

# Public and International Notice to the World Bank and All Affiliates

By Anna Von Reitz

It is not our purpose to waste time or cause disruption in efforts to fix blame on people long dead, nor is it our wish to harm those now living. We are simply preventing more crime and more disruption and keeping the peace, which is everyone's Public Duty worldwide.

It has come to our attention that the ASVLP and ASBLP Accounts and numerous other asset accounts including the Spiritual White Boy and Alpha and Omega and the affiliated accounts entrusted to the World Bank and the International Bank of Reconstruction and Development and numerous other institutions have not been deployed as ordered and intended by the Donors of the Funds and we are hereby re-claiming those accounts for default of contractual obligations on the part of the World Bank and its affiliates and any would-be Successors.

It is a fact known to us as men and women that the funds were provided with the intention to make available more than sufficient funds for the delivery of government services and performance of government functions worldwide without the need to tax anyone.

We have discovered that instead of following the instructions of the Donors, taxation continued and increased, and that governments poor-mouthed and pretended that they were in great, even insurmountable debt due to the destruction of the wars --- when in fact all their operational costs and costs of rebuilding were covered.

Instead of disciplining those in receipt of our funds, the World Bank and its affiliates continued disbursements and played politics and allowed the travesty of this double-dipping.

These miscreant governments even presented false mortgages and enforced evictions against the people whose credit these governments used to secure an interest in the victim's own property. This criminal activity has led to millions of people being evicted from their homes and businesses under color of law, which is expressly what we, the Donors, sought to avoid. The guilty parties displaced their own Benefactors and illegally, unlawfully, and immorally impersonated and securitized living flesh.

This Gross Trespass against Humanity must end and the institutionalized fraud and illegal press-ganging by coerced and undisclosed registration activities must stop.

This Order to the World Bank by the Founders and Underwriters of the World Bank and its Affiliates is in the Nature of a Claim and Demand to return all Assets and Credit derived from our assets to the Donors' control and credit and to note that a state of war no longer exists in The United States.

As of [25 June 2022](#) we will be closing the books and all related charge and abatement and expense accounts that have been predicated on the assumption of a state of war related to the purported continuance of The American Civil War, First World War, Second World War, and any other wars or conflicts in which armed hostilities have ceased more than three years prior to [25 June 2022](#).

On that day, [25 June 2022](#), the accounts related to these historical conflicts will be closed and a final fiscal audit conducted and forwarded to our Office of Reconciliation. A Final Universal Proclamation of Peace and Reconciliation officially ending the historic wars and conflicts will also be issued and memorialized. Any other or additional questions related to this directive may be forwarded to me as the Fiduciary for The United States of America.

The cost of retaining any occupational force after [25 June 2022](#) shall be at the discretion of each country and the cost for such retention will be borne by each country.

Any country or nation having any due cause to object to this Final Accounting and Peace Proclamation Process must enter its claim prior to [25 June 2022](#) by presentment to our Office of Reconciliation at the address shown below.

We further Notice that in the overall accounting The United States of America is owed one ounce of fine silver for every fiat Federal Reserve Note issued against our credit by the foreign Principals responsible for the corporations issuing these Notes since 1913 and that this is an insurmountable asset debt unaffected by the

bankruptcies of incorporated governments. We are hereby invoking and exercising our secured interest in this debt and we are fully informing the World Bank and its Affiliates.

The Donors and Underwriters who are the Preferential and Priority Creditors of the World Bank, it's affiliates and franchises and successors, have announced the creation of a new banking system designed for the needs of living people and small businesses, which will expedite recovery of the world economy from the ground up and finally guarantee the direct disbursement of pre-paid credit as compensation owed to those injured by the criminal mis-administration of the world monetary system for the past 160 years.

This Bilateral Blue Dot Bank System is designed to provide direct relief and tax free compensation benefits as well as providing a means of equitable exchange of foreign currencies for gold and silver-backed American money. As each country opens its own Bilateral Bank operating under an American Charter, it will be able to access this direct exchange benefit. Nobody anywhere in the world needs to be afraid of rumors that Federal Reserve Notes are worthless, nor should anyone lose interest in acquiring Treasury Bonds.

Notice to Agents is Notice to Principals; Notice to Principals is Notice to Agents. Evasion of Notice shall be taken as acquiescence.
