

Dear Mr. Rothschild --- Payment of Account and Contract Status

Dear Mr. Rothschild,

As you are aware we authorized payment of the entire UNITED STATES debt and have forwarded the paperwork to the Pope and to the Bank of International Settlements.

As you are also aware, much of that debt had nothing legitimate to do with us nor with our presumed service contract with the UNITED STATES. We have been obliged to pay for "services" we didn't order, and have not received services that we did stipulate, which is a problem that needs to be resolved by arbitration. We have also been obliged to pay for services rendered to Third Parties absent any agreement ever signed by fiduciary deputies of ours. That also represents a problem requiring resolution and arbitration.

The services of your corporations, both the insolvent UNITED STATES and THE UNITED STATES OF AMERICA have long been rife with self-interest, disrespect for your clients, dishonest dealings, and in recent years, criminal racketeering in violation of the treaties and commercial contracts allowing the operation of these corporations and their personnel within the Continental United States.

We have already given Due Notice that we do not anticipate any renewal of contract with the UNITED STATES nor with THE UNITED STATES OF AMERICA, both of which have been criminally mismanaged in the past. We object to any presumption by the UN Corporation or by the French Government in this matter and we are not deceived by the attempt to package the "Neu Republique" as any new American Republic.

Whatever governmental services THE UNITED STATES OF AMERICA offers are merely commercial services for hire under the stipulations of the original Federal Constitution, without any implied obligation on our part to continue any relationship long term.

Respectfully,

James Clinton Belcher
