

What's Really Happening

By Anna Von Reitz

All this confusion is not necessary.

It's ugly, stupid, and sinful, but, it's not hard to understand.

Our Federal Subcontractors are run by foreign governments. These foreign entities exercise our "delegated powers" as enumerated in the Constitutions, which are all service contracts.

The Subcontractors engendered a "civil war" on our shores in the 1860's, but it turns out that it wasn't actually a war. It was an illegal mercenary conflict instead.

In the confusion that followed the end of armed hostilities related to this "war", the foreign Federal Subcontractors saw an opportunity to take over the government of this country by deceit and fraud and non-disclosure.

So that's what they did. They lied through their teeth to the rest of the world and they told us nothing at all.

They pretended to own us and our country in a custodial trust capacity, claimed control of our labor and our land, and subjected us to the Queen and their own foreign law of the sea.

In order to do this, they maintained a "cloak of secrecy" and didn't let anyone know what they were doing, because what they were doing was highly illegal.

But as long as they could keep this up and pretend that we were all voluntarily choosing to adopt their foreign citizenship, they could continue to control us and our assets for their benefit, not ours.

That was the whole point.

We could not know that they were stealing us blind, the rest of the world could not know they were stealing us blind and abusing our trust, and as long as those two conditions were met, they could get away with it.

So, after 160 years of toddling along trusting what appeared to be “our” government, we finally woke up, saw what had happened, and raised the alarm.

They are now shown up to be crooks and in breach of trust, so the rest of the world, including many other countries who have been similarly mistreated by these “British Territorial Forces”— that is, the “US Raj” — are also waking up.

This means that all the land and gold and labor assets that the Queen was claiming and that everyone thought belonged to Her Royal Majesty and/or the Pope actually belong to us and the other victims of this crime spree.

That’s what the confusion is about.

We are not confused. We have followed and documented exactly what happened. And we have objected and “outed” all the self-interested lies our employees have been telling about us.

Everyone from the Vatican Chancery Court to the International Court of Justice, from the Joint Chiefs of Staff to the US Secretary of State, from the Federal Reserve Board of Governors, to the Pope, the Late-Queen, and the Lord Mayor of the City of London, the United Nations Secretary-General, Interpol, and 206 other governments have been told and provided with Due Process.

Our American Government is still here. We still know who we are. And we have “returned” to our land and soil to claim our birthrights and our assets in every jurisdiction.

We are not “represented” by these foreign interests which have breached our trust and stolen us blind; we don’t owe their debts. We don’t owe them bankruptcy protection. And we are certainly not any species of British or Holy Roman subjects.

We are owed the return of all our assets unharmed.

Imagine a 1940’s Grade B movie, where the heir of a vast estate is kidnapped as a baby and forced to live in poverty and oppression in a foreign land, totally unaware of his

birthright.... And then one day, his old wet-nurse comes and finds him and tells him who he is and gives him all the information he needs to reclaim his estate.

That is what is happening here and now.

And you are the long-lost heirs.
