

## **Additional Issues for The International Court of Justice -- 11 April 2021 -- Blood Money 5**

By Anna Von Reitz

Yesterday we described the particulars of the fraud and Breach of Trust that has been committed against every American by their own employees--- a fraud and Breach of Trust that ultimately results in Americans being mischaracterized as things and treated as slaves by people who are literally taking their paychecks out of our pockets.

We are not alone. Many other countries are faced with the same dilemma. The servants have styled themselves the masters and used the instruments of government and the privileges of government to enrich and empower themselves, at the expense of those they are hired to protect.

They even entertain the fantasy that their resources are not confined to the present generation, and that they have the power to indebt their employer's children far into the future.

This fraud and Breach of Trust has been created and implemented by the Government of Westminster and the Inns of Court organizations located in the Inner City of London and the members of the Temple Bar.

Our American tradition is to tolerate religions and to offer religious freedom to all. We do not believe in governmental interference in religious matters, but when an occult religion causes its members to snatch children for use as sacrifices and harvests their blood to create addictive drugs, a line must be drawn and action taken. When they use sophistry to create an entire culture built on lies, and try to enforce their fantasy on others, it is time to act.

It is perhaps strange to think that such an ancient and profane religion has gained ground in the halls of academia, in the world governments, and in the professions, but this religion pretends to offer what many people in these occupations want -- enlightenment, wealth, and political power. So they are drawn in, like moths to flame----and nowhere is this more apparent than in the legal profession and the

Inner City of London, which has served not only as the center of the worldwide money cult, but also the last official bastion of the Temple of Baphomet.

When evaluating the current circumstance we must observe that there is a long association of the legal profession with this religion going back to ancient times. The Galli were priests of this religion who came to Rome via Turkey in the Second Century B.C.E. and promptly became tax collectors for Rome. They were distinguished by their hooded black robes and by bleaching their hair white, a tradition carried on by British Barristers who wear black robes and white wigs to this day.

The black robes were also adopted by the Inquisition.

As recently as last century, apprentice attorneys in Scotland were called "devils" and received professional-level instruction on how to lie.

This religion also has a long association with sailors and the sea, and it was always popular among pirates. Its practice by sailors and pirates led to it being dispersed worldwide, and it has continued to have a following in the ranks of the world's Naval Forces to this hour. Adherents of this cult have greatly influenced the Law of Admiralty --- "for behold, Satan is cast down into the sea" --- and British Maritime Law, too.

Given this history it is easier to see why the first social and cultural institutions to be undermined and misdirected by the followers of this cult are the courts, the banks, and the Navy. The same thing happened in Babylon, Greece, Persia, Carthage, Rome, Phoenicia, Spain, and now England and throughout the English-speaking world.

In every case, the same plot-line is followed and the attack comes from the same sources --- the lawyers, bankers, and naval officers, who are supposed to be serving the nations they are in fact plundering. When they have pushed things too far and the backlash is coming, they move on like parasites to the next host nation --- in this case, to China.

It's time to haul this darkness out into the light --- the actual light -- and deal with it in the open, once and for all, so that all the people of the world can finally recognize what The Problem is, and deal with it. We believe that once this is done, the Bogey Man will be revealed as nothing more than a coordinated effort by criminals to gain wealth and power, not much more sophisticated than any other garden variety fraud scheme, simply carried out on a vast scale and owed an equally vast international response.

We have already explained how the Federal Reserve Note was created as a "blood money" currency based on the labor and intellectual property rights of living people, and we have touched upon part of the reason why the mostly British Masterminds in charge of the Great Fraud both removed our American gold and silver from our shores and deliberately undermined the commodity-based

monetary standards so as to expedite risk-free commodity rigging opportunities for the governments, agencies, and financial institutions involved.

Now that you can see how the "land of the free" was converted into the "land of the slaves" by guile and Breach of Trust by the Government of Westminster and its minions, the many members of the "legal societies" and Hired Jurists employed by the British Monarch, all acting under the influence of the old Babylonian money cult --- you can also see the pattern of abuse and motives giving rise to the tragedy unfolding on our Southern Border.

This crisis should be of eminent concern to the court and to the people of the world, if only because it so tragically demonstrates the end result of commercial self-interest co-mingling with governmental policies, and all resulting in death, chaos, and destruction for innocent living people.

The Municipal Corporation implementing the policies of the Municipal Government of the United States is designed to create overwhelming and "eternal" debt on purpose. It creates this debt by never actually paying its bills, and instead advancing itself through the abuse of credit and issuance of currency based on the credit of others.

To keep this scam running requires that they either constantly increase the number of new "citizens" they can latch onto as property, or constantly decrease the number of their current priority creditors--- those same citizens acting in their private capacity as mechanics, farmers, school teachers, and so on.

You will remember that in the example given yesterday, one of the actual Privateers responsible for implementing this system, admitted that the "Person" of Governor Bill Lee was despised as a debtor and non-entity, but the royal Subject, Bill Lee, was the creditor -- that is, the Queen was the creditor in his mind.

However, the Queen ---in this country--- is a service provider and trustee, not the sovereign in whom all rights, titles, and interests are vested. That role belongs to the American States and People, who have been deliberately defrauded and impersonated in gross Breach of Trust and violation of Commercial Contract, by the Queen's Government and the Government of Westminster working hand-in-hand, with support and collusion since 1937 by the Vatican City State and Municipal United States Government.

Cast your eyes now to the Southern Border of The United States --- not "the" United States, which has no border. More than a million people in Central and South America are on the move, and most of them think that they are coming to America, the land of freedom and milk and honey, where there is food for everyone and everyone has their own house and a car..... but when they get here, they are greeted instead by "the US" ---- a filthy, misdirected, corrupt, profit-driven "governmental services provider" intent on capturing their living flesh and registering them and their assets as property belonging to The Company. That's why Joe Biden has an "Open Doors Policy".

It has nothing to do with offering these people an opportunity for a better life and it certainly has nothing to do with freedom. It has to do with the per capita "value gain" of rebranding a Honduran as a citizen of the United States. Our cows are prime property and get top dollar in the marketplace--- Honduran cows not so much, but rebrand them and pass them off as American cows, and they are suddenly worth hundreds of times more than they were on the other side of the border.

Simple economics, but false advertising, and all as illegal, immoral, and unlawful as any level of Hell.

We call upon The International Court of Justice and all the other assembled nations of the world to look ---- really look ---- at what is going on here. A self-interested European commercial corporation pretending to be our government is "opening up" our Southern Border --- to expedite the human trafficking and enslavement of potentially millions of people.

That is what is actually going on here, and it is all being done under conditions of non-disclosure and fraud. If those people from Mexico and Central America had any idea that they were being solicited to act as debt slaves, would they come here and send thousands of their innocent children through the noxious polluted waters of the Rio Grande, thinking that they are sending them to a better life?

While purportedly standing tall for "human rights" the lesser courts of Europe acting as non-judicial tribunals, have all gone along with plans to forcibly vaccinate the entire population of European countries--- an action which will in a few short years lead to the deaths of millions of Europeans who have the right to expect good faith service from their Hired Jurists, but those same Jurists are being misdirected by the scum in Westminster and Rome and Vatican City, Bern and Monaco and "DC" ----who are trying to juggle the books once again.

Remember, to keep their Uber Ponzi Scheme going, they have to constantly recruit new "citizens", seize the assets of these innocent people, "securitize" these assets, and use these assets as collateral backing their own credit. The process is no different than the identity theft and unjust enrichment practiced by a credit card hacker. And if they can't lie, cheat, steal, defraud, impersonate, and traffic enough people into their scheme, it all falls apart.

Then they are obliged to fall back to Plan B, and start another World War and kill off millions of their creditors, which Joe Biden and his Media Conspirators are pumping up in the background, too. It's not enough to maim and poison and sterilize people via nanotech, they are trying to prepare the American Public for war against China, war against Iraq, war against Ukraine.

And for what? Bad ideas come home to roost?

It is past time for all of this to stop and for the Perpetrators to be brought to justice. The actual Government of the American States and People is alive and

well despite the self-interested lies of our federal subcontractors and their instrumentalities which are being run as commercial corporations in the business of providing governmental services.

All corporations formed in this country since 1870 have been improperly formed and as they have been formed in our names and via the unauthorized exercise of our sovereign ability to charter such organizations, their correction and administration and ownership does ultimately fall to us and we are willing to make the necessary corrections---- but we are at a loss to deal with the colluding corporations that have been formed outside of this country and those which exist as trans-national corporations, which are operating within our borders as criminal enterprises.

We rely upon the High Courts to recognize the clear and present danger that these criminal activities and the organizations supporting them cause, and we have accordingly addressed The International Court of Justice, the Vatican Chancery Court, and the Court of the Lord High Steward to investigate, prosecute, and correct those corporations operating in international and global venues, that have engaged in the unlawful securitization of living flesh, in human trafficking and unlawful conversion of assets, impersonation and barratry, and all the other evils that accompany the Double-Ended Impersonation Scheme which has been employed to create the worldwide appearance of insurmountable debt --- which is owed, largely but not entirely, to the American People in the form of pre-paid credit.

We call upon the other nations that stand in need of debt amnesty and forgiveness to lift their heads and rally and realize that we only contribute to this criminality by allowing ourselves to be manipulated into wars that profit the same Vermin responsible for this. This is not about politics, religion or race; it is strictly and explicitly about organized crime and criminal activities taking place in international jurisdiction---- crimes and activities that require international action to stop and to address.
