

Wet Cats - Final Word on Destry and MGJA

By Anna Von Reitz

My detractors are screaming like wet cats and spreading all sorts of nasty unfounded hearsay and gossip.

The simple fact remains that they haven't brought forward any credible evidence that our actual States ever allowed Dual Citizenship--- that is to say, any evidence that our States allowed any form of "US citizenship" to run in tandem with State Citizenship.

I already know the answer and I know that no such evidence exists.
I also know why such evidence cannot exist for any actual State of the Union.

So until they come back over to the right side of the law on this issue they will get no more support or endorsement for their activities from me.
