

World Status Report: October 29th, 2022

By Anna Von Reitz

I hope everyone understands that there IS no "German Government" just like there is no "United States Government".

All that exists in 71 countries around the world, are "service" corporations in the business of providing "essential government

All these "Government Services Corporations" masquerading as legitimate governments are tied together by one double-sided parent corporation. If we are to believe what they acted out at the Common Wealth Games (Notice, it's not "Commonwealth", it's "Common Wealth" Games) there are now 71 nations enfranchised and caught in this snare, and Israel is the most recent victim.

If you read my articles you will know the following facts:

1. Abraham Lincoln was acting as the "President" of a British Territorial United States Corporation doing business as "the" United States of America, Incorporated, not the President of this country --- The President of The United States of America.
2. Lincoln was forced to bankrupt his Territorial Corporation in March of 1863.
3. Five years later, 1868, a Scottish Commercial Corporation was registered doing business as "The United States of America" --- Incorporated.
4. This British Crown Corporation impersonated our Federation of States in the same way that a credit card hacker impersonates their victim and for the same purpose --- to gain access to our credit.
5. The same year this Scottish Imposter published a look-alike "Constitution" almost identical to the actual British Territorial Constitution issued in 1789, but with this important difference: the original Territorial Constitution was established under land law, and known as the "Law of the Land". This second "Constitution" in 1868 was the

Charter document of the aforementioned Scottish Corporation and operated under the "Law of the Sea".

6. The change in jurisdiction from unincorporated to incorporated, resulted in a change of law from land to sea, which allowed the schemers to evade their obligations under the original Constitution and radically redefined the courts and their operations.

7. This Scottish corporation formed in 1868 was a new British Crown Corporation replacing the one Lincoln bankrupted and which he served as "President".

8. Three years later, in 1871, the Perpetrators started building a new Municipal CORPORATION doing business as "the" United States. It was finally legislated into existence in 1878 and a "new" version of The Constitution of the United States was released, creating the same kind of disguise and substitution scheme as they put in place for their British Crown Corporation in 1868, thus allowing them to avoid their obligations under the original Municipal Constitution of 1790, too.

9. This left the British Territorial Government with two principal instrumentalities, (1) a British Crown Corporation doing business in our name as "The United States of America, Inc." operating under Admiralty Law and (2) in 1878, a Municipal Corporation doing business as "the" UNITED STATES doing business under Maritime Law.

10. This became the double-sided parent corporation I am talking about. Every "member nation" of their system is set up the same way; there's a British Crown Corporation dba "Deutschland, Inc", and a Municipal CORPORATION doing business as "DEUTSCHLAND, INC." and they are both run by the United States of America, Inc./ UNITED STATES, INC. parent corporations owned and operated by the British Territorial United States Government that was, until recently, headquartered in Puerto Rico.

11. This is the means the Phonies (short for "Phoenicians") have employed to keep siphoning the wealth away from this country, from the former Commonwealth countries, and from Western Europe. For the past thirty years the Parasites have been planning to de camp to China when things got too hot in The United States and Europe. That's why all the kissy-face with China in the 1970's and 80's. They were already infiltrating the Communist Government over there and preparing a nice safe, soft landing for themselves.

12. These parasites wearing robes (lawyers) and nice suits (bankers) operate out of the Inner City of London and do business "as" the Government of Westminster.

13. They have been doing the same things and operating the same schemes since the Bronze Age -- they introduce the concept of credit, they gain access to other people's credit, they accumulate debt "in the name of" their victims, eat out the substance of the country they've invaded, kill their creditors, and then move on to a new "host".

14. In more recent times, they have added the use of illegal Mercenary Conflicts to their bag of tricks, and equally illegal long term "military occupation" of countries they've subdued as a result of these Mercenary Conflicts. Seventeen countries in Western Europe remain occupied by these crooks "for their protection" ever since the end of the Second World War, and we, the Americans, have been soaked to pay 98% of the "defense costs" of these countries and Japan ever since. (Trump caught hell for even suggesting that they pay another 2% of their own defense costs.)

15. Technically, The English Civil War, The Seven Years War (aka, French and Indian War), The American Civil War, The First World War, The Second World War, Korea, Vietnam, Iraq I and 2, Afghanistan, and all the myriad smaller fights have all been illegal Mercenary Conflicts and our would-be honorable soldiers have been used as cheap mercenaries, without their knowledge, to fight in all of them. (If our guys had known they were fighting as Mercs they would have asked for more money and benefits or would have refused to participate, so the Vermin kept that very quiet.)

16. So, here they are, right on time, eating out the substance of this country and Europe and the Commonwealth and Japan --- and promoting another illegal undeclared Mercenary Conflict, while they have officially removed the Communist Party as the Government of China and are moving into high gear to get their new nest settled and their own butts out of the way of the debacle they are creating for Russia and the rest of the world.

17. They intend to be Spectators, safely ensconced behind the proverbial "Great Wall of China", speaking with Chinese Mouth-pieces, talking about the superiority of "their" 5,000 year-old culture--- when it isn't their country and isn't their culture and they are nothing but evil, self-interested, international parasites intent on using China to guarantee their safety while they plot to eat out the substance of China just as they have done to every other country that has ever been seduced by their money. (Please note, it isn't their money that they are using to buy their way into China --- it's our money, but that's another story.)

18. Please note that the "War in Ukraine" is being conducted in exactly the same way they have conducted all these other illegal Mercenary Conflicts --- they all start as a temporary "incursion" for a specific purpose; in this case, the Russians were prodded into cleaning out the biological warfare facilities that NATO was building in Ukraine. Then, the fraud artists pour money into the conflict --- see the billions of dollars of "support" poured into Ukraine from "the" US, INC., and NATO. The cost of all of this

"support" gets passed on to the American people and Joe Biden hires 87,000 new IRS goons to collect it. They all profit from selling arms and supplies and even from giving arms and supplies to Ukraine, so of course this "support" against Russia gushes from every pore of the Great Whore, until they stop and think: what if Russia loses? Then their man in Ukraine, the Winner, has to pay for all the destruction and rebuilding.....which means all the countries "supporting" Zelensky.... and that just came home to them this week and suddenly, all the support for poor Ukraine dried up like last year's acne scar. Even the BBC goes silent.

19. Sweden saw who attacked the Nordstream I and II Pipelines. It wasn't Russia. It was Biden. So now our Allies and the people in still-occupied Europe who are dependent on us for their defense (remember) have been attacked by their purported defenders and deprived of over 40% of their cooking and heating and electrical power generation fuel just in time for [Christmas](#), and on top of that, there will be terrible fertilizer shortages next spring from Gdansk to Marseilles. Russia has been holding its temper so far and showing mercy to the rest of Europe, because they understand that all those countries are still occupied and being used as pawns, and on top of that, it's those same European countries that will suffer from the loss of Russian gas and the much, much higher cost of whatever gas supply there is. No doubt the Vermin responsible are planning to send convoys of Mercy Ships of Liquefied Natural Gas and Propane and Fuel Oil to Europe --- all at the expense of the Americans --- but the average European will spend twice as much at the pumps, because while the Vermin charge us on one end, they will make sure that they recoup "for" us on the other. Read that, they will gouge Europe and America, both, and keep the difference.

20. It makes no sense to blame the victims, however, in the past 24-hours, continued idiot-incursions on the Black Sea and bombing of the grain export facilities at the one port still open to ship Ukrainian grain to the rest of the world, has caused Russia to stop those vital shipments. These attacks were supposedly done by "Ukrainian Forces" sabotaging their own port facilities and export economy, but they don't have the equipment and training to use the marine air-to-surface drones that were used in the attack. So now our European and Asian and African and Middle Eastern friends and neighbors will go without bread, thanks to the Usual Suspects.

21. Do you see what is happening here and what is being used as "weapons"? Vital commodities and especially transportation of vital commodities (pipelines, ports) are being attacked. This has the fingerprints of J.D. Rockefeller's progeny -- literal and in spirit -- all over it. Meanwhile, in America, we have suffered endless weather-warfare "tests" and attacks in violation of the ENMOD Treaties, because we, Americans, are "non-domestic targets" with respect to "the" US, and dozens of major food processing businesses have been attacked by arsonists working for the USDA --- the Municipal Corporation's "DEPARTMENT OF AGRICULTURE", so some of the largest meat packing, poultry packing, egg packing, cheese-making, vegetable harvesting and

canning facilities have been destroyed right at harvest season by criminals who are supposed to be working for us. This follows a season-long rampage by the same Despicables paying farmers large sums of our money not to plant crops this year and if they planted crops, to just let them sit and rot in the fields at harvest time. There is no doubt that all of this is being implemented to cause acute food shortages throughout much of the world, and exponentially higher food prices. This is being done purposefully by the illegal Agency Subcontractors working for the Municipal CORPORATION, who are being used as "Third Parties" to do the Dirty Work. Apparently, Joe and Company at the WHITE HOUSE OFFICE, INC. and the central banks who have their fingers filthy on this, actually believe that we will be too stupid to figure out that the USDA is a subcontractor working for them, so they won't get blamed. Why should the politicians catch it in the can? They've been using all these "Agencies" at our expense and in this capacity since the 1930's. Look how they use the "DOJ" and the "FBI" and the "IRS" as attack dogs to do their dirt, and then stand there like the flowers in May, telling you how they are "fighting for you" in Washington, DC? The only thing they need to fight is their own criminality, cowardice, gluttony, avarice, sloth, self-interest, immorality and rank stupidity.

22. Meanwhile, England is in a hopeless tail-spin, with the British Pound Sterling below parity with the Federal Reserve Notes for -- I believe -- the first time in recorded history, and the Parliament is taking its oath of allegiance to "King Charles" of Scotland instead of "King Charles, the Third", and despite efforts to get BREXIT off the ground, the British Economy is still hopelessly entangled in the Euro and Continental trade agreements. Their "standing military" is down to 55,000 men, partially as a result of their long and happy ride on the backs of the Americans providing for their defense, and partially because their government and economy and investments have been controlled by the German House of Wettin and their Scottish relatives since the 1840's. Consider this fact: almost a full generation of British men were wiped out in the First World War, which was nothing but a pissing match of Hanoverian grudges against the Kingdom of Prussia. It had nothing ---I repeat--- nothing to do with England, Scotland, Ireland, or Wales, yet the British people were forced to pay this horrendous price for "Royal Pride" and the German people were similarly decimated, betrayed, and defrauded. The only other thing of note that happened other than the ghastly carnage, was that the Bank of England (Sell Everything By [Friday](#) Bailey) seized upon the estimated 10 Billion Metric Tons of gold that Czar Nicholas and Kaiser Wilhelm II deposited with them as "abandoned funds". The Bank profited nicely, thank you, and had enough leftover to start World War II. So when you see the BOE rocking the stock market and encouraging a massive worldwide sell off, what do you think? That they are purposefully trying to take down the stock market and getting ready to buy up the grossly devalued stocks for pennies afterward --- just as they did after Waterloo. Just as they did in America after [Black Friday](#). If the Brits haven't got their knickers in a knot after all this bitter experience as nose-wipes for the Invaders in Nice Suits, just wait until they see the new

prices posting on kippers and bangers next week. A working man in Britain will be lucky to have chips once a week if this madness is allowed to continue.

23. In America the "Housing Bubble" has gone bust, but thanks to complete silence from the Mainstream Media, most Americans still don't know that. New mortgage applications are down 75%, and not only because more and more Americans are learning that they don't owe mortgages --- the British Territorial Government and its British Crown Corporation and Municipal Corporation "instrumentalities" owe the mortgages and are just bilking their clueless employers and foisting their own debts off onto them, but because demand for housing in general, new or old, is down over 30%. This could be because of the millions of Americans who have died or been saddled with immense hospital bills thanks to Bill Gates and the criminal conspiracy we have all come to know as the mRNA "Vaccines". This is not speculation or hearsay or any kind of theory; this is fully borne out by clinical data bases, research scientists, and highly respected Medical Doctors. See: <https://usawatchdog.com/cv19-vax-destroys-hearts-brains-of-billions-of-people-dr-sucharit-bhakdi/>. Although I was one of the first to do research on the Patents underlying this heinous for-profit crime, others have joined the hunt and this week the Master Patent came to light, the collection file for over ninety related Patents from all over the world, fully revealing exactly what this "vaccine" is and what it is designed to do (kill people, control people, and tag them like cattle) --- and even more astonishing, it provides us with the exact names of the persons (I won't dignify them by calling them people) and corporations and institutions responsible for the ongoing genocide. We can expect to see a loss of 50% or more of housing values and continued plummeting in the housing market for years to come, which means that the banks dependent on mortgage income, like Bank of America, will be forced to fold or be bailed out by their victims yet again. The members of the Congress are willing to give our money away to them. It remains to be seen whether or not the Silent Majority will finally wake up and say something or not.

24. This week we've been at pains to explain some very basic concepts, such as the fact that the owner of physical assets also owns any credit based on those physical assets and the fact that no country using the debt-credit system of the Federal Reserve can accrue a National Debt without having it instantly balanced by an equal and opposite National Credit. This means that not only does "the" US and its citizenry have no "National Debt", but nobody owes any interest payments on any National Debt. It is this second bombshell revelation that is currently sending shockwaves around the world, because Ronald Reagan and the Grace Commission very clearly told the American people that out of all the money they paid in Federal Income Taxes, none of it was going to pay for Government Services or infrastructure. It was all going to pay off the interest on the (figmentary) National Debt. If there is no National Debt, or only the "appearance" of a National Debt caused by dishonest bookkeeping, there's no interest to pay on any such debt, either, which gives rise to the question ---- where has every penny of Federal Income Tax paid since the Grace Commission Report really gone?

25. We've also dropped the boot on another nasty and very old criminal scandal. Throughout their long history of dishonor the Federal Corporations have been forced to "legalize" numerous illegal actions by providing remedy for them. This basically converts otherwise illegal demands and claims on property and performance into "voluntary acts". If someone demands that you strip naked and pick up dollar bills with your butt cheeks in public this could be considered an illegal act of denigration and perversion, especially if the demand is made at gun-point under threat of arrest. But if you have the option of politely saying, "No, thank you." and are allowed to go home and steam your broccoli in peace, everything is "legalized". So keep this principle in mind. People and organizations involved in illegal acts can legalize them by providing remedy for their actions while continuing to coerce less knowledgeable victims. In 1921, the Territorial Corporation started "salvaging" American babies, and began a forced program of registering them as British Territorial citizenry and Wards of their State-of-State franchise operations. They didn't disclose what they were doing to the victims, of course, but they did have to legalize it on paper by adding a one sentence provision in the depths of Federal Title XII, 12 USC 95 (a) which provides that the victims can claim their "Reversionary Trust Interests", They don't bother to say what the "reversionary trust interest" is or what it pertains to; you, the victim of a fraud that occurred when you were a baby, are supposed to know that this is the remedy for the phony registration process and their false claim that you voluntarily waived your rights and your identity and political standing and property rights as an American. That is, they provided a remedy for their criminality, but provided no way for you to access the remedy --- which converts their action back into a crime again. No public explanation or true Notice was given, no instructions published, no offices identified as those responsible for administering these estate redemptions, no government forms produced to expedite this process, no specific officer identified as the one responsible for processing redemption requests ---- nothing. No practical access or disclosure was ever provided.

A similar state of affairs surrounds House Joint Resolution 192, Public Law 73-10, and United States Statute-at-Large 48 Stat. 112. In exchange for illegally confiscating the gold belonging to the General Public and stealing our public gold reserves and rendering all of us actually unable to pay a debt, the Territorial Congress made the extraordinary pledge to pay all our debts, whatsoever debts we might have or generate. And they also pledged to provide Mutual Offset Credit Exchange Exemptions --- allowing us to swap any debts we owed them against debts they owed us. None of these programs or options were ever made accessible to the Public. No grand announcements explaining any of this were provided as notice. Again, as with the baby theft and "infant decedent estate" scam described above, no forms or instructions were provided, no responsible officers or offices were designated, and no practical access to the remedy was implemented by the guilty Congress or by their Agency minions.

A similar situation also applies less generally to the Board of Governors for the Federal Reserve Banks and their demand, for example, that privately owned American cars and trucks must be registered as "Motor Vehicles" even though they are not, by definition, Motor Vehicles. The essence of the harm is that being a Motor Vehicle means that the conveyance is involved in commerce and the registration also provides that the person operating this "Motor Vehicle" is involved in commercial activity and therefore presumed to be a Municipal citizen of the United States subject to prosecution under the Fourteenth [By-Law] Amendment of the defunct Scottish Corporation. This allowed the Federal Reserve Banks to use the private cars and trucks of Americans as collateral and allowed them to claim an ownership interest in them, which they then used to demand that all "their" cars be insured by insurance companies, all of which paid kick-backs to them. This is clearly criminal divestment and fraud for profit and purposes of coercion, so it had to be legalized by providing remedy for it. The Board of Governors then published "Regulation Z" as their remedy, but again, not a whisper was afforded the General Public and no specified means was provided for the victims to access the remedy. They had to read it on their own and request the remedy from the Department of Transportation, which would then authorize the issuance of "permanent plates" by the Department of Motor Vehicles. These plates or tags contain the letter Z and serve silent notice to the Highway Patrol that the car carrying them is not really a Motor Vehicle and not subject to the Motor Vehicle Code.

These and other abundant examples have in common the trait that the remedy is made virtually inaccessible, so that the illegal act the remedy is supposed to cure can go on unabated under the guise of voluntary participation. The failure of the Congress to provide both Notice and access to remedy and the more general failure of the Federal Reserve Board of Governors to provide the same, is evidence of Bad Faith which strips the protections of legalization away. Now that this is fully realized and firmly stated in multiple public venues a serious correction must be made by the Congress and the Federal Reserve Board of Governors without further delay or obfuscation. Stripping away the facade of legalization left unrealized by not providing adequate access to remedy will involve re-criminalizing the Act or actions back to the date of their inception and the accrual of damages from that day forward under Admiralty Law; any brigandage, press-ganging, illegal confiscation of property, illegal impoundment of property or persons, will carry the maximum penalty allowable --- and obviously, as these activities have been carried out by corporations there are no pleas of "state sovereignty" or protections of public office available.

26. We note with pleasure the successful prosecution of a Constitutional challenge brought against the New York Governor and New York Department of Health by members of the New York Legislature and a Citizens coalition, claiming a Separation of Powers violation occasioned by the Governor's attempt to enforce sweeping and coercive detainment measures and selective quarantines leading to internment in "Vaccine Camps" within the borders of New York, all based on an Administrative

Regulation promulgated by the unelected New York Department of Health. The courts found in favor of the members of the Legislature and the Citizens and shut down the spectre of Internment Camps. This decision underscores a growing awareness of abuse of Executive power and Administrative "laws" including Administrative Codes, regulations, and misapplied statutes; it further supports the findings of the United States Supreme Court in *West Virginia v EPA* which reiterated the decision of the Tennessee Supreme Court in *Norton v Shelby County* a century ago: Congress cannot further delegate its legislative role to agencies or franchises. Administrative laws may only pertain to the employees and officers of a corporation; they are not competent to speak to non-resident aliens and non-citizens who are owed the services of Article III Courts. The successful action was brought by veteran New York attorney Bobbi Ann Cox out of concern about rampant violations of Constitutional Guarantees and abuses of power by unelected agencies and politicians usurping the powers vested in the legislatures. Please visit the Healthy American website for a full interview with Peggy Hall and Bobbi Ann Cox. This is a positive self-correction by the Territorial citizenry themselves and we are very glad to see it, but caution that this kind of correction is not sufficient to systematically address the harm that such misadministration by the Territorial United States continues to cause the General Public. The idea that any Governor or other member of an incorporated State-of-State business organization franchise could enforce measures violating our Constitutional Guarantees (and their limitations) by relying on administrative codes and regulations drafted by unelected agencies and departments is on the far side of sanity and it requires not only correction by the courts on a case-by-case basis, but a permanent bar against such overreach. We send our love and gratitude to Peggy Hall and Bobbi Ann Cox for their fearless and effective and determined defense of the Separation of Powers and also to the members of the New York Legislature who did indeed stand up for the Constitution and their Constituents, and to the members of the voter's coalition, all of whom made the victory possible and who have added to the growing body of case law discouraging such usurpations by corporate franchise executives.

Anyone who thinks that we aren't doing our job and keeping our ears to the ground has more than another think coming.
