

# Anatomy of a Birth Certificate - What It Means

By Anna Von Reitz

Take a look at the Birth Certificate issued in your NAME.

What's the first thing you notice?

It's on funny paper: hard surfaced, durable, heavy paper called "bond paper". This is your first clue that your estate has been seized upon and that bonds--- that is, promissory notes--- have been issued against your name.

The next thing that will probably catch your eye is that there are all sorts of seals and blazons and watermarks on this piece of paper. It carries all sorts of emblems from a "State of State" organization, depending on where and when you were born.

We know from our study of the history that these organizations are all foreign with respect to us, as our own American State of State organizations have been moth-balled since the Civil War.

Look at the BC issued in your name. It will show either a Territorial State of State with its name written in Upper and Lower Case like this: State of Washington, or a Municipal STATE OF STATE written in All Capitals like this: STATE OF IOWA.

All these seals and watermarks and other gee-gaws serve to identify the "Issuer" of the Birth Certificate, which is the foreign State of State Organization, not you. They are identifying your NAME as property belonging to them, which they are issuing bonds against.

The next thing you will most likely notice is that your name is spelled out in All Capital Letters, and that, most likely, other words appear in All Capital Letters.

According to the Bar Association Manual and the Government Printing Office and Federal Bureau of Engraving and Black's Law Dictionary and the Chicago Manual of Style, the only things that can be named using All Capital Letters are: (1) Corporations or (2) Dead men's estates.

The All Capitals names are a form of Latin called "Dog Latin".

So, look at your name as it appears in All Capitals on that Birth Certificate.

Are they issuing bonds against a Dead Man's Estate? Or against a corporation?

If your name appears like this: JOHN ALLEN DOE, the bonds have been issued against your ESTATE on the presumption that you donated it to the State of State or STATE OF STATE Organization.

If your name appears like this: JOHN A. DOE, the bonds have been issued against a PUBLIC TRANSMITTING UTILITY franchise on the presumption that you donated that to the State of State or STATE OF STATE Organization.

In either case, obviously, so far as you know you didn't donate anything to any of these yahoos and you are not aware of having given them permission to bond your estate or any public transmitting utility, either. It all sounds bizzare, doesn't it?

But there is the evidence in your hand.

Now, who is the Birth Certificate Bond signed by? The Registrar. The Registrar is an Officer of the Probate Court. The appearance of their signature on "your" Birth Certificate is absolute proof that your property --- whether your ESTATE or your PUBLIC TRANSMITTING UTILITY --- has been probated and seized upon as property belonging to the State of State or STATE OF STATE that issued the Birth Certificate.

Now look at the dates on the face of the Birth Certificate. You will see your actual birthday and also a file date ---- the "birthdate". These refer to the actual event of your birth, and then, some days or weeks later, the "filing" of the paperwork to either (1) pronounce "you" dead and create your ESTATE; or (2) to create "your" PUBLIC TRANSMITTING UTILITY.

Either way, you arrived first and have first right of recall and ownership, known as a reversionary trust interest in your own Good Name and assets.

After all, you are being misrepresented as the "donor" of all these assets and the State of State is claiming to be the beneficiary of your largesse. Having discovered this "mistake" made by your Mother when you were just a baby in your cradle, you have a right to come forward and correct it upon discovery.

What else does the Birth Certificate represent?

It is evidence of crime against you and fraud and non-disclosure against your mother.

It is evidence of attempting to contract with and establish "unconscionable contract" with an infant.

An "unconscionable contract" is a contract that you literally are not aware of. And how could a little baby be aware of a contract made "for" him when he was only a few days old, by a new Mother who was never given full disclosure about those papers she was signing at the hospital? She couldn't explain to you what she was never given to understand herself, could she?

The BC is potent evidence of crime.

Now, what are you going to do with it / about it?

The first thing you are going to do is secure two Witness Testimonies from people who have "reasonable first hand knowledge" of you and your family, who can affirm that you are "the" living man or woman whose birth occurred at such and such a time and place and to your parents, etc.

This establishes the fact that you are the presumed "Donor" of the property referenced by the BC and also establishes your standing to sue these criminals.

Next, if you follow our advice, you will complete the paperwork to return your Trade Name (also known as your Good Name and Given Name -- "John Allen Doe" in Upper and Lower Case) to the land and soil jurisdiction of your birth State.

This process explicitly demonstrates--- and recording of the action proves--- that you, the presumed Donor, are acting as a Lawful Person, not a Legal Person.

This puts you outside their jurisdiction, so they can no longer "presume" anything about you.

Next, having secured your Trade Name and having permanently domiciled it on the land and soil jurisdiction State, you will Expatriate from any presumed political status as a Territorial Citizen (like someone born in Puerto Rico) or Municipal CITIZEN (created in the Municipality of Washington, DC, for example).

And you will revoke all Prior Powers of Attorney and name your Lawful Person ---John Allen Doe, in this example--- as the only Attorney-in-Fact authorized to do business for you and your estate.

Finally, you will seize upon all the other Assumed Names and NAMES that are or could be associated with you in any regard, and all their variations and permutations and orderings and styles, and you

will use a recorded Certificate of Assumed Name(s) to claim them and permanently domicile all of them on the land and soil of your State of the Union, too.

This last is a process like re-flagging a ship. Instead of "sailing" under the auspices of the British Territorial Government or the Municipal Government of Washington, DC, you are now demonstrably sailing under the auspices of Maine or California or whatever other actual land and soil jurisdiction State.

This also puts your Good Name and all the "derivative" NAMES under the Public Law, so that you are no longer subject to the codes and statutory laws and "public policies" of the foreign State of State or STATE OF STATE Organizations.

In sum total, at the end of this process, you have: (1) damning conclusive evidence of their wrongdoing against a baby; (2) proof of your ownership of your name and your standing; (3) proof of your political status; (4) proof that you are the only authorized Power of Attorney; (5) proof that any "vessels" related to you stand under the Public Law and are not subject to any presumption or interpretation otherwise.

You still have to learn how to use these documents in your defense and be able to describe this whole circumstance, but taken together they form a competent rebuttal and evidence trail removing you from any "US citizenship" status, and returning you to your rightful status as an American State National.

And again --- why is all this necessary? Because your identity has been stolen. The Birth Certificate you hold in your hand is irrefutable evidence of the facts.

You were deliberately misidentified as a baby as either a "United States Citizen" [Territorial] or "Citizen of the United States" [Municipal] and unless you rebut the evidence, you will be claimed as chattel belonging as a property asset to one of these foreign commercial crime syndicates.

For additional insight, I recommend the YouTube videos of Jordan Maxwell and any and all lectures regarding the "Justinian Deception" --- the use of Dog Latin--- by Romley Stewart.

Time is of the essence and numbers count, as these crime syndicates know that they have been discovered and that their system has been deconstructed, so that they either make amends or are destroyed by liquidation or worse.
