

What Richard Discovered --- What Kind of Common Law?

By Anna Von Reitz

I wish to comment briefly on the use and misuse of the words "Common Law".

I am told that by [July 27th](#), the Military will invoke a National Emergency, and President Trump --- who is still President for their purposes, will use Continuance of Government (COG) provisions to arrest various criminals and return the police and judiciary officers to operating under Common Law.

It is necessary to ask -- what kind of common law?

Military Common Law is not, overall, a good thing,

Many Americans hearing this rumor are encouraged and joyful, thinking that American Common Law is about to be restored, believing also that their American Federal Republic is going to be repopulated by people loyal to America.

Don't just "believe". Require proof.

We've been fooled too many times by the charlatans and actors operating out of the District of Columbia

This current situation is just as likely to be an illegal imposition of Military Common Law, following or in tandem with an illegal occupation of our American Federal Republic by British Territorial Operatives disguised as Americans.

Tories don't come with a label neatly typed across their foreheads. They can appear to be just as American as you or I. Like Ray Epps. They don't speak with English accents, but they are loyal to the British Empire and its government. They come in many different kinds and colors. All are destructive to our Government and our way of life.

When you hear someone ranting about "our democracy" you know that they are either ignorant as Pat's Pig, or they are blatantly promoting a form of foreign British Territorial Government best exemplified by the Raj in India.

When you inquire more deeply, you will find that what Americans mistake as their government and their Presidents and Governors are anything but.

The men and organizations that appear to be filling these functions and offices are in fact acting as foreign usurpers and Pretenders, though most of them have been born in this country and have at least pretended allegiance to it-----and virtually none of them have ever provided their required Oath of Office, so they haven't actually entered into any Public Office.

All legitimate Public Oaths of Office including those required by the Constitutions must be written, witnessed, signed, and recorded in a place and by means accessible to the Public.

Care to guess how many Oaths of Public Office we've found that meet those requirements --- out of thousands examined? Four.

These men and women have merely appeared to occupy a Public Office and have exercised the powers of our Public Offices as imposters.

In my view, both of the Municipal Corporations headquartered in the District of Columbia have acted in Gross Breach of Trust and in Violation of their Commercial Service Contracts (the Constitutions). That was our finding in 2014 and that is our finding still; though some corrective measures have been taken, the bulk of the errors and abuses remain.

Forgive me if I view the Trump Advocates among us with a somewhat jaundiced complexion; in my view, Mr. Trump is an excellent business man and made many efforts in that domain that were practical and beneficial for this country overall --- however, I do not lose track of the fact that he is working for a foreign Municipal Corporation that is intent on maintaining its grip on this country, our natural resources, and our personal (as in corporate) assets.

What better stunt than to let the other Municipal Corporation bear the brunt and blame, while they exercise military powers to maintain the Big Lie we've been living in?

One must remember that the British Territorial Military, and especially the U.S. Army, have been in control of this Mess since April of 1863. All the lauds and all the blame belong to them. And so does Mr. Trump. He's their man. Not ours.

This may be difficult for most Americans to grasp, but our Military has been a prostitute -- a Mercenary Force for hire -- under the control of the British Territorial "United States" Government for many decades. In my opinion, she's the Great Whore, drunk with the blood and wealth of nations.

And the seven hills fit Washington, DC, just as well as Rome.

I wish it wasn't so.

Notice that a British Corporation, SERCO, is acting as the Paymaster for "our" Military. That's not even possible in a sane world wherein our government is free and independent and sovereign.

Consider also the long roster of men pretending to be our Diplomats, Executive Officers and Generals accepting Knighthoods from HRM Elizabeth II --- Henry Kissinger, George Herbert Walker Bush, General Norman Schwarzkopf, General Colin Powell? Knights? Really?

Do you imagine that these honors of the British Empire are bestowed without allegiances and quid pro quos?

I certainly don't.

So when you are promised "Common Law" from the American Raj, take care that it isn't simply the common Law of the Jungle known as Military Common Law, or British Common Law, or Territorial Common Law, or District Common Law, or, or, or --- because there is only one Common Law that satisfies us, and that is American Common Law.

And if they announce a new "Federal Republic" and propose to take the reins of Delegated Powers bequeathed to our American Federal Republic --- look sharp. Is that a British Territorial "Federal" Republic that I see?

Or something recognizable as the product of our fifty nation-states and our States of the Union?

All that glitters is not gold and words do not change actions.

The British Government has earned its labels. All of Africa calls them a "nation of thieves", and so do the Irish, the Indians of the Indian Subcontinent, and the Natives of our country as well. Even Shakespeare refers to them as "perfidious Albion", so mark me well.

If there is a Military Occupation, that's exactly what it is --- a foreign British Territorial Occupation using our own misled sons and daughters as a front to hide British Imperialism.

If there is a new Federal Republic declared under Mr. Trump, look sharp and more than once.

I see no movement on his part to protect or advocate the Reconstruction necessary to restore the actual American Federal Republic. I wish I did, but I don't.
