

## Both "Sides" Are Right -- and Wrong -- As Usual

By Anna Von Reitz

I thought that after our expose of why it is not sane to attack China over the corona virus, it would be obvious that both sides--- President Trump in his comments, and China in their comments --- are correct.

They are pointing fingers at each other, because they don't see the Middleman standing between them.

What's missing is the Third Party information --- the Middleman. As usual.

That "Middleman" is the Deep State Military Industrial Complex that President Eisenhower warned us about. It's "the US" not the United States.

In this case, the criminals involved have already identified themselves.

George Soros funded the lab in China to do this.

Dr. Anthony Fauci provided the "feedstock" for the project, in contravention of United States Law, and also misappropriated NIH research funding to support this outcome.

Bill Gates invested heavily in this enterprise of creating dangerous viral agents, and also even more heavily, invested in vaccine manufacturing facilities.

The CDC, a private, for-profit vaccine manufacturer is complicit.

DARPA, a US PENTAGON agency, is complicit.

The WHO, and especially their "Eugenics Council" is complicit.

The World Bank is complicit to the tune of \$500 million in "Pandemic Bonds".

The Council on Foreign Relations, and especially Dr. Henry Kissinger, is complicit.

Dr. Charles Lieber, biological nano-scientist, late head of the appropriate departments at Harvard University is up to his eyeballs in this.

The Wellcome Trust and the Pirbright Institute have their hands dirty.

And most of all, the Government of Westminster has admitted their "agency" in all of this, including the use of 5G to trigger SARS viruses, by advertising it blatantly on the new British 20 Pound Note.

We know who did it, and while its true that individual Chinese scientists worked on this project, it's not a Chinese project. So President Xi is correct.

It's certainly not an American project, either. So President Trump is correct.

It's a "US" project promoted by Nazi Corporatists, and they've been hiding in plain sight, playing both ends -- all these National Governments -- against the middle.

Which comes back down to what we have said for the past thirty-plus years: this is not a matter of politics. It's a matter of crime.

It's a matter of arresting certain individuals, confiscating their assets, and executing them in public for crimes against humanity. Convincing them that they can't get away with this, and putting a stiff price on it, is the only way to stem the tide on such profitable criminal activity.

That, and making it illegal to profit from medical technologies, as it used to be prior to Tricky Dick Nixon.

It turns out that the prohibitions against profit-making from medical procedures and technologies and even drugs that were in place prior to Nixon served us all very well. But Nixon owed debts to certain campaign contributors, and he was inclined to do favors for them in consideration of those debts disappearing. Those prohibitions were removed, and now we have huge corporations and quasi-government organizations conspiring to deliberately create new diseases so that they can force-peddle vaccines and make billions in illicit profits.

It's not hard to see --- once you see it at all.

According to Sorcha Faal:

**"Nobel Prize** winning **French** virologist **Doctor-Scientist Luc Montagnier**, who discovered the **HIV** virus back in **1983**, and currently works as a full-time professor at **Shanghai Jiao Tong University** in **China**, affirmatively declared that the coronavirus rampaging across the world killing tens-of-thousands of innocent peoples: **"*Could Only Have Been Created In A Lab*"**—thus assuring that whoever created this coronavirus as a bioweapon, will receive a crushing **Russian** military response for doing so."

So, we have world-class confirmation that "Covid 19" was deliberately engineered in a lab. We already know that, but, if you need confirmation, Luc Montagnier is as good as it gets.

President Xi and President Trump are both stomping around, tacitly blaming each other's country for it, when in fact, both US citizens and Chinese were involved in this debacle, and neither government condoned it.

The United States outlawed it a year prior to Dr. Fauci's sleight of hand.

It's not the fault of "China", not the fault of "America", and this time, it's not even the fault of "the United States".

Its the fault of individuals running wild with profit-motives and no morals at all, its the fault of quasi-governmental organizations promoting Corporatist Agendas, its the fault of sleazy military-industrial-complex interests, its the fault of failed and repealed legislative prohibitions that should have still been in place and protecting all of us by taking the profit-motives out of medicine.

And at the end of the day, this is all just crime-for-profit.

So, instead of planning any massive crushing Russian military option, Mr. Putin needs to be siccing his international police on the problem. And so does President Xi. And President Trump.

Round the criminals up.
