

## International Public Notice: Why Everything is Dying

By Anna Von Reitz

We have attached a highly educational video entitled, "Puerto Rico is Dying" which explains how a predatory corporation merely calling itself "the United States" took charge of Puerto Rico in the wake of the Spanish-American War, and promptly asset stripped it, enslaved the people using lawfare, and reduced it to its current state of impoverishment and misery.

Every American should watch this video to gain a firm understanding of Puerto Rico's plight --- and our own.

Replace the word "sugar" with "tobacco" in Virginia or "rum" in Jamaica or "pineapple" in Hawaii, and you will hear the same story, over and over again.

This corporation and its officers and employees has been run as a mercenary operation, similar to Black Rock. It has had its foot soldiers. It has had its public apologists. It has had its "Presidents". It has operated fast and mean and under color of law, pretending to be our government. And it's not.

Ten years ago, this entity was entered into Chapter 7, Involuntary Bankruptcy. Today, it's "President", Donald J. Trump, with the help of his partner, Elon Musk, is busy performing the mandatory department-by-department, agency-by-agency, franchise-by-franchise audit that is required to settle the bankruptcy and determine the assets, debts, and liabilities of the behemoth parent corporation.

Three centuries of illegal misrepresentation are coming to an end, and yet, those responsible are failing to disclose what is going on to the public, which remains in unnecessary chaos.

The European franchises of this District of Columbia-based corporation are beginning the same process, despite threatening "nuclear war" to avoid it, and proposing a NATO-based war-for-profit as a means of avoiding it --- and all the politically nasty consequences.

The European franchise operators, men like Macron and Starmer and Merz, realize that --- as in America --- the audit process will expose the vast amounts of criminal activity their administrations have been engaged in. And then what?

People will go to jail. Personal fortunes will evaporate in some quarters. A few of the most violent and corrupt offenders might even face firing squads (no doubt those are the ones promoting nuclear war as an answer).

However, if this is handled in a straight-forward manner, life will go on. The public, composed of the workers and students and housewives of the western world, will understand that they are in a defensive posture, but really have nothing much to worry about.

The franchise operators will quietly comply with the bankruptcy court orders and face facts.

After the Second World War, the American people paid for everything and provided everything for everyone else. This was far more than any "Lend Lease" program. It was a restructuring of the world. Gold and silver privately held by Americans was used to underwrite 69 central banks, all under the control of the Bank for International Settlements, but all in debt to the Federal Reserve.

The United States Corporation "borrowed" all this private wealth and owes the actual owners the return of the principal, plus interest, which they cannot pay --- which is why they are bankrupt. They have been trying every trick in the book, from murdering their creditors via a phony pandemic, to simply ignoring them and their claims, to threatening a nuclear war --- all to avoid balancing the books.

A large number of franchise corporations were set up in these 69 countries under the auspices of two parent corporations doing business as "the United States" and "the United States of America"--- Incorporated.

The United States Corporation was run by the Roman Curia as a Municipal Government Corporation; the franchises, for example, FRANCE and GERMANY and UNITED KINGDOM have been operating all over the world for decades. These entities provided civilian government services in all these countries.

The United States of America corporation is run by the British Crown, which operates its own franchises, France, Inc., Germany, Inc., United Kingdom, Inc. ---- and so on, which have provided "defense" services for all these countries since WWII.

In effect, all those countries having a Central Bank in this system, have been "occupied" by these corporations and have been administered under the auspices of these corporations, while their actual Creditors in all these countries in the Central Bank system, have been impersonated, lied about, lied to, and used as the goats to pay for it all.

That is, the actual Creditors have been deliberately misrepresented as Debtors by the disloyal Middlemen who set all this up.

The Corporations have made the profits, the Americans and other living people in all the other countries impacted by this scheme, have been impersonated and enslaved to pay the bills.

The bureaucrats and politicians running these corporations have had a field day and an open checkbook.

And now, one of the parent corporations engaged in this unlawful and illegal graft and racketeering, is bankrupt. The second corporation, the United States of America, Incorporated, is barely hanging on and staving off its creditors in anticipation of receiving the assets of "the United States Trust" --- physical assets including land and gold and silver, that actually belong to us, the American people.

They propose to claim that we are "absent" and that the assets have been "abandoned" and so, rightfully belong to them and their corporation----

which, if allowed, would provide them with more than enough asset-base to stave off their own bankruptcy and give them the grubstake to boot up and fund another corporation, the United States of America, LLC.

The problem with this is that it is an impossibly big, fat lie.

Our actual American Government is in Session; the assets in question belong to us and to our population, not a Federal Corporation acting as our Subcontractor.

We have asked for all the various trusts that have been used to carry off this fraud scheme to be dissolved --- the Municipal ESTATE trusts that have been operated in our NAMES by the United States Corporation, the British Territorial Estate Trusts operated in our Names by the British Crown, and the American Infant Decedent Estates operated by members of the Bar Associations in service to the British Monarch --- with all assets naturally belonging to us to be set free and returned to the lawful owners.

This will collapse the stock markets and banking systems and court systems these corporations have employed as a means to control this unimaginable identity theft and credit hacking scheme. It will also stop the flow of "free" funding to unaccountable bureaucrats and politicians.

This is a recipe for chaos, if the people aren't told the truth.

At the same time the criminal system is collapsing, the assets will "reappear" unencumbered and in the possession of "new" owners, who are actually the people these assets always belonged to. This will enable us to fund a brand new economic system, free of taint, and return the traditional national governments to power.

In settlement of the credit debt owed to the living people, we propose to simply turn the ledger on its head; the debt accumulated by these corporations is all credit owed to the living people, who have already paid for all that credit with actual goods and labor.

For example --- while their so-called "National Debt" represents a debt for the guilty corporations that seized upon our assets and upon us, and used us as the clueless collateral backing their own spending, for us, the living people, this debt is prepaid credit.

We propose to use our prepaid credit as the basis for a new commercial system that will not be controlled by our Federal Subcontractors, but will instead operate in the realm of land-based commerce. In this way, the books can be balanced without creating new debt and the existing debt can be paid off, simply by bringing our side of the ledger forward.

We suggest that the Corporatists stop playing games, fronting Treasury Direct Accounts as an answer and offering people "pittance payments" as settlement offers, etc. We are not deceived by these dishonorable activities and don't wish to see any more of it.

What we will entertain and welcome is an honest discussion of the actual circumstance, public disclosure so that people are not confused and needlessly frightened, and a just settlement.

Donald Trump is absolutely correct when he says our country and our people have been abused; it's time for that to change. It's also time for the people throughout the world to be relieved and released from the thrall of the franchise corporations.

Notice to the Agents is Notice to the Principals; Notice to the Principals is Notice to Their Agents.

Let the auditing of "EUROPE" begin; give Macron and his buddies something more to do than foment nuclear war on a wooden nickel.
