

Wall Street

By Anna Von Reitz

Most people hear "Wall Street" and they think of the glittering drama of the New York Stock Exchange, the great trading houses and securities companies, the "heart" of the New York Financial District.

But do you know the history of Wall Street? How the place got its name? And what underlies it to this day?

Slaves.

Slaves built New York City, tens of thousands of slaves, who were worked to death and whose bones, skulls, blood, and other remains were hauled out to the perimeter of the area under development and dumped into a ditch. The ditch filled up, and then, this barrier of human remains and construction debris became a wall. And the closest street to the wall? Wall Street.

It represents one of the "Seals" on Earth, because it was "sealed" in the blood of the innocent, just like the bones and blood on Bardsey Island, just like the bones and blood underlying Rome.

All these places are grossly tainted with innocent blood.

As you think about Wall Street from now on, do so with the understanding of what it is truly built on, and why that blights everything and distorts the natural flow of the Earth's magnetic field.

People who have died at peace, full of years, well-loved, leave no such trace; theirs is a happy echo. But those who have died in misery and distress, who have been abused and terrified--- that is a different story. Their blood cries out to the Living God, the True God, our Father, the Creator.

And their innocent blood calls down the Wrath of Heaven.

Those who have caused this, of course, think that nobody has noticed and that nobody will answer the cries of the dead. The time delay between when they commit these heinous acts and when Heaven answers, is such that they can't connect the two events.

New York City has offended the True God in other ways as well, knowingly or unknowingly. They have allowed the French Free Masons to place a statue -- an idol --- honoring Ashtoreth, The Great Abomination --- in New York Harbor, and they have passed this profane and foreign goddess off as "The Statue of Liberty" and deluded people into welcoming her under these False Pretenses.

What this country stands for is freedom and truth, not lies and liberty.

Liberty is what British sailors get when they reach port.

Ashtoreth, the Great Abomination, ironically stands as the marker of the gateway of a country founded by pilgrims, and her promoters, sophists and hypocrites of the worst sort, claim that we are obligated by our commitment to freedom of conscience and religion to tolerate their anti-religion devoted to the Father of All Lies, and his Consort, the Great Harlot.

This circumstance has painted a big bull's eye target on New York City, and as Jesus warned, "When you see the Great Abomination (a statue of Ashtoreth) standing where it should not stand....."

The deceit involved, bamboozling innocent people into thinking that "The Statue of Liberty" is a good thing, and the general failure to recognize it as a profane and pagan idol, makes it all-but-impossible to correct.

The pride and infamy of the members of Congress is another issue. These men and women have pretended to be representatives of the people of this country, but in fact they have only been political lobbyists, mostly in the employ of special interests --- including political interests that despise this country and which seek to destroy it at every turn. Because of their endless arrogance and self-importance, the prophecy of the Sycamores and the Cedars has been fulfilled.

The labeling and witch hunting and defamation that the members of this Congress have indulged in, their character assassination of Justice Kavanaugh and Donald Trump, their heedless waste of public time and money, their lack of any kind of character or conscience, their deplorable Bad Example ---all stands as an affront.

They have sought to destroy families and marriages, as they have hypocritically sought to destroy the reputations of innocent men for their own political ends, and they think that there will be no retribution for this.

They aren't sharp enough to catch the time delay between the Cause and the Effect. So when they are disgraced and rubbed into the dirt, they still won't grasp why the house fell down on top of them.

The Public Law makes it very clear that it is forbidden to "securitize" living flesh, so what do these Devotees of Satan do? They concoct the entire Dead Baby Scam, pretend that our fetal afterbirth material was a "living person" and attach our names to it, so that they can create a phony infant decedent estate trust "in our names" and latch onto it for their own benefit.

That's how they have "served" the people of this country. By impersonating us. By thieving from us. By committing genocide on paper against us. By disgracing our good names. By obstructing our trade. By stealing our credit. By taxing us without any fiduciary responsibility. By jailing millions of Americans for profit. By running private corporate collection agencies "as" courts. By disenfranchising at least half the population. By fraud. By lies. By secretive deceit. With all the weapons of Satan's arsenal, these zombies have committed every crime and act of treason possible; still, they think, "I am no widow....."

They think nobody is watching, and that Heaven doesn't hear.

But Heaven does hear and does see. Not one hair is lost in all the Seven Seas. Not one cry of pain or distress is unheard. Not one drop of blood will go unanswered. Not one.
