

## The TWO Unions -- Our Dominion and Order

By Anna Von Reitz

We've been lied to. It's really as simple as that. So, now that we know, we are responsible for making correction.

We were told in school that "The Articles of Confederation" which created a "perpetual union" of the National-level States of America as of March 1, 1781, was somehow replaced by the constitutional agreements that came along a decade later.

But that's a lie.

If it were true, there would be action either by The United States of America (Unincorporated) or by the States of America in Congress Assembled, repealing and dissolving The Articles of Confederation. No such documentation exists. Therefore, The Articles of Confederation remain in full force and effect.

Just like the non-existent Declaration of War commencing what has been misnamed "The American Civil War" and the non-existent Peace Treaty ending it ---it's what isn't there, but should be, that tells the tale.

So let's look a bit deeper. The United States of America (Unincorporated) came into existence September 9, 1776. It's member states are international land jurisdiction states simply named like this: Maine, New Hampshire, Vermont..... et alia. This is a positive "federation" of states and is therefore described as "federal"--- as in "federal government" and "Federal Marshals". It has also been deceitfully misapplied as an adjective: Federal Reserve, Federal Express, Federal Credit Unions.

People need to remember that just because something says "federal" doesn't mean that it is part of our lawful government. There are many kinds of "federations" and many federations on Earth that can and do refer to themselves as "federal"--- yet have nothing to do with The United States of America (Unincorporated).

The States of America came into existence March 1, 1781. Please note that both Unions came into existence during the actual Revolutionary War. It's member states are National-level States of States functioning in the international jurisdiction of the sea named like this: The State of New Hampshire, The State of Vermont, The State of Georgia..... This is a negative "confederation" of states naturally resulting from, yes, you guessed it --- The Articles of Confederation.

As you can see from the title of the original National-level constitution called "The Constitution for the united States of America" --- the word "united" is used as a descriptive adjective and is not part of the Proper Name, which is clearly "States of America"--- the name of the Confederation of States formed under The Articles of Confederation.

When the so-called Civil War broke out, members of this preexisting Confederation of States doing business as States of America, broke away from it. The State of Georgia, The State of North Carolina, The State of South Carolina, et alia, then formed a new union of National-level States of States called---- yes, appropriately enough, The Confederate States of America.

Why? Because they were forming a new "confederation" of states. Like the word "federal", the word "confederate" is simply a descriptive adjective telling us what kind of organization and membership is involved.

So: The United States of America (Unincorporated) is a federation of international land jurisdiction States doing business as: Iowa, Maine, Wisconsin....

The States of America (Unincorporated) is a confederation of international sea jurisdiction States of States doing business as: The State of Maine, The State of Wisconsin..... and so on.

In your lifetime you have probably never seen a reference to, for example, The State of Georgia--- and if you did, you would probably assume that it was talking about the State of Georgia you are familiar with, but you would be wrong.

The only State of Georgia that we are now familiar with is the Territorial "State of Georgia, Incorporated" --- an incorporated franchise of a foreign, for-profit, privately owned and operated commercial corporation in the business of providing "essential government services" under an international treaty and secondary commercial services contract called, The Constitution of the United States of America".

National Constitution = The Constitution for the united States of America. (1787)

Territorial Constitution = The Constitution of the United States of America. (1789)

Municipal Constitution = The Constitution of the United States. (1790)

Generations of American school children have been taught nothing about the actual founding Constitution upon which the other two Constitutions depend for their existence. This is because the Territorial and Municipal Governments exercise "powers" that are only delegated to them.

First, The United States of America (Unincorporated) whose international land jurisdiction States originally also held all the "powers" in the international jurisdiction of the sea, delegated their powers in the international jurisdiction of the sea to their own National-level States of America (Unincorporated).

From 1776 to 1781, the States, like Vermont, did it all.

In 1781, they separated their land jurisdiction functions from their sea jurisdiction functions and delegated the international sea jurisdiction to The States of America. For example, Vermont delegated its international sea jurisdiction to The State of Vermont.

From 1781 to 1787, The States of America held and exercised all "powers" in the international jurisdiction of the sea.

In 1787, following the adoption of The Constitution for the united States of America, these National-level States of States split their powers and delegated a portion of their powers in the international jurisdiction of the sea to the British-backed Territorial United States. The nineteen enumerated powers were said to be delegated under the Treaty of Peace, Paris, 1783 --- the deal cut with George III to end the Revolutionary War.

After the so-called Civil War, which was actually just a nasty illegal commercial mercenary conflict on our shores, the British Territorial United States exercising its constitutionally granted responsibility to provide our States with a "mutual defense" acted in gross Breach of Trust.

They set up a foreign commercial corporation and named it "The United States of America, Incorporated" --infringing on our copyrights and abusing our delegated powers.

It opened up franchises in every state under deceptively similar and incomplete names --- the State of Georgia (Incorporated), the State of New Hampshire (Incorporated), and so on, so as to deceive and defraud the American People into thinking that these new foreign Territorial United States businesses were "the same as" The State of Georgia and The State of New Hampshire, et alia.

What happened to our National-level States of States?

To put a nice face on their illegal and immoral usurpations and Breach of Trust, the British and their bought-and-paid-for American sycophants operating the Territorial Congress "as if" it were the actual National-level Congress, rolled the assets of the original National-level States of States into land trusts, and have operated them for their own benefit under names like: Texas State, Florida State, and Iowa State.

While deliberately defrauding and deceiving Americans into thinking that their Territorial "State of Georgia" was the same as and fulfilling the same role as "The State of Georgia", they told the rest of the world that our National-level States of State were under "reconstruction" and that our National Government was in "abeyance".

They lied out of both sides of their mouths -- working a constructive fraud against us and another constructive fraud aimed at the rest of the world--- all to cover up their own illicit, immoral, illegal, and unlawful usurpations against their loyal employers. They are criminals and fraud artists, and when these facts began to be explored, they claimed that all this was excused under the exigencies of "war"--- the so-called Civil War, a "war" that never was.

Our States have been at peace since 1814. Our People remain exactly where they have always been, despite the deliberate falsification of millions of public records by agents of the British Crown Corporation.

We have seen the evidence in full and we declare that this is not and never was anything but unbridled international crime and legal chicanery carried out by the British Crown and the British Government and the British Monarch operating under conditions of open and deliberate fraud, Breach of Trust, and violation of Commercial Contracts (the Constitutions) owed to us.

Whereupon we have, promptly upon discovery of these facts and these actions purportedly taken "for" us and in "our behalf" --- objected in the strongest terms possible, have given extensive international Notice, have established international liens and published our Private Registered Indemnity Bonds in favor of the America States and People. We have "returned home" and corrected the falsified public records and reorganized The United States of America (Unincorporated) to bring forward the claims of this nation and our sovereign member States.

We delegated none of our powers on the soil and land and, upon the inability of our National-level States of States to perform their delegated powers in the international jurisdiction of the sea, all such delegated powers naturally and by right return to us. Not the British "Help".

We testify before the entire world that our sovereign States, Maine, Wisconsin, Iowa, California, Texas, et alia, have never ceased to function and are not now or ever were in any kind of "abeyance" and neither, for that matter, has our federation of States ever ceased to function.

Our Law is the American Common Law. Our money is the American Silver Dollar. We are alive and well, though we have been the victims of international criminals, and despite their falsification of our public records and their abuse of our Patent, Trademark, and Copyright Offices, we have "returned home" to our natural permanent domicile on the land and soil of our native states.

We call upon every nation to bear Witness to these facts and to the Great Fraud that Britain and the international banking cartels have wrought upon the rest of the world. We call upon every peacekeeping and law enforcement unit in every state and nation to bear Witness that we, The United States of America (Unincorporated) and our member States, are the lawful government of this country, the Source of Record for all delegations of power without exception, and we have seized back control of our rightful dominion and have acknowledged, accepted, and reconveyed our delegated powers and our assets back to our own control.

All land jurisdiction and international sea jurisdiction powers are rightfully ours and we claim them, together with all assets held in trust, all leases, all rents, all escrows, all insurances, all pensions and everything else that is due and payable.

The criminally misdirected Municipal and Territorial "Governments" need to stand down and do their actual work in good faith or get out.

There will be no further pretension of our government being in "abeyance" in any respect or at any level. We are at peace and it is our desire to remain so, but we are not going to tolerate any more British Bunko or excuses from international banks refusing to allow us access to our own accounts or any more pillaging and plundering of bogus "public trusts" by Territorial and Municipal Courts dry-docked on our shores.

It's over. All Territorial and Municipal Employees both military and civilian have only two options: (1) go back to work and do your work in Good Faith and in behalf of the American States and People, or (2) be recognized as undeclared Foreign Agents and face international confiscation of your assets worldwide and deportation from our shores as criminals.

We will not honor the claims of birthright political status or protection that would otherwise be owed to any individuals who have knowingly undermined our government, preyed upon our people, pillaged our resources, or accepted titles of nobility from foreign governments in defiance of our constitutional prohibitions. Our shores will not be used as safe havens for criminals any more.

All members of the Bar Associations are suspect and any that fail to immediately cease and desist pillaging and plundering non-existent public trusts upon receipt of Mandatory Notice from any American claiming their birthright political status are subject to immediate arrest as war criminals and international confiscation of their assets.

All Americans not in the direct employment of the Territorial or Municipal Governments must be presumed to be lawful non-citizen and non-decedent people of the state republics without exception.

All Territorial military tribunals operating as "US District Courts" and all associated federated "State of" and "County of" Court Systems are hereby warned that all Americans who are not explicitly and actually federal civilian or military employees are naturally exempt from their jurisdiction and may not be presumed to be volunteers based on any public or private records or purported labor contracts, owing to the vast and widespread falsification of these records.

Even off-duty federal civilian and military employees must be accorded the protections of their birthright political status and afforded their Constitutional guarantees.

All prison wardens who are keeping American State Nationals under false arrest are hereby subjected to arrest and asset confiscation if they fail to release American prisoners accused of victimless crimes and/or statutory code infractions that these people are naturally exempt from.

All Americans claiming their birthright political status are owed The Law of Peace, Department of the Army Pamphlet 27-161-1.

All Municipal courts operating illegally outside the District of Columbia must be shut down without further ado and returned to local control of the States and actual Counties.

So Ordered under the authority of The United States of America (Unincorporated) 1776, by Postal District 3 Court, Judge Anna Maria Riezinger.

Please forward copies of this Order to President Donald J. Trump and British Prime Minister May and the Office of the Prosecutor at the Hague at your earliest possible convenience.
