

My Opinion as an Anti-Vaxxer

By Anna Von Reitz

Luc Montagnier, one of the world's top virologists, has flatly said that everyone who has received any form of the purported vaccine has no chance of survival -- "There is no hope, no possible treatment, for those who have been vaccinated already. We must be prepared to incinerate the bodies."

After studying the contents of the so-called vaccines, the Nobel Laureate said, "They will all die from antibody dependent enhancement. Nothing more can be said."

Antibody-dependent enhancement, sometimes less precisely called immune enhancement or disease enhancement, is a phenomenon in which binding of a virus to suboptimal antibodies enhances its entry into host cells, followed by its replication. [Wikipedia](#)

So an "enhanced" Common Cold Virus gets easy entry to the cell -- similar to what happens with HIV, and no coincidence, either, since HIV research was the source of the "enhancement" in the first place. The victim's immune system wears itself out, similar to AIDS, and there you go. Down the long road.

The results in India can be seen for themselves, and yep, the funeral pyres are piled high and more funeral rafts than ever are sailing down the Ganges, and we will be overwhelmed soon enough come winter, thanks to our evil and idiotic politicians.

Still, I don't agree that there is "no possible treatment".

Any evil that man can devise can be overcome. The problem is that it usually takes time to overcome such mindless depravity and breach of trust, unless of course, the Perpetrators already have the solution to the problem they have created waiting in the wings.

Which in this case, they do.

Afterall, they have to have the antidote available to save themselves.

They also have to have the antidote to make Big Money off their invention.

So, rest assured, there is an antidote, and what has to be done to make sure everyone knows and has access to the antidote?

That's right. It's time to send in the Goons and Gorillas. For real.

Bill Gates seems to think that simply refusing to take the vaccine by claiming that he and his children are "allergic" to it, is sufficient. That is what he did when the Needle Police arrived at his door.

This claim is the Get Out of Jail Free Card provided as the remedy needed to legalize their illegal mask mandates and other demands. So use it.

Remember Woody Allen's neurotic film character mumbling, "I'm allergic to everything."

That's you from now on, and your family, too. You are all such delicate little rosebuds that you are allergic to everything. The mere sight of a corn chip makes your skin crawl. Dust and pollen? You break out in hives.

And if you have already taken the jab, stand by.

Dr. Luc may be right, but then, there may be other things that he isn't yet aware of and isn't taking into account.

The Perpetrators definitely underestimated the resistance of the American People and the loss of credibility of the Mass Media and also the loss of trust in government. Less than 40% of our population has "voluntarily" self-destructed.

That leaves about 40% of our population sick and dying with nothing to lose and reason to hate every politician from here to Melbourne. No wonder Fancy Nancy wants \$2 billion spent on "defenses for the capitol".

Those who don't believe in God, the True God, that is --- are about to get a helluva jolt. Just like the priests of Baal got it, 3,000 years ago. The spiritual forces of death and evil have spent their wad. And now comes the payback.
