

Wow. Teri Hinkle Out of the Ball Park

By Anna Von Reitz

This post from Teri is just so extraordinary, everyone has to blast it to outer space.

Teri is one of those women who "smelled a rat" early and often, and has always had the courage to speak up, but this time, well.... read it for yourselves:

It is phenomenally amazing how many Americans, after all the true facts and information available in regard to the GLOBAL GENOCIDE PLAN called COVID-19, still will not accept that their own government could or would EVER deliberately target them for death or harm. For those of us old enough to have been there and seen that time and time again, even so far as to have lost family members as a consequence, we know better, in spades.

The following is a partial list of historical abuses collated and copyrighted by the Health News Network.

1932 – The Tuskegee Syphilis Study begins. Two hundred black men diagnosed with syphilis are never told of their illness, are denied treatment, and instead are used as human guinea pigs. They all subsequently die from syphilis.

1935 – The Pellagra Incident. After millions of individuals die from pellagra over a span of two decades, the U.S. Public Health Service finally acts to stem the disease. The director of the agency admits it had known for at least twenty years that pellagra is caused by a niacin deficiency but failed to act since most of the deaths occurred within poverty-stricken black populations.

1940 – Four hundred prisoners in Chicago are infected with malaria in order to study the effects of new and experimental drugs to combat the disease. Nazi doctors later on trial at Nuremberg cite this American study to defend themselves.

1945 – Project Paperclip is initiated. The U.S. State Department, Army intelligence, and the CIA recruit Nazi scientists and offer them immunity and secret identities in exchange for work on top-secret government projects.

1947 – The CIA begins its study of LSD as a potential weapon. Human subjects (both civilian and military) are used with and without their knowledge.

1950 – In an experiment to determine how susceptible an American city would be to biological attack, the U.S. Navy sprays a cloud of bacteria from ships over San Francisco. Many residents become ill with pneumonia like symptoms.

1956 – The U.S. military releases mosquitos infected with yellow fever over Savannah, Georgia, and Avon Park, Florida. Following each test, Army agents posing as public health officials test victims for effects.

1965 – Prisoners at the Holmesburg State Prison in Philadelphia are subjected to dioxin, the highly toxic chemical component of Agent Orange used in Vietnam. The men are later studied for development of cancer.

1966 – U.S. Army dispenses *Bacillus subtilis* variant niger throughout the New York City subway system. More than a million civilians are exposed when Army scientists drop light bulbs filled with the bacteria onto ventilation grates.

1990 – More than 1,500 six-month old black and Hispanic babies in Los Angeles are given an “experimental” measles vaccine that had never been licensed for use in the United States. CDC later admits that parents were never informed that the vaccine being injected into their children was experimental.

1994 – Senator John D. Rockefeller issues a report revealing that for at least fifty years the Department of Defense has used hundreds of thousands of military personnel in human experiments and for intentional exposure to dangerous substances.

1995 – The U.S. government admits that it had offered Japanese war criminals and scientists who had performed human medical experiments salaries and immunity from prosecution in exchange for data on biological warfare research.

1995 – Dr. Garth Nicolson uncovers evidence that the biological agents used during the Gulf War had been manufactured in Houston, Texas, and Boca Raton, Florida, and tested on prisoners in the Texas Department of Corrections.

1996 – The Department of Defense admits that Desert Storm soldiers were exposed to chemical agents.

1997 – Eighty-eight members of Congress sign a letter demanding an investigation into bioweapons use and Gulf War syndrome.

That is only a partial list. The loss of my son in January to the FAKE PANDEMIC NIH NON-TREATMENT PROTOCOL FOR MONEY is not the first time our family has suffered loss at the hands of those who profess to serve us. After the loss of my father-in-law in 2001, it came to light that he had been suing 140 companies over the damage he had suffered due to their use of asbestos in the steel mills he worked in and failed to apprise the workers of the danger. I ended up in charge of that law suit at that point, did some research myself. I found that the federal government had known since 1922 that asbestos was a direct cause of Mesothelioma (a form of lung cancer) but did not say a single word until forced to in 1975 and, even then, simply issued regulations on industries using it and then failed to enforce them. Also, as a result of that criminal action by our government, both my husband's cousins died a few years later of cancer caused by the asbestosis used at the Fermi plant where the husband worked. The government knew that any person working around the substance brought it home on their clothing and exposed their whole families to the danger. My husband's brother also died in 2000 from kidney cancer caused by his exposure to Agent Orange in Vietnam. It wasn't until several months AFTER his death that the U.S. Government finally paid a meager 17 thousand dollars in compensation to his family.

IF YOU STILL BELIEVE YOUR GOVERNMENT DOES NOT WANT TO KILL YOU, HARM YOU OR TURN YOU INTO A LAB RAT, well, then you might as well go on out and get in line for your BOOSTERS and get it over with! There hasn't been a SINGLE VACCINE tested for safety by the FDA or any other agency in the past 35 years!!! But, oh well, just buy the BS on the television and jump right up on the auction block!
