

What is the UN? --- Probably Not What You Think

By Anna Von Reitz

Here is your Test Question for today: What is the UN?

All those who answered, "Why, the United Nations, of course." --- get an "F" and go to the back of the line.

The "UN" is a corporation founded in France several years before the United Nations Charter was ever created. And here, for your edification, are the Principal Parties of Interest driving the "UN Agenda"-----

Current version UN Corp dba World Bank dba FEDERAL RESERVE --- 52% owned by Rothschild Bank of London and Berlin; 8% owned by Lazard Freres Bank of Paris; 8% owned by Israel Moses Seif Bank of Italy, 8% owned by Warburg Bank of Hamburg and Amsterdam; 6% owned by Lehman Brothers of New York; 6% owned by Kuhn Loeb of New York; 6% owned by Chase Manhattan/Rockefeller Bank of New York; 6% owned by Goldman Sachs.

(There may be some changes in ownership(s) since this list was compiled, but the above is accurate for the most part.)

So for all those who are alarmed about the UN, perhaps you should share this information about what the "UN" really is? And maybe you should be bringing appropriate political and international scrutiny to bear on the owner/operator/shareholders of the "UN"???

And also on the French Government, meaning the Rothschild dominated corporation dba FRANCE?

It's time to bust these bunko artists and take back control of the world for sane people.
