

What They Have Done -- Short and Simple

By Anna Von Reitz

The two foreign federal subcontractors operating under The Constitution of the United States of America and The Constitution of the United States have usurped against their employers.

They misrepresented an illegal mercenary occupation of our country as a military occupation.

They have told the world that our American Government was absent, in interregnum, nowhere to be found --- while telling us nothing at all.

And so they settled in at the behest of their foreign masters and began preying upon the people that they are supposed to serve in good faith.

They set up their own foreign governments as "State of State" organizations and began calling these things "States" so that we would be confused and think they were talking about our States.

They weren't content with setting up a coercive quasi-military foreign State of State in each State of the Union, they had to set up a second Municipal STATE OF STATE government, too.

These two foreign entities, a British Crown commercial corporation operating as a State of State, and a Roman Municipal corporation operating as a STATE OF STATE were used to replace our States of the Union and our Union States.

All without a word to us.

Now all that fraud and self-interest on the part of the foreign Principals responsible is coming to light and people all over the world are waking up and realizing --- hey, that's what happened here, too!

It happened in Africa, in the Mideast, in Japan, in the seventeen western European nations occupied by the Allies after World War II, in Australia and throughout the old British Commonwealth. It happened in the Home Isles of Britain, too.

Our own military was misdirected and used against the people they were hired to protect, ditto the "state" and "municipal" police forces.

Evil middlemen insinuated themselves and began manipulating everything from the musical scale to the ingredients in baby food.

They pretended, using the excuse that we were "absent", and claiming that our land and country was "apparently" abandoned, that they were left in charge to "represent" us and act as custodians of our land assets and money and even the value of our labor.

They commandeered and conscripted and enslaved the people these persons were hired to protect "in good faith".

They set up public trusts for their own benefit and used these public trusts to illegally latch onto our private estates.

And now they've been caught at it.
