

## For the British Prime Minister and Principle Parties

By Anna Von Reitz

These items are a simple communication presented to the British Prime Minister by the lawful government of the United States. We consider the British Government responsible for much of the harm that has been done --- responsible, though in the current generation, not to blame. We would like:

1. Permanent cessation of any Territorial, Municipal, or Regional "citizenship" obligations being presumed upon the American people who are not by birth or actual occupation naturally subject to these foreign political statuses;
2. The establishment of a non-invasive means of identifying American state nationals to distinguish between them and United States citizens at a glance, to expedite issuance of proper passports and travel IDs and also allowing for efficient administration of applicable law;
3. The end of registration and conscription of American state nationals into federal pension plans, e.g., "Social Security", health insurance plans, and other corporate enrichment schemes executed under color of law as government mandates when in fact such mandates do not apply to them;
4. The end of legal prosecution of American state nationals as presumed federal citizens and their unlawful incarceration and harassment under these false pretenses;
5. The end of personage and press-ganging used against American state nationals by members of the Bar Associations acting as Undeclared Foreign Agents and unlicensed privateers;
6. The reform of federal government accounting and reporting practices to guarantee transparency;
7. The reform of commercial banking law to prevent acquisition of state bank and government agency names, trademarks, and copyrights so as to confuse the actual nature of the parties involved in transactions and also to prohibit the combining of commercial and investment banks;
8. The vacating and/or voluntary sharing of our state and local public facilities as local need dictates;
9. The release of American political prisoners and others who have been convicted of non-violent victimless crimes, regulatory infractions, and failure to comply with implied contracts which do not exist under American Common Law;
10. A Declaration of Lasting Peace ending any and all "war" or "emergency" related to the American states and people or purporting any controversy on our shores or within our states;
11. The concurrent end of any presumption of "enemy" status attaching to American state nationals at home or abroad;

12. The honoring of the obligations of the British Monarch and Holy See and Westminster to protect all Americans engaged in peaceful international trade;
13. The recognition of our lawful pre-1860 civil peace flag of the Republic as our international ensign and flag now flying, characterized by its red and white vertical stripes and blue stars set against a white left corner block;
14. The recognition of the American Silver Dollar and certificates based on silver as our traditional and lawful form of money;
15. The recognition of the American Common Law as the law form owed to our states and people;
16. The return of our land patents absent any false claims of abandonment, neglect, or voluntary release;
17. The return of all titles, patents, trademarks, and copyrights taken to American assets, including our given names and estates;
18. The return of unlawfully converted American fungible assets –public and private business, bank, retirement, escrow, and estate accounts-- to their rightful owners;
19. The reform of the Internal Revenue Service(s) to properly re-venue all assets public and private per Items 12, 13, and 14 above;
20. The end of media manipulation, monopolization, black-outs, gag orders and spying without probable cause;
21. The de-militarization of all police and federal agencies to expedite peace time functions;
22. The re-tasking of the FBI to investigate and prosecute interstate bank fraud, interstate securities fraud, copyright and patent infringement, and human trafficking;
23. Recognition of our land jurisdiction County Sheriffs and our Federal Marshals who serve the international land jurisdiction under the un-delegated reserved powers of the states;
24. A moratorium on new non-essential legislation and a mandatory review process to correct former legislation so as to expedite implementation of these remedies and reforms;
25. The end of all efforts, practices, and directives seeking to confuse, deceive, or defraud anyone;
26. The establishment of a truly equitable credit-based monetary and financial system that reflects abundance and which properly values the abilities, resources, and labor of all people.

Most of all, we would like the sincere and solemn commitment of the British Government and all Principle Parties to fully support the complete restoration and success of our lawful government. We feel that the long and uncompensated labors of our people, the use and often the abuse of our resources, and the overall criminal nature of the methods and means that have been employed against us merit your complete understanding.
