

Conference of Governors Does Not Represent Us -- Notice to Karen Hudes

By Anna Von Reitz

Europeans may be ignorant of the facts, but the Conference of Governors does not now and never did represent America nor Americans.

The Conference of Governors is an organization that has no authority vested in it by the American People.

The Conference of Governors is populated by British Territorial and Municipal "Governors" acting in secretive insurrection under the auspices of their thoroughly debunked agreements culminating in the 1937 document entitled: "The Declaration of Interdependence of the Governments in The United States".

As Ms. Hudes can now clearly see, they are referencing our Union of States, The United States, as a separate entity that they are operating "in".

And so it is. These are all Federal Subcontractors. These people do not speak for nor act for the American People when the American People are in Session and operating and presenting their own Government, in the form of their unincorporated Federation of sovereign and independent States: The United States of America.

All that the Conference of Governors speak for are their own foreign State-of-State organizations and their own foreign citizenry.

They have nothing to do with the actual government of this country, nor its people, except that they are supposed to honor their contracts published as The Constitution of the United States of America and The Constitution of the United States, which they have been actively evading for the better part of a century.

This is now coming to an end, and Ms. Hudes and the World Bank need to be fully informed that any agreements they make with the Conference of Governors will not create an agreement with the States and the People of this country who are the actual Parties of Interest.

All fifty State Assemblies are now in Session. As of September 30th, all States will be formally enrolled.
