --- has become a tragedy for us all.

Julius has spent his life trying only to do good in this world, trying to fulfill the trust indenture of the Avila Family Trust, seeking to use his family's wealth to "break the chains of poverty and ignorance" that have been used to choke the Earth and the people on it. He is the kindest and gentlest of men. His heart is golden.

Of course, we will try to get him into the med bed facilities, but time is very short and the veil is very thin. Our resources are stretched to the limit. Pray for Julius. Pray for all those who have been murdered by these vile industrialists and purveyors of Snake Oil.

Your deliverance from poverty and ignorance was supposed to arrive in 2005, and would have, except that the bankers running the "Global Federal Reserve" somehow forgot who Julius was in the space of ten years between 1995 and 2005. No matter what happens, we are determined that their memory lapse will be shoved down their throats sideways until it comes out their other end.
