

Calling Out the Roman Curia

By Anna Von Reitz

Any thing that is incorporated is a lie. It is called a "legal fiction" because it is a fiction---- made up out of thin air. A lie, in other words. And all lies have their genesis with who?

The Father of All Lies.

A corporation is allowed to exist by "wink and a nod" consent and because the Roman Curia that dreamed up and invented all the various forms of corporations -- S Corps, B Corps, C Corps, Non-Profits, Foundations, Trusts, etc., etc., etc., has promised the rest of the world to destroy any corporation that indulges in unlawful activity by liquidation.

But, surprise, surprise, surprise! The people responsible for creating these humongous "Whoppers" in the first place, have been remiss in their duties.

They've stood by and profited themselves and let the very worst offenders against Mankind and against the Public Law grow fat and sassy on insurance fraud and bribery, racketeering, and kidnapping and press-ganging and inland piracy---- and then claim bankruptcy protection for themselves.

So these evil lawless corporation have been allowed by the Roman Curia to run rampant, to lie, steal, kill, fornicate, kidnap, enslave and profit from all their crimes ---- then turn around under a different name and do it all again, seeking and receiving bankruptcy protection each time, while the victims of all this take the pie in the face and pay the bill for it.

Well, fellas, let's just say ---- not anymore?

It's the corporate version of absolution for a price. Indulgences for the 1%, screw you for everyone else, especially the little children.

"Oh, I know I am a Sinner, but I am really sorry now that my Creditors are here upon me! Oh, grant me bankruptcy protection and I promise I won't do it again (at least, not under the same name!)"

The Scottish Government of the UK infringed on our Good Name and Sovereign Patent in 1868 by incorporating "The United States of America, Inc." and stealing our identity and hacking into our credit. The King who was supposed to be our Trustee turned a blind eye and took kickbacks. The Pope, too. And when the fraud was discovered, they asked for bankruptcy protection and got it, leaving us to pay their bills.

Now they are right back at it. The Scottish Government of the UNITED KINGDOM is again infringing on our Good Name and Sovereign Patent and has incorporated THE UNITED STATES OF AMERICA, LLC and is proposing another round of fraud and credit theft and hypothecation of debt.

We want to cut out the "sinning" part and cut right to the part where the Scottish Government and their Templar Bankers are down on their knees confessing and begging for protection.

Let's all just "edit the film loop" so that as soon as any entity on Earth tries to incorporate anything in our Good Names or the name of our Federation or of any member State, it just rolls over and goes----- zip! Error! Error!

And let's then skip to the part where the Curia orders the liquidation of the offending corporations and says, "We may be required to forgive, but we are not required to forget. You are confirmed and stubborn Sinners, and must pay the penance owed directly to the victims."

And then they can do the same Reality Edit on the government of FRANCE, BELGIUM, and SWITZERLAND and the UN CORP for trying to do the same thing as the Government of Scotland and the UNITED KINGDOM.

In fact, as far as we are concerned, the liquidation of all Municipal Corporations would be a step in the right direction, not just the UNITED STATES, not just the DOD, the PENTAGON, the US NAVY, and all the rest of the alphabet soup agencies.

The duty of the Roman Curia in these matters is painfully clear. They are on the hook to liquidate all corporations that function in an unlawful manner. All of these entities made of hot air need to disappear like the puffs of smoke and demon's breath they represent. And no bankruptcy protection is allowed the same Principals.

Notice to the Roman Curia: we aren't members of the Hellfire Club and aren't going to pay any dues or accept any Odious Debts. Take that one to the BANK OF SCOTLAND for us, even if you have to paddle all the way to China.
